The Big Ditch

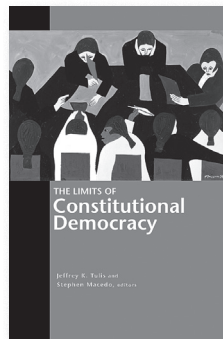

How America Took, Built, Ran, and Ultimately Gave Away the Panama Canal

Noel Maurer & Carlos Yu

“This landmark book offers important new insights that will significantly advance our understanding of the national and global economic consequences of the Panama Canal. It will have a profound and lasting impact on the history of U.S. imperialism in Latin America and represents a contribution to the emergent literature on the new political economy of empire.”

—Alan Dye, Barnard College, Columbia University

The Limits of Constitutional Democracy

Edited by Jeffrey K. Tulis & Stephen Macedo

“In this book, some of our most subtle thinkers about the constitutional order discuss its fundamental aspects. These challenging and provocative essays should lead us to think more deeply about problems of constitutionalism in a twenty-first century world of seemingly permanent war and emergency, executive power, religious conflict, and globalization.”

The Blame Game

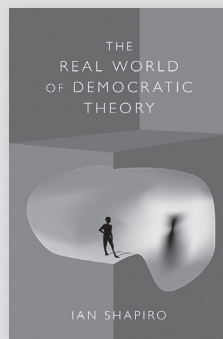

Spin, Bureaucracy, and Self-Preservation in Government

Christopher Hood

“Christopher Hood takes a simple proposition—that politicians and bureaucrats are mainly concerned about blame avoidance—and uses it to construct a new way of thinking about the organization of public services. In the process, he turns conventional wisdom about the aims of bureaucratic reform on its head. If you learn nothing from this clever and erudite book, you have only yourself to blame.”

—Alasdair Roberts, author of *The Logic of Discipline*

Cloth \$39.95 978-0-691-12995-2

The Real World of Democratic Theory

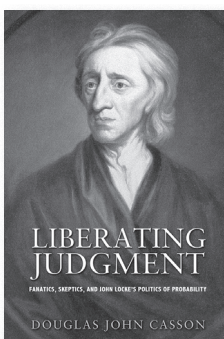

Ian Shapiro

“Ian Shapiro is one of our best political philosophers. This book shows why, combining incisive analyses of canonical figures and concepts with thoughtful moral judgments to illuminate difficult political situations. Few other people combine such breadth and depth. Perhaps no one will agree with everything in these essays, but everyone will learn from them.”

Liberating Judgment

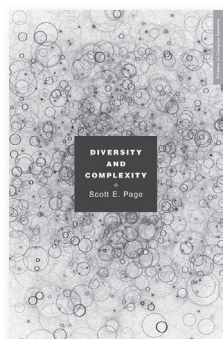

Fanatics, Skeptics, and John Locke's Politics of Probability

Douglas John Casson

“*Liberating Judgment* is a welcome addition to the literature on Locke. More clearly and powerfully than any previous book, it traces the importance of the theme of probable judgment across several aspects of Locke's work, including his writings on medicine, epistemology, metaphysics, economics, and politics.”

—Alex Tuckness, Iowa State University

Diversity and Complexity

Scott E. Page

“Scott Page has performed a remarkable work of synthesis. The concepts of diversity and its implications for performance and growth are common to many fields, especially biology and economics. Page has drawn these illustrations together and shown the common elements and how each field illuminates others.”

—Kenneth J. Arrow, winner of the Nobel Prize in economics

THE STRONG HORSE

Power, Politics, and the Clash of Arab Civilizations

by **Lee Smith**

"Lee Smith is the rarest of Middle East commentators, an observer without any ax to grind, whose book is a hammer shattering many of the blithe pieties about the Middle East that prevail in academia, government, and the media." —Peter Theroux, former Director of Persian Gulf Affairs, National Security Council, and author of *Sandstorms: Days and Nights in Arabia*

Anchor | Paper | 256 pages | \$14.95

THERE IS POWER IN A UNION

The Epic Story of Labor in America

by **Philip Dray**

"Philip Dray offers a panoramic narrative of the work and struggle, the triumph and tragedy, that has been the fate of trade unionism in the United States. His lively and insightful history belongs on the shelf and in the hands of all those who want to organize ourselves out of the social and economic predicament in which the nation now finds itself."

—Nelson Lichtenstein, Director of the Center for the Study of Work, Labor, and Democracy, UC Santa Barbara

Doubleday | Cloth | 784 pages | \$35.00

A FIERY PEACE IN A COLD WAR

Bernard Schriever and the Ultimate Weapon

by **Neil Sheehan**

"Here, masterfully recounted, is the epic tale of the decisive scientific battle of the Cold War—for supremacy of the skies and space—told through the remarkable story of Air Force general Bennie Schriever. Once again, the legendary reporter Neil Sheehan has unearthed a hidden trove of the history of our time. . . . A stunning achievement." —Carl Bernstein

Vintage | Paper | 576 pages | \$16.95

THE MASTER SWITCH

The Rise and Fall of Information Empires

by **Tim Wu**

"*The Master Switch* . . . is a rigorous, imaginative and enthralling history of the Twentieth Century struggle among utopian innovators, profit-maximizing monopolists, and their often-hapless regulators. Wu has convincingly reinterpreted our media past, and by doing so, he has illuminated the risks to open media and Internet-enabled innovation that confront us in the present." —Steve Coll, President, New American Foundation, and author of *Ghost Wars*

Knopf | Cloth | 384 pages | \$27.95

PUNCHING OUT

One Year in a Closing Auto Plant

by **Paul Clemens**

Paul Clemens' up-close report of the closing of the Buddy Company stamping plant on Detroit's East Side, one of the oldest active auto plants in America and a potent symbol of America's former industrial might.

Punching Out is a lament for the working-class culture that once defined a prosperous America—and that is now on the verge of economic extinction.

Doubleday | Cloth | 288 pages | \$25.95

MAD AS HELL

The Crisis of the 1970s and the Rise of the Populist Right

by **Dominic Sandbrook**

Moving deftly between social, political, and cultural history, Dominic Sandbrook gives a powerful view of the 1970's and the watershed moments that gave rise to the populist right. A comprehensively researched, sweeping account of America's contemporary defining era, *Mad as Hell* presents an illuminating new awareness to seminal pieces of our national history, affording us a deeper understanding of their resonance in our own time.

Knopf | Cloth | 528 pages | \$35.00

THE NEXT DECADE

Where We've Been . . . and Where We're Going

by **George Friedman**

George Friedman's follow up to *The Next 100 Years* focuses his geopolitical forecasting acumen on the next decade and the imminent events and challenges that will test America and the world. The next ten years will be a time of massive transition and George Friedman puts the world's leaders under a microscope to explain how they will arrive at their decisions—and the consequences these actions will have for us all.

Doubleday | Cloth | 256 pages | \$28.95

13 BANKERS

The Wall Street Takeover and the Next Financial Meltdown

by **Simon Johnson and James Kwak**

"Too many discussions of the Great Recession present it as a purely economic phenomenon. . . . Simon Johnson was the first to point out that this was and is a crisis of political economy. His and James Kwak's analysis of the unholy inter-twinning of Washington and Wall Street . . . is essential reading." —Niall Ferguson, William Ziegler Professor, Harvard Business School, and author of *The Ascent of Money*
