WEED SCIENCE

Published six times a year by the Weed Science Society of America

William K. Vencill, *Editor*

The Weed Science Society of America publishes original research and scholarship in the form of peer-reviewed articles in three international journals. *Weed Science* is focused on understanding “why” phenomena occur in agricultural crops. As such, it focuses on fundamental research directly related to all aspects of weed science in agricultural systems. *Weed Technology* focuses on understanding “how” weeds are managed. As such, it is focused on more applied aspects concerning the management of weeds in agricultural systems. *Invasive Plant Science and Management* is a broad-based journal that focuses not only on fundamental and applied research on invasive plant biology, ecology, management, and restoration of invaded non-crop areas, but also on the many other aspects relevant to invasive species, including educational activities, policy issues, and case study reports. Topics for *Weed Science* include the biology and ecology of weeds in agricultural, forestry, aquatic, turf, recreational, rights-of-ways, and other settings; genetics of weeds and herbicide resistance; chemistry, biochemistry, physiology and molecular action of herbicides and plant growth regulators used to manage undesirable vegetation, and herbicide resistance; ecology of cropping and non-cropping systems as it relates to weed management; biological and ecological aspects of weed control tools including biological agents, herbicide resistant crops, etc.; effects of weed management on soil, air, and water. Symposia papers and reviews are accepted. Consult the editor for additional information.

Associate Editors (Assignment Year)

Muthukumar V Bagavathiannan, Texas A&M, College Station, TX 77843 (2015)

Ian Burke, Washington State University, Pullman, WA 99164 (2019)

Carlene Chase, Horticultural Sciences Department, University of Florida, Gainesville, FL 32611 (2016)

Bhagirath Singh Chauhan, Queensland Alliance for Agriculture and Food Innovation (QAAFI), The University of Queensland, Queensland, Australia (2014)

Sharon Clay, South Dakota State University Plant Science Department, Brookings, SD 57007 (2002)

Franck E. Dayan, USDA-ARS-NPURL, National Center for Natural Products Research, University, MS 38677 (2003)

Timothy Grey, Department of Crop and Soil Science, University of Georgia, Tifton, GA 31793 (2009)

Marie Jasieniuk, Department of Plant Sciences, University of California, Davis, CA 95616 (2016)

Prashant Jha, Iowa State University, Ames, IA 50011 (2017)

Mithila Jugulam, Kansas State University, Manhattan, KS 66506 (2019)

Ramon Leon, Department of Crop and Soil Sciences, North Carolina State University, Raleigh, NC 27695 (2016)

Sara Martin, Ag Canada, Ottawa, Canada (2018)

Vijay Nandula, Mississippi State University, Delta Research & Extension Center, Stoneville, MS 38776 (2008)

Chris Preston, Australian Weed Management, University of Adelaide, PMB1, Glen Osmond, SA 5064, Australia (2003)

Neha Rana, Monsanto, Chesterfield, MO 63005 (2017)

Dean Riechers, Department of Crop Sciences, University of Illinois, Urbana, IL 61801 (2011)

Hilary Sandler, University of Massachusetts–Amherst Cranberry Station, East Wareham, MA 02538 (2008)

Steven Seefeldt, USDA-ARS, University of Alaska, Fairbanks, AK 99775 (2011)

Patrick J. Tranel, Department of Crop Sciences, University of Illinois, 360 ERML, Urbana, IL 61801 (2002)

Te-Ming Paul Tseng, Mississippi State University, Mississippi State, MS 39762 (2019)

Martin M. Williams II, USDA-ARS Global Change and Photosynthesis Research, Urbana, IL 61801 (2008)

Chenxi Wu, Crop Science Division, Plant Biotechnology – Research & Development, Bayer U.S., Chesterfield, MO 63017 (2019)

Tracy Candelaria, *Managing Editor*

Officers of the Weed Science Society of America

<http://wssa.net/society/bod/>

Weed Science (ISSN 0043-1745) is an official publication of the Weed Science Society of America, 12011 Tejon Street, Suite 700, Westminster, CO 80234 (720-977-7940). It contains refereed papers describing the results of research that elucidates the nature of phenomena relating to all aspects of weeds and their control. It is published bimonthly, one volume per year, six issues per year beginning in January.

Membership includes online access to *Weed Science*, *Weed Technology*, *Invasive Plant Science and Management*, and the online *WSSA Newsletter*. Dues should be sent to WSSA, 12011 Tejon Street, Suite 700, Westminster, CO 80234 no later than December 1 of each year. Membership in the society is on a calendar-year basis only.

New subscriptions and renewals begin with the first issue of the current volume. Please visit the *Weed Science* subscription page at <https://www.cambridge.org/core/journals/weed-science/subscribe>; Email: subscriptions_newyork@cambridge.org in USA, journals@cambridge.org outside USA.

Weed Science publishes six times a year in January, March, May, July, September, and November. Annual institutional electronic subscription rates: US \$453.00; UK £315.00.

Please use Editorial Manager to access manuscript submissions (<http://www.editorialmanager.com/ws>). Authors are asked to pay \$65 per page as a portion of the cost of publication, plus an additional processing charge of \$55 per manuscript if none of the authors are WSSA members. The Editor can make exceptions in advance when justified.

The Weed Science Society of America fully subscribes to the belief that progress in science depends upon the sharing of ideas, information, and materials among qualified investigators. Authors of papers published in *Weed Science* are therefore encouraged, whenever practicable and when state and federal laws permit, to share genotypically unique, propagative materials they might possess with other workers in the area who request such materials for the purpose of scientific research.

WEED SCIENCE

Journal of the Weed Science Society of America

Volume 67 Number 4 July 2019

RESEARCH ARTICLES

Empirical investigation of mutation rate for herbicide resistance. <i>Federico A. Casale, Darci A. Giacomini and Patrick J. Tranel</i>	361
Characterization of multiple herbicide-resistant waterhemp (<i>Amaranthus tuberculatus</i>) populations from Illinois to VLCFA-inhibiting herbicides. <i>Seth A. Strom, Lisa C. Gonzini, Charlie Mitsdarfer, Adam S. Davis, Dean E. Riechers and Aaron G. Hager</i>	369
Target site-based resistance to penoxsulam in late watergrass (<i>Echinochloa phyllopogon</i>) from China. <i>Jian Liu, Jiapeng Fang, Zongzhe He, Jun Li and Liyao Dong</i>	380
Cross-resistance to acetolactate synthase (ALS) inhibitors associated with different mutations in Japanese foxtail (<i>Alopecurus japonicus</i>). <i>Ning Zhao, Yaling Bi, Cuixia Wu, Dandan Wang, Ludan You, Weitang Liu and Jinxin Wang</i>	389
Transcriptomics of host-specific interactions in natural populations of the parasitic plant purple witchweed (<i>Striga hermonthica</i>). <i>Lua Lopez, Emily S. Bellis, Eric Wafula, Sarah J. Hearne, Loren Honaas, Paula E. Ralph, Michael P. Timko, Nnanna Unachukwu, Claude W. dePamphilis and Jesse R. Lasky</i>	397
Sex-specific markers for waterhemp (<i>Amaranthus tuberculatus</i>) and Palmer amaranth (<i>Amaranthus palmeri</i>). <i>Jacob S. Montgomery, Ahmed Sadeque, Darci A. Giacomini, Patrick J. Brown and Patrick J. Tranel</i>	412
The response of glyphosate-resistant and glyphosate-susceptible biotypes of junglerice (<i>Echinochloa colona</i>) to mungbean interference. <i>Navneet Kaur Mutti, Gulshan Mahajan, Prashant Jha and Bhagirath S. Chauhan</i>	419
Interspecific and intraspecific interference of Palmer amaranth (<i>Amaranthus palmeri</i>) and large crabgrass (<i>Digitaria sanguinalis</i>) in sweetpotato. <i>Nicholas T. Basinger, Katherine M. Jennings, David W. Monks, David L. Jordan, Wesley J. Everman, Erin L. Hestir, Matthew D. Waldschmidt, Stephen C. Smith and Cavell Brownie</i>	426
Germination ecology for Florida populations of carpetweed (<i>Mollugo verticillata</i>), Carolina geranium (<i>Geranium carolinianum</i>), eclipta (<i>Eclipta prostrata</i>), and goosegrass (<i>Eleusine indica</i>). <i>Shaun M. Sharpe and Nathan S. Boyd</i>	433
Characterization of the phenotypic variability in Colombian weedy rice (<i>Oryza</i> spp.). <i>Veronica Hoyos, Guido Plaza and Ana L. Caicedo</i>	441
Genetic potential of rice under alternate-wetting-and-drying irrigation management for barnyardgrass (<i>Echinochloa crus-galli</i>) suppression and grain yield production. <i>David R. Gealy, Jai S. Rohila and Deborah L. Boykin</i>	453
An online decision support tool to evaluate ecological weed management strategies. <i>Douglas Bessette, Robyn Wilson, Christian Beaudrie and Clayton Schroeder</i>	463
Seed Dormancy and Seed Morphology Related to Weed Susceptibility to Biofumigation – CORRIGENDUM <i>Maxime Lefebvre, Maryse L. Leblanc and Alan K. Watson</i>	474
