

ANIMAL PRODUCTION

JOURNAL OF THE BRITISH SOCIETY OF ANIMAL PRODUCTION

AUGUST 1969

VOL. 11 PART 3

**OLIVER & BOYD LTD
EDINBURGH AND LONDON**

INFORMATION FOR CONTRIBUTORS TO *ANIMAL PRODUCTION*

Animal Production publishes papers on original research provided that they have not been and, with the exception of authors' summaries, will not be published elsewhere without the Editors' written permission. Authors' summaries can be reproduced if full acknowledgement of the source is made.

Contributions may be in the field of animal production, or in any related scientific field. Reports on techniques will be published only as appendices to scientific papers. Results of research which do not warrant a comprehensive presentation may be submitted for consideration as *Notes*. *Notes* are not intended for the publication of interim results. They should not exceed 2000 words or the equivalent inclusive of tables and illustrations.

Manuscripts should be typewritten in double spacing with wide margins. Each page and the lines on each page should be numbered. *Two* copies of the typescript (one of illustrations) should be sent to

Dr. Gerald Wiener,
Animal Production,
A.R.C. Animal Breeding Research Organisation,
West Mains Road, Edinburgh EH9 3JG

Manuscripts are not returned with proofs; authors should therefore retain copies.

For guidance to the general style which should be adopted in the writing and presentation of papers authors are referred to *General Notes on the Presentation of Scientific Papers* (2nd revised ed., 1965) published by the Royal Society, London (price 5s.). Points of detail applying particularly to *Animal Production* are given below.

Units of Measurement. Metric units should be used whenever possible and exclusively for papers published from 1971 onward. (Exception may be made for papers in series started prior to 1970.)

Illustrations. The same material should not normally be presented in tables and figures. Legends should be typed on a separate sheet.

- (a) Diagrams should be drawn in Indian ink, about twice the size of the finished block, on Bristol board or stout tracing paper. Photographed diagrams are also accepted. Lettering inside the framework of the diagram should be inserted in Indian ink. Marginal lettering may, if preferred, be inserted lightly in pencil.
- (b) Photographs intended for half-tone reproduction should be on glossy paper. They will be accepted only if found necessary by the Editors.
- (c) Colour plates are unlikely to be accepted unless authors bear the cost.

[Continued on inside back cover

Single number, 25s. or \$4.00 net. Annual subscription, 90s. or \$14.00

Front cover centrepiece: Egyptian illustration (about 600 B.C.) of a domesticated pig guarded by monkeys on a boat (after Keller). Zeuner (1963) stated that the fat but bristly pig with its slender snout resembles the medieval European pig.

ERRATA

ANIMAL PRODUCTION, Volume 11, part 2, pp. 195-207

In the paper by Prescott, El-Shobokshy and Armstrong entitled:

“Ammonium salts of fatty acids for milk production. 1. The effect of feeding a salt solution containing ammonium acetate on the yield and composition of milk produced by Jersey cows fed hay/concentrate diets”, the following changes are required:

1. In the text and tables w/v should read w/w
2. Table 2. Last column, last two figures:
For 7·83 read 67·1
For 4·11 read 36·1
3. Add to footnote †, Table 2, and footnote †, Table 5,
“In calculating ME values for the salt solutions only acetate and propionate were considered to make a contribution.”

4. Add to footnote †, Table 2, and footnote †, Table 5,

“In calculating ME values for the salt solutions only acetate and propionate were considered to make a contribution.”

The British Veterinary Journal

A monthly review of veterinary science

Editor: J. A. Laing

The August 1969 issue includes:

M. D. Pandey and A. Roy: Variation in Volume and Composition of Body Fluids (Interstitial, Blood and Urine) as a measure of Adaptability in Buffaloes to a Hot Environment.

P. J. Mylrea and J. K. Hotson: Serum Pepsinogen Activity and the Diagnosis of Bovine Ostertagiasis

Roger G. Dalton and George D. Phillips: Renal Functions in Neonatal Calves: Response to Acidosis.

F. E. F. Lindsay: Observations on the Loci of Ossification in the Prenatal and Postnatal Bovine Skeleton. II: The Sternum.

V. D. Goel, B. K. Soni, and R. C. Bhalla: Fertilization in Female Goats Hyperimmunized with Semen Antigens.

P. K. I. Mackenzie and W. P. Boyd: Notes upon a Trypanosome Strain Resembling *T. congolense* Apparently Completely Adapted to the Bovine Species.

Index Veterinarius

A COMPLETE BIBLIOGRAPHY
OF VETERINARY LITERATURE

This subject and author index of current literature on veterinary and related sciences is produced by the Commonwealth Bureau of Animal Health and was first published in 1933. It is issued quarterly and each year about 15,000 references are listed.

For compilation of the *Index* 700 periodicals in 22 languages are searched and coverage embraces the whole world.

Annual subscription is 300s. (\$39) (reduced rate to residents in British Commonwealth or Republic of Ireland—140s.). Orders may be sent to the Central Sales Branch, Commonwealth Agricultural Bureaux, Farnham Royal, Slough, Bucks.

ANIMAL BREEDING ABSTRACTS

is such an invaluable guide to the latest literature on livestock breeding and production that we can hardly believe you have not heard of it (from 1970, 160s. annually, or 315s. if you live outside the British Commonwealth or the Republic of Ireland) **BUT** do you know about our

ANNOTATED BIBLIOGRAPHIES

<i>Number</i>	<i>Subject</i>	<i>Period covered</i>	<i>Number of References</i>	<i>Price</i>
92	Blood groups of cattle	1949-68	135	35s.

Animal Behaviour Monographs

There has for some time been a need for a vehicle whereby the longer article in the behavioural field could be published without upsetting the balance of existing journals, where, unless there was a considerable increase in the size of the journal concerned, its presence might displace otherwise acceptable papers. *Animal Behaviour Monographs* fulfils this requirement. The latest issue contains the paper, *On the transition from the dependent to independent food getting in the Young Ring Dove*, Rochette Paul Wortis. Full information about the journal from address below.
