Editor

David C. Brown, Worcester Polytechnic Institute, USA

This journal publishes original articles about significant AI theory and applications based on the most up-to-date research in all branches of phases of engineering. Suitable topics include: analysis and evaluation; selection; configuration and design; manufacturing and assembly; and concurrent engineering.

Great New Books in Programming!

The Elements of MATLAB Style

RICHARD K. JOHNSON

The Elements of MATLAB Style is a guide for both new and experienced MATLAB programmers that offers a collection of standards and guidelines for creating solid MATLAB code that will be easy to understand, enhance, and maintain. This is the only book devoted to MATLAB style and best programming practices.

\$19.99: Pb: 978-0-521-73258-1: 200 pp.

Noncommutative Rational Series with Applications

JEAN BERSTEL

CHRISTOPHE REUTENAUER

Encyclopedia of Mathematics and its Applications

Contents:

Preface; Part I. Rational Series: 1. Rational series; 2. Minimization; 3. Series and languages; 4. Rational expressions; Part II. Arithmetic: 5. Automatic sequences and algebraic series; 6. Rational series in one variable; 7. Changing the semiring; 8. Positive series in one variable; Part III. Applications: 9. Matrix semigroups and applications; 10. Noncommutative polynomials; 11. Codes and formal series; 12. Semisimple syntactic algebras; Open problems and conjectures; References; Index of notation; Index.

\$85.00: Hb: 978-0-521-19022-0: 262 pp.

Pearls of Functional Algorithm Design

RICHARD BIRD

\$60.00: Hb: 978-0-521-51338-8: 290 pp.

Foundations of XML Processing The Tree-Automata Approach

HARUO HOSOYA

Contents:

Preface; 1. Introduction; 2. Preliminaries; 3. Schemas; 4. Tree automata; 5. Pattern matching; 6. Marking tree automata; 7. Typechecking; 8. On-the-fly algorithms; 9. Alternating tree automata; 10. Tree transducers; 11. Exact typechecking; 12. Path expressions and tree-walking automata; 13. Logic-based queries; 14. Ambiguity; 15. Unorderedness; References; Index.

\$65.00: Hb: 978-0-521-19613-0: 240 pp.

Steps in Scala An Introduction to Object-Functional Programming

CHRISTOS K. K. LOVERDOS

APOSTOLOS SYROPOULOS

\$99.00: Hb: 978-0-521-76217-5: 504 pp.

\$50.00: Pb: 978-0-521-74758-5

Relational Mathematics

GUNTHER SCHMIDT

Encyclopedia of Mathematics and its Applications

\$99.00: Hb: 978-0-521-76268-7: 584 pp.

The Evolution of Logic

W. D. HART

The Evolution of Modern Philosophy

\$90.00: Hb: 978-0-521-76681-4: 312 pp.

\$27.99: Pb: 978-0-521-74772-1

Prices subject to change.

Robotica

Editor-in-Chief

G. S. Chirikjian, *Johns Hopkins University, USA*

An Official Journal of the
International Federation of Robotics

Robotica provides an international forum for the multidisciplinary subject of robotics and encourages developments in this important field of automation with regard to industry, education and research. It covers the many aspects of robotics, including sensory perception, software, kinematics and dynamics involved in robot design, robot task planning and description, intelligibility of skilled motion, applications of robots in the service industries, world model representation, artificial intelligence, development of relevant educational courses, training methods, economic and cost problems and other items of theoretical and practical interest.

CAMBRIDGE
UNIVERSITY PRESS

INSTRUCTIONS TO AUTHORS

Scope

Papers may describe original technical work, survey an area, or present a tutorial; and may be either short or long. Anything related to functional programming is of interest, including: *foundations* (semantics, abstract interpretation, lambda calculi, rewriting, logic, type theory, category theory); *implementation* (compilation, architectures, parallelism, garbage collection, I/O, debugging, profiling); *linguistics* (pure and impure language features, non-determinism, side effects, logical variables, relation to other programming paradigms, proofs about programs, program transformation, program synthesis, partial evaluation); *applications* (applications programs, practical experience, programming techniques, prototyping).

Book Reviews

Books for review, or suggestions for reviews, should be sent to the reviews editor, Simon Thompson (address on inside front cover).

Submission of manuscripts

Papers may be submitted to the Editors-in-Chief or any of the editors or directly to JFP-ed@cambridge.org. Please choose an Editor whose research interests most closely match your paper; if in doubt, send your paper to one of the Editors-in-Chief. E-mail and postal addresses for the editors appear on the inside front cover.

Please refer to journals.cambridge.org/JFP for all detailed information associated with the submission of papers to the journal.

Offprints

No paper offprints are provided, but a pdf of the published article will be sent to the corresponding author.

Incremental Publishing and DOIs

The Journal of Functional Programming now publishes articles as First View (at Cambridge Journals Online: journals.cambridge.org) as soon as author corrections have been completed and before they join a printed issue. A reference is added to the first page of the article in the journal catchline. This is the DOI—the Digital Object Identifier. This is a global publishers' standard. A unique DOI number is created for each published item. It can be used for citation purposes instead of volume, issue and page numbers. It therefore suits the early citation of articles which are published on the web before they have appeared in a printed issue. journals.cambridge.org/JFP

SUBSCRIPTIONS

Journal of Functional Programming (ISSN: 0956-7968 print, 1469-7653 electronic) is published in six parts in 2011, January, March, May, July, September and November. The subscription price (excluding VAT) of Volume 21, 2011, is £375 net (USA, Canada and Mexico US\$610) institutions print and electronic; institutions electronic only is £350, \$560; individuals print only is £105, \$165; Member rates available – please enquire; single parts cost £60 net (USA, Canada and Mexico US\$120) plus postage. EU subscribers (outside the UK) who are not registered for VAT should add VAT at their country's rate. VAT registered subscribers should provide their VAT registration number. Orders, which must be accompanied by payment, may be sent to any bookseller, subscription agent or to the publisher: Cambridge University Press, The Edinburgh Building, Shaftesbury Road, Cambridge CB2 8RU, or in the USA, Canada and Mexico to Cambridge University Press, Journals Fulfillment Department, 100 Brook Hill Drive, West Nyack, New York 10994–2133. Prices include delivery by air where appropriate. Application to mail at periodicals postage rates is pending at New York, NY and at additional mailing offices. Japanese prices for institutions are available from Kinokuniya Company Ltd, P.O. Box 55, Chitose, Tokyo 156, Japan. Postmaster: send address changes in USA, Canada and Mexico to *Journal of Functional Programming*, Cambridge University Press, 100 Brook Hill Drive, West Nyack, New York 10994–2133. Claims for missing issues should be made immediately on receipt of the subsequent issue.

COPYING

This journal is registered with the Copyright Clearance Center, 222 Rosewood Drive, Danvers, MA. 01923, USA. Organisations in the USA who are also registered with the C.C.C. may therefore copy material (beyond the limits permitted by sections 107 and 108 of US copyright law) subject to payment to C.C.C. of the per-copy fee of \$16. This consent does not extend to multiple copying for promotional or commercial purposes. Code 0956-7968/11 \$16.

Organisations authorised by the Copyright Licensing Agency may also copy material subject to the usual conditions.

ISI Tear Service, 3501 Market Street, Philadelphia, Pennsylvania 19104, USA, is authorised to supply single copies of separate articles for private use only.

For all other use, permission should be sought from Cambridge or the American branch of Cambridge University Press.
