

LOOK AGAIN... LOOK AGAIN...

Just for Fun!

See if you can find the 8 differences in each set of images.

Frozen capsule

Scanning electron microscope image of the freeze-fractured cross section of a polynuclear microcapsule embedded in a polymer matrix.

Mostafa Yourdkhani, University of Illinois at Urbana-Champaign, USA.

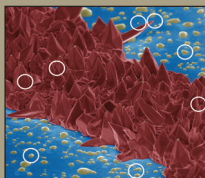

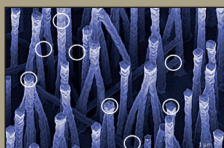

Wild delta

This "painting" was obtained by optical microscopy with an optical filter to modulate light and emphasize relief. The corrosion is gaining on the silver layer in a salt spray test.

Olivier Raccurt, The Atomic Energy and Alternative Energies Commission, France.

October 2017 answer key

Answers will be published in the February 2018 issue.

Images on the top were submitted to the Materials Research Society "Science as Art" competition. Images on the bottom were modified in Adobe Photoshop for this "Look Again" activity.
