

*Four Hundred and Eleventh Scientific Meeting
Agricultural and Food Science Centre, The Queen's University of Belfast
10/11 APRIL 1985*

McCracken K. J. & Cowan S. Effects of a novel β -adrenoreceptor agonist (BRL 26830A) on young and adult Sprague-Dawley rats	104A
Notley J. R. & Gibney M. J. Antigen absorption and immunological response in weanling rabbits given casein or ovalbumin	105A
McCracken K. J. & Barr H. Gillian Effect of cafeteria-feeding on body composition of adult female Sprague-Dawley rats	106A
McCracken K. J. Changes in chemical composition of piglets weaned at 14 d of age	107A
Fuller M. F., Foster M. A. & Hutchison J. M. S. Estimation of body fat by nuclear magnetic resonance imaging	108A
Preston T., Fuller M. F., East B. W. & Bruce I. Preliminary experiments to assess the suitability of whole-body neutron activation for body composition analysis in 70 kg pigs	109A
Golden B. E. & Golden M. H. N. Effect of zinc supplementation on the composition of newly synthesized tissue in children recovering from malnutrition	110A
Sian M. S., Savage A. P., Matthews J. L. & Cooke T. Bile acid excretion in an animal model of colon cancer in rats treated with azoxymethane	111A
Strain J. J. & Sherry Kathy The effect of feeding cholesterol with polyunsaturated or saturated fats on cholesterol homeostasis in the rat	112A
Barker M. E. & Pearce J. Effects of isoenergetic concentrate and roughage diets on lipogenic enzyme activities in sheep adipose tissue	113A
Anil M. H., Forbes J. M. & Fox J. Hepatic denervation alters insulin secretory response to propionate in sheep	114A
Gill M., Beever D. E., Buttery P. J. & Baker R. D. The effect of oestradiol implantation on the response to fishmeal in calves offered silage	115A
Rae R. C. & Smithard R. R. Estimation of true nitrogen digestibility in cattle by a modified nylon bag technique	116A
Beever D. E. & Ellis W. C. Binding of rare earths to specific feed particles	117A
Jackson N. & Stevenson M. H. The effect of energy restriction on the carcass composition of laying hens	118A
Stevenson Mary H. & Graham W. D. The growth of goslings up to 9 weeks of age	119A
Andrews J. F., Cabot D. & West A. B. Sex difference in the minimal metabolic rate of the pre-migratory barnacle goose (<i>Branta leucopsis</i>)	120A

*Four Hundred and Fourteenth Scientific Meeting
Robin Brook Centre, St Bartholomew's Hospital, West Smithfield, London
20/21 MAY 1985*

Emery P. W., Fleet O. C., Rothwell N. J. & Stock M. J. The effect of denervation on protein synthesis in brown adipose tissue in cafeteria-fed rats	122A
Rothwell Nancy J. & Stock Michael J. Effect of hypophysectomy on energy balance and brown adipose tissue thermogenesis in the rat	123A
Holt S. J., Wheel H. V. & York D. A. Hypothalamic control of brown adipose tissue in Zucker lean and obese rats	124A
Hardman Adrienne E., Hutber A. & Williams C. Blood lactate concentration during one-leg exercise with normal and low muscle glycogen concentration in the non-exercising leg	125A
O'Brien J. D., Thompson D. G., Ibbotson M., McCrear R., Burnham W. R. & Walker E. Quantification of the functional capacity of carbohydrate absorption in man by a simple non-invasive technique	126A
Williams Celia A., Owens Alison M. & Hunt Paula The influence of the sex of the individual and of the menstrual cycle on galactose tolerance	127A
Pacy P. J., Dodson P. M., Kubicki A. J., Fletcher R. F. & Taylor K. G. The effects of a high unrefined carbohydrate, high fibre, low fat and low sodium dietary regimen in type II diabetics with moderate hypertension	128A
Dodson P. M., Pacy P. J., Webberley M. G., Fletcher R. F. & Taylor K. G. One year follow-up treatment of hypertension in type II diabetic subjects with a high cereal fibre, low fat and low sodium dietary regimen	129A
Wyatt G. M. & Bayliss C. E. Response of human faecal flora of a volunteer to a change in diet	130A
Cover Penny, Rivers J. P. W. & Millward D. J. Variability in the energy cost of growth in rats: effect of dietary protein concentration and plane of nutrition	131A
Bolton Sarah C. & Miller E. L. The efficiency of utilization of lysine by weanling rats	132A
Hagemeister H. & Erbersdobler H. Chemical labelling of dietary protein by transformation of lysine to homocysteine: a new technique to follow intestinal digestion and absorption	133A

Proceedings of the Nutrition Society

CONTENTS OF VOL. 44, No. 3, SEPTEMBER 1985

SYMPOSIUM PROCEEDINGS

*Four Hundred and Fifth Scientific Meeting
One Hundred and Fifty-ninth Scottish Meeting
Glasgow Royal Infirmary, Glasgow
3 NOVEMBER 1984*

NUTRITION AND THROMBOSIS
Chairman: J. SHEPHERD, Royal Infirmary, Glasgow

	PAGE
MITCHELL J. R. A. Diet and arterial disease—the myths and the realities	363-370
HORNSTRA GERARD Dietary lipids, platelet function and arterial thrombosis in animals and man	371-378
OGSTON D. Nutritional influences on the fibrinolytic system	379-384
SALMON JOHN A. & TERANO TAKASHI Supplementation of the diet with eicosapentaenoic acid: a possible approach to the treatment of thrombosis and inflammation	385-389
SANDERS T. A. B. Influence of fish-oil supplements on man	391-397

*Four Hundred and Sixth Scientific Meeting
One Hundred and Sixtieth Scottish Meeting
Aberdeen Royal Infirmary, Aberdeen
6 DECEMBER 1984*

HEALTH AND ECONOMIC PRESSURES ON AGRICULTURE
Chairman: MAITLAND MACKIE, JR, Aberdeen

REID IAN G. Pressures for change in the Common Agricultural Policy	399-408
JONES ARTHUR S. An agricultural approach to the new health policy	409-418
MARSH J. S. The economic implications of a health policy	419-428

ABSTRACTS OF COMMUNICATIONS

*Four Hundred and Ninth Scientific Meeting
One Hundred and Sixty-second Scottish Meeting
School of Agriculture, University of Aberdeen
21/22 MARCH 1985*

HODGSON J. C. & MELLOR D. J. Kinetics of glucose metabolism in newborn lambs	90A
CLAPPERTON J. L., BANKS W. & STEELE W. The distribution of triglycerides in the milk fat of Friesian and Jersey cows	91A
VERA A. J., AXFORD R. F. E. & EVANS R. A. The effect of supplementation with concentrates on the utilization of hay from unimproved upland pasture	92A
SINGH S. B., GALBRAITH H., SCAIFE J. R. & HUNTER E. A. Effect of oestrogenic and androgenic compounds on growth and body composition of male castrate lambs	93A
GALBRAITH H., SINGH S. B., SCAIFE J. R. & HENDERSON G. D. Effect of oestrogenic and androgenic compounds on some endocrine and body characteristics of male castrate lambs	94A
SINGH S. B., SCAIFE J. R., GALBRAITH H. & JESSIMAN C. Influence of oestrogenic and androgenic compounds on blood lipids, subcutaneous fatty acid composition and the activities of certain lipogenic enzymes in sheep	95A
STACK T. A., PRESTON T., REEDS P. J., LLOYD D. J. & AGGETT P. J. Protein turnover in preterm infants by determining the enrichment of ¹⁵ N in ammonia: a comparison of tracers	96A
LUFADJEU E. A., BLACKET G. A. & ØRSKOV E. R. The effect of variety of spring barley straw and of ammonia treatment on nutritive value	97A
SILVA AYONA T., WALLACE R. J. & ØRSKOV E. R. The use of particle-bound microbial enzymes to predict the rate of degradation of plant fibre in the rumen	98A
SHEPHERD R., FARLEIGH C. A., JEVONS S. & PRYOR J. S. Changes in sensitivity and preferences for salt during dialysis	99A
SMART J. L. & TONKISS J. Highly successful artificial rearing of rat pups with rats' milk or rats' milk/milk substitute combinations	100A
CUNNANE S. C., HUANG Y-S., MANKU M. S. & HORROBIN D. F. Species comparisons of the effect of essential fatty acid deficiency on fatty acid composition of liver total phospholipids	101A
CUNNANE S. C. The percentage of arachidonic acid in triglyceride is inversely related to the total triglyceride: indication of an essential fatty acid-rich pool of triglyceride	102A
