P. V. ADDYMAN
- Bibliography for 1971

England Before the Conquest

Studies in Primary Sources presented to DOROTHY WHITELOCK

Edited by PETER CLEMOES and KATHLEEN HUGHES

'This erudite and beautifully produced volume contains twenty-two detailed studies by acknowledged experts on some of the basic materials of Anglo-Saxon history, and, as such, it will serve as an illuminating – perhaps even as an indispensable – work of reference for specialized students of that difficult and controversial period. The editors have done their work well both in their selection of authors and in their choice of subjects.'

The Times Literary Supplement

An Introduction to Anglo-Saxon England

PETER HUNTER BLAIR

'There are many people who will be glad to see this book. Perhaps one of its greatest advantages is that it is exactly the sort of book which can be put into the hands of the student who is faced with those Old English texts...'

The Review of English Studies

In hard covers and as a paperback

A Concise Anglo-Saxon Dictionary

FOURTH EDITION

J. R. C. HALL and H. D. MERITT

The aim of the dictionary is to deal carefully and exhaustively with all the words which occur in Anglo-Saxon poetry and prose. Variant dialect forms are given, together with variant forms found in the same dialect. Purely poetic words and words not common in prose are included, and references given to the passages in which they occur. A new 20-page supplement by Professor Meritt takes account of about 1,700 words not listed in the previous edition.
