## **The Politics of the Prussian Nobility** The Development of a Conservative Ideology, 1770-1848

*Robert M. Berdahl*

Measured by its capacity to endure, the Prussian nobility was the most successful in the modern history of continental Europe. Throughout the long vicissitudes of its history, this class—the Junkers—displayed a remarkable ability to adapt to new circumstances and maintain its own political power. Robert Berdahl presents a comprehensive interpretation of the tenacity of the Prussian nobles from the late eighteenth century until the revolution of 1848.

At one level, he provides a richly detailed economic, social, and political history. At another level, he shows how the Junkers developed an ideology of conservatism that justified their control of a society that was becoming increasingly bourgeois.

## **Schooling German Girls and Women** Secondary and Higher Education in the Nineteenth Century

*James C. Albisetti*

James Albisetti provides the first comprehensive study in any language of the development of secondary schools for girls in the various German states during the nineteenth century, and of the struggles waged by women after 1865 to gain access to higher education and the liberal professions. Through comparisons with contemporaneous developments in other European countries, he points out what was typical and what was unique in the German experience in such areas as the operation and curricula of girls' schools, the opportunities for women teachers, the debates over increased educational and employment opportunities for women, and the strategies and tactics adopted by feminist organizations.

## ART AS HISTORY

Episodes in the Culture and Politics  
of Nineteenth-Century Germany

# Art as History

Episodes in the  
Culture and Politics  
of Nineteenth-  
Century Germany

*Peter Paret*

Paintings and graphics, novels and poems are historical sources as well as aesthetic objects. Artists themselves become historians when they interpret the past—by painting a historical scene, for instance, or by discussing earlier times in a novel. Artists both reflect and shape their environment. These concepts underlie Peter Paret's new study of Germany in the nineteenth century.

On one level, *Art as History* is political history seen through the arts. On another level, works of art are discussed for their own sake. By paying attention to the ways society and politics interact with the artist's psychology and intentions, and with the changing characteristics of his discipline, we gain a deeper understanding of his aesthetic achievement.

## DEMOCRACY UNDER FIRE

Memoirs of a European Socialist ■ Adolf Sturmthal

Edited by Suzanne Sturmthal Russin

**O**ne of the most appealing books of memoirs anyone has written about European Social Democracy; Adolf Sturmthal (1903-1986) was a distinguished Austrian Socialist and scholar of international labor. He has written a sparkling account of his encounters between 1917 and the 1960s with luminaries from nearly every country of Europe.

"The book is bursting with wisdom about what went wrong in Europe between the wars, and how labor movements since then have lost touch with their past."—William M. Johnston, University of Massachusetts

"A fascinating tale...not only a personal memoir but also a scholarly account of an especially tragic period in the political history of the 20th century."—John P. Windmuller, Cornell
