

THE CAMBRIDGE
PHILOSOPHICAL SOCIETY
A HISTORY : 1819-1969

by A. RUPERT HALL

*Professor of the History of Science and Technology
at Imperial College, London*

To mark the Sesquicentenary a history of the Society was commissioned from Professor A. Rupert Hall. The book will be issued free to Fellows, Associates and Corresponding Societies.

Copies (price 10s.) are available at the Society's office in the Scientific Periodicals Library and from local booksellers.

CONTENTS

	PAGE
DENNIS, J. S. The distribution of sequences in Abelian groups	1
HAWKES, T. O. An example in the theory of soluble groups	13
JACO, W. On certain subgroups of the fundamental group of a closed surface	17
DRURY, S. W. A partition of non-synthesis for tensor algebras	19
NAYAK, M. K. On the summability of Fourier integrals	23
RAY B. K. On the absolute summability of some series related to a Fourier series	29
CHOUHDHARY, B. On functional Nörlund methods	47
MEIR, A. and SHARMA, A. A generalization of the S_x -summation method	61
MATTHEWS, K. R. and WALTERS, R. F. C. Some properties of the continued fraction expansion of $(m/n)e^{1/q}$	67
OSGOOD, C. F. The simultaneous diophantine approximation of certain k th roots	75
BAJPAI, S. D. Some expansion formulæ for Fox's H -function involving exponential functions	87
STEINITZ, R. A theorem on the roots of a certain equation involving Bessel functions	93
BELL, R. J. and DEAN, P. On the shifted eigenvalue problem	97
SAMAL, G. Fourier series associated with the sample functions of a stochastic process	101
NAYLOR, D. On an eigenfunction expansion associated with a condition of radiation	107
BUCHDAHL, H. A. ϵ - and γ -formalisms in the calculus of 4-spinors.	123
PATNAIK, S. Einstein-Maxwell fields with plane symmetry. I	127
ROEBUCK, I. On cylindrical waves in stratified media: high frequency refraction and diffraction at a plane interface.	133
GILL, A. E. and SMITH, R. K. On similarity solutions of the differential equation $\psi_{zzzz} + \psi_x = 0$	163
BAKSHI, S. K. On the effect of magneto-thermo-elastic interactions on the cooling process of an infinite circular cylinder	173
NORMINTON, E. J. Diffusion and convection of heat in the potential flow past a circular cylinder	181
NORMINTON, E. J. Diffusion and convection of heat in a dipole convection field	195
NORMINTON, E. J. Diffusion and convection of heat from circular cylinders with known boundary conditions	201
VISWANATHAN, K. On elastic waves from a finite line source	209
HUDSON, J. A. The attenuation of surface waves by scattering	215
WALPOLE, L. J. Some elastostatic and potential problems for an elliptic disc	225
