

Index

Compiled by Linda English

Page numbers for the main entries in the book are shown in **bold type**

adolescence

- alcohol and drug dependency 88, 146
 - case report 87
 - diabetes mellitus 129
 - finding out about mental health problems in 88–89
 - helping with mental health problems 89
 - information about problems 87–88
 - intellectual disability 33
 - lack of energy not normal 146
 - language has no word for 5
 - normal 87
 - physical changes of puberty 88
 - pregnancy during 90, 92
 - self-harm 88, **94–98**
 - self-starvation (anorexia nervosa) **92–94**
 - sexual development **89–92**
 - sleep difficulties 42
 - specific problems in **87–98**
 - Western lifestyle 87, 88
- ## aggressive behaviour 71, 75, **76–78**, 96
- and alcohol problems 101
 - and bullying 181
 - case report 76
 - copied from child at school 179
 - finding out more about child 77–78
 - helping child 78
 - impulsive or controlled 77
 - information about 76–77
 - and parental beating 174
 - two main forms 76
- ## alcohol problems **99–104**
- abstinence 102
 - in adolescence 88
 - age at which sale of alcohol legal 100
 - case report 99
 - controlled drinking 102
 - finding out more about problems 101–102
 - helping young people 102
 - and illegal drugs 101
 - information about 100–101
 - long-term effects 101
 - making drinking safer 102

- and pregnancy 176
 - reasons for drinking 100
 - recommended limits 100
 - risk of 101
 - short-term effects 100
 - warning signs of drinking too much 101–102
 - withdrawal 101, 102
- ## amphetamines 105
- ## animals, fear of 56
- ## anorexia nervosa *see* self-starvation
- ## anticholinergics 194 (Appendix 2)
- ## anticonvulsants 126–127, 177
- ## antidepressants 67, 190–191 (Appendix 2)
- ## antipsychotics 111, 192 (Appendix 2), 193 (Appendix 2), 194 (Appendix 2)
- ## antisocial behaviour 76–86
- ## anxiety problems **52–64**
- breathing exercises 53
 - general anxiety 52–53
 - information about 52–53
 - medication 53, 191–192 (Appendix 2)
 - mental symptoms 52
 - muscle relaxation 53
 - physical symptoms 52, 53
- ## Asperger syndrome 25
- ## assessment
- of bipolar disorder 108
 - child-friendly room 4
 - of developmental delay 11–16
 - general principles **4–6**
 - listen to mother and observe child 4, 12
 - and local culture 5–6
 - physical examination 4
 - of self-harm 96–97
 - summary or action plan 4
 - of tiredness/fatigue 146
- ## asthma 112
- ## atomoxetine 76, 190 (Appendix 2)
- ## attachment 61
- secure sense of **171–172**
- ## attention-deficit hyperactivity disorder (ADHD) *see* hyperactivity and attention problems (ADHD)
- ## attention problems
- and aggressive behaviour 77
 - and bipolar disorder 108

- and clumsiness 23
- and hearing impairment 117
- and intellectual disability 30
- and Tourette syndrome 50
- see also* hyperactivity and attention problems (ADHD)
- autism spectrum disorder (ASD) 11, 17, **25–28**, 32, 80
 - associated problems 26
 - case reports 25
 - causes of 26
 - explanation to parents 27
 - frequency of 26
 - hearing impairment 118
 - help but no cure 27
 - helping child 27
 - identifying and treating signs and symptoms 27–28
 - information about 25–26
 - language development 26
 - need for special upbringing 27
 - odd interests 26
 - odd movements 26
 - outcome 26
 - reducing difficult behaviour 27
 - sensitivity to noise 26
 - social development 25
- babies and prevention of intellectual disability **176–177**
 - after childbirth 176–177
 - at time of childbirth 176
 - early intervention for babies at risk 177
 - in pregnancy 176
- bed-wetting **43–47**
 - bladder control 44, 45
 - bladder training 46
 - case report 44
 - causes of 44–45
 - child over 6 years 46–47
 - effects on child 45
 - effects on mother 45
 - finding out more about child 45–46
 - information about 43–44
 - medication 47
 - older child 45–46
 - prevention of 45
 - talking treatment 46
- behaviour and related problems **70–86**
- behaviour therapy 7
- beliefs
 - about cause of illness 6
 - about treatment 6
- benzodiazepines 191 (Appendix 2)
- bereavement *see* grief and loss
- bipolar disorder **107–109**
 - in adolescence 88
 - assessment 108
 - case report 107
 - in depressed state 108, 109
 - episodic 108
 - helping young people 109
 - information about 107–108
 - medication 109, 193 (Appendix 2)
 - symptoms in ‘manic’ phase 107–108
- bladder problems *see* bed-wetting
- blindness *see* visual impairment
- body mass index (BMI) 37, 38
- bowel problems *see* soiling
- brain, physical illness affecting 113
- brain damage 30, 31, 35, 116, 124, 177
- brain fog syndrome 146
- bullying or teasing **76–78**
 - anti-bullying programmes in schools **181–183**
 - class teachers 178, 182–183
 - cyberbullying 179, 181
 - head teachers 182
 - information about bullying 181–182
 - and intellectual disability 31
 - parents 183
 - school authorities 182
 - and school refusal 57
 - and stammering 20
 - what can be done? 182–183
- cannabis (hash; weed; grass; *bang*; *charas*; *ganja*) 105, 109, 110, 146
- cerebral palsy **121–123**
 - ataxia 121
 - case report 121
 - diplegia or paraplegia 121, 122
 - dyskinesia 121
 - finding out more about child 122–123
 - helping child 123
 - hemiplegia 121
 - information about 115, 121–122
 - premature birth 122
 - quadriplegia 121, 122
- childbirth 30, 31, 176
- child protection service 156, 157, 161
- clomipramine 69, 191 (Appendix 2)
- clonidine 51, 190 (Appendix 2)
- clumsiness **22–24**, 75
 - case report 22–23
 - finding out more about child 23–24
 - helping child 24
 - information about 23
 - and reading difficulties 21
- cognitive-behavioural therapy 7, 53, 67
- cognitive skills developmental milestones 15
- competition 174, 178
- concentration problems 24, 30, 53, 70
 - see also* hyperactivity and attention problems (ADHD)
- conduct disorder 77
- constipation 47–48, 93
- conversion disorder *see* weakness without physical cause
- coprolalia (involuntary swearing) 50
- counselling 8, 89
 - see also* listening and talking treatments
- culture
 - beliefs about illness 6, 113
 - beliefs about treatment 6

- different cultural groups 6
 different ways of showing distress 5–6
 families 5
 language 5
 local 5–6
 normal lifestyle 5
 parental marriage relationships 148
 way of parents bringing up child 5
 cyberbullying 179, 181
- dark, fear of 56
 deafness *see* hearing impairment
 delusions 107, 110, 146
 depression (misery or unhappiness) **64–67**
 and aggressive behaviour 77, 78
 antidepressants 67, 190–191 (Appendix 2)
 bipolar disorder and 107, 108, 110
 case reports 64, 67
 causes of 65
 finding out more about child 65–66
 helping child 66–67
 indicators 65
 information about 65
 lack of energy and 146
 language has no word for 5
 losses and 65, 67, 152
 in mother 35
 physical causes 65
 post-viral depression 67
 questions to ask child 66
 questions to ask mothers 66
 resilience 65
 and self-harm 96
 signs of clinical depression 65
 and social networking 184
 desmopressin 47
 developmental coordination disorder *see* clumsiness
 development and developmental problems **11–28**
 assessment of delay 11–16
 assessment of developmental age 4
 developmental milestones **12–16**, 31
 3 months 12–13
 6 months 13
 12 months 13
 18 months 13–14
 2 years 14
 3 years 14–15
 4 years 15
 5 years 15–16
 different pathways of development 11
 and emotional abuse 163
 global or specific developmental delay 11, 12
 intervention for babies at risk of slow development 177
 and parenting education 8
 see also intellectual disability; specific developmental delay
 diabetes mellitus **127–129**
 case report 127
 complications 129
 finding out more about child 128
 glucometer 128
 helping child with 128–129
 helping mental health of child 129
 information about 112, 128
 insulin injections 124, 128
 and obesity 37, 39, 128
 prevention 129
 symptoms 128
 treatment non-adherence 129
 type 1: 128
 type 2: 37, 39, 128
 diagnosis 4, 136
 diazepam suppository 126
 disability *see* intellectual disability; physical disability
 disasters 3, **166–167**
 assessment of needs 167
 case report 166
 child reunited with parents 167
 information about needs of child 167
 post-traumatic stress **168–170**
 treatment 167
 discipline, parental 71, 77
 principles **173–174**
 disobedience *see* temper tantrums and disobedience
 distress, different ways of showing 5–6
 Down syndrome 30, 31
 drug problems **104–106**
 abstinence/relapse prevention/rehabilitation principles 106
 and alcohol 101
 case report 104
 during pregnancy 176
 finding out more about problems 105–106
 helping young people 106
 information about 104–105
 by injection 106
 and lack of energy 146
 and stealing 83, 84
 dyspraxia *see* clumsiness
 dystonic reactions 51
- ear problems *see* hearing impairment
 echolalia 26, 30
 ‘ecstasy’ 105
 emotional abuse **162–163**
 behaviour problems 162
 case report 162
 finding out more about child 163
 helping child with 163
 information about 162–163
 parental problems 162
 emotional problems 7, **52–69**, 88, 117, 142
 encopresis (passing normal motions in inappropriate places) 47, 48
 epilepsy (seizures/fits) **123–127**
 absence attacks (*petit mal*) 125
 advice to child and parents 127
 and aggressive behaviour 77

- and autism spectrum disorder 26
- case report 123
- community education 127
- fainting 125
- febrile convulsions 124, 125
- find out more about child 125–126
- generalised epileptic seizures 124–125
- helping child with 126–127
- and hyperactivity and attention problems 74
- information about 124–125
- and intellectual disability 30, 33
- medication 126–127
- non-epileptic seizures 125, 126
- partial epileptic seizures 125
- status epilepticus 124

- failure to thrive **35–36**, 130, 165
- families
 - improving relationships 7
 - multigenerational 5
 - and schizophrenia 111
- family therapy 7
- fatigue *see* tiredness/fatigue
- fears and phobias **55–57**
 - case report 55, 56–57
 - fears develop in babies 171
 - finding out more about child 56
 - helping child with 56–57
 - information about specific fears 56
- feeding problems **34–37**
 - case report 34
 - and cerebral palsy 122, 123
 - failure to thrive 35–36
 - feeding technique 35, 37
 - finding out more about child 36
 - first 3 months 35
 - from 3 months to 3 years 35–36
 - helping child with 36–37
 - and HIV/AIDS infection 130
 - mother–baby relationship 35
 - problems in baby 35
 - problems in mother 35
- fire-setting **78–80**
 - case report 79
 - finding out more about child 79
 - helping child 80
 - information about 78–79
- fits *see* epilepsy
- fluoxetine 69, 191 (Appendix 2)

- genetic influences 2–3, 9
 - and autism spectrum disorder 26
 - and behaviour problems 74
 - and clumsiness 23
 - and emotional problems 68
 - genetic counselling and intellectual disability 176
 - and habit disorders 38, 44, 47, 50
 - and psychotic disorders 108, 110
 - and sickle cell disease 132, 133, 134–135
 - and stress 2–3
- grief and loss **151–154**
 - case report 151
 - and depression 65, 67
 - finding out about bereavement reactions 152–153
 - helping bereavement reactions 153–154
 - information about 151–152
 - loss of parent 149
- growth charts 36, 37, 94

- habit disorders **34–51**
- hallucinations 107, 110, 146
- haloperidol 51, 192 (Appendix 2)
- hands, flapping of 26
- headaches **142–145**
 - case report 142
 - different ways of showing distress 5–6
 - finding out more about child 144
 - helping child with 144–145
 - information about 142–144
 - migraine 143, 144
 - non-organic headaches 143–144
 - organic headaches 143
 - stress related 10, 145
- healer, local 6
- health professionals
 - communication with teachers 180
 - confidence in 186
 - use deficit model 180
 - Western-trained 6
- hearing impairment **117–119**
 - case report 117
 - damage to cochlea 117
 - hearing testing 17
 - helping child with 118–119
 - and hyperactivity and attention problems 74, 75
 - and language delay 17
 - sensorineural damage 117
 - serous otitis media (middle ear infection or ‘glue ear’) 74, 117
 - testing equipment 117
 - wax 117, 118
- hearing voices (auditory hallucinations) 110
- HIV/AIDS infection **130–132**
 - in adolescence 91
 - antiretroviral therapy 130, 131
 - case report 130
 - and feeding problems 35, 36
 - finding out more about child 131
 - helping child with 131–132
 - information about psychosocial aspects 130–131
 - in parents 35, 130, 149, 151
 - and physical disability 115
 - and sexual intercourse 130, 131, 132
 - untreated child 130
- hospital admission for physical illness 113, 114
- hyperactivity and attention problems (ADHD) **72–76**
 - advice for parents 75

- advice for teachers 75–76
 case reports 72–73
 diet 74
 finding out more about child 74–75
 helping child with 75–76
 information about 74
 medication 76, 190 (Appendix 2)
 teachers' knowledge of problem 179–180
 and tics 50, 75
- imipramine 47
- infectious diseases 115, 134
- intellectual disability 11, 12, **29–33**
 and adolescence 33
 case report 29
 causes 30, 31
 child's mental age 32
 finding out more about child 31–32
 helping child with 32–33
 impact on child and family 30–31
 information about 29–30
 investigations 32
 mild 29, 30, 31, 32, 165
 and physical disability 115, 119
 prevention **176–177**
 severe 29, 30–31, 32, 33
 and soiling 47
- internet addiction 184
- language
 and autism spectrum disorder 26
 development through play 173
 and local culture 5
- language delay **16–18**
 case report 16
 finding out more about child 16–17
 hearing impairment and 117, 119
 helping child with 17–18
 information about 16
 and promotion of language 17–18
- language skills developmental milestones 12–13, 14–15
- learning difficulties *see* intellectual disability
- life skills 178
- life-threatening illness, mental health aspects of **133–135**
 case report 133
 finding out more about child 134–135
 information about 134
 promoting mental health of children 135
 religious meaning to parents 134, 135
- listening and talking treatments 6
 and anxiety problems 53
 combined with medication 185–186
 and depression 67
 helping through 7–8
- loss *see* grief and loss
- low- and middle-income (LAMI) countries
 adolescence in 87–88
 deaths in childhood 134
- malnourishment and feeding problems 35, 36
- multigenerational families 5
- physical disability 115
- self-starvation becoming more common 92–93
- studies in 1–2
- lying **80–81**
 case report 81
 finding out more about child 81
 helping child 81
 information about 80
 reasons for 80
- malnutrition 35, 134
- manic–depressive psychosis *see* bipolar disorder
- marriage relationships, parental
 ages of marriage 148
 case report 148
 child care 149
 communication 149
 finding out about 149–150
 helping problems 151
 one or more wives 149
 pre-marital relationships 148
 residence after marriage 148
 separate or shared roles 149
 separation/divorce/death 149, 151
 sources of tension 149
 and stress **148–151**
- measles 120, 176
- medication 6, **8, 185–186**
 anxiety disorders 53, 191–192 (Appendix 2)
 at school 180
 bed-wetting 47
 bipolar disorder 109, 193 (Appendix 2)
 combined with talking treatment 185–186
 depression 67, 190–191 (Appendix 2)
 epilepsy (seizures/fits) 126–127
 evidence based 185
 guide to **189–194 (Appendix 2)**
 hyperactivity and attention problems 76, 190
 (Appendix 2)
 monitor outcomes 186
 obsessions and compulsions 69, 191 (Appendix 2)
 and parents 185, 186
 schizophrenia 111, 192 (Appendix 2)
 sickle cell disease 132
 side-effects 51, 126–127, 185, **190–194 (Appendix 2)**
 stammering 18
 tics and other jerky movements 51
- meningitis 115, 117, 124, 126, 144
- mental health problems in children and adolescents
 definition 1
 importance 1–2
 main causes 2–3
 types 1
- mental health promotion **176–184**
- mental retardation *see* intellectual disability
- metabolic syndrome 37, 39
- methylphenidate 76, 190 (Appendix 2)

- migraine headaches 143, 144
 'mirror' reading or writing 21
 misery *see* depression
 mood stabilisers 109, 193 (Appendix 2)
 motor coordination disorder *see* clumsiness
 motor skills developmental milestones 12, 13, 14, 15
- needs of children 171–175
 age-appropriate stimulation 173
 basic physical care 171
 building self-esteem and confidence 174–175
 encouraging independence 174
 guidance and control 173–174
 love and affection 172–173
 respecting child as person 174
 safety and security 172–173
 secure sense of attachment 171–172
- neglect 163–166
 case reports 163–164
 causes of 165
 and emotional abuse 162
 finding out more about child 165–166
 helping child with 166
 impact on child 165
 information about 165
 lack of affectionate care 165
 lack of healthcare 165
 lack of physical care 165
 lack of stimulation 165
 lack of supervision 165
 in orphanages 163–164, 166
 physical examination 165
- nightmares 43, 61
 night terrors 43
 nocturnal enuresis *see* bed-wetting
- obesity 37–39
 case report 37
 education of local population 39
 finding out more about child 38–39
 helping child with 39
 information about 37–38
 reasons for overeating 38
 too little exercise 38, 39
- obsessions and compulsions 68–69
 case report 68
 finding out more about child 68–69
 helping child 69
 information about 68
 medication 191 (Appendix 2)
 response prevention 69
 and Tourette syndrome 50
- obstructive sleep apnoea 43, 74
- panic attacks 52, 54–57
 case report 54
 finding out more about child 54
- helping child 55
 information about 54
 mental signs 54
 physical signs 54, 55
 and school refusal 60
- parenting education 8
- parents
 death 149
 discipline 71, 77, 173–174
 divorce 149
 marriage relationships 148–151
 and needs of child 171–175
 normal behaviour 5
 separation 149
 worried about medication 185
- phobias *see* fears and phobias
- physical abuse 154–158
 case report 154
 child characteristics 155
 finding out about child 156–157
 helping child 157
 information about 154–155
 multiple bruising 156
 multiple fractures 156
 older child 155
 parental attitudes 155
 parental beating 5, 174
 parental characteristics 155
 principles of good care 157–158
 signs of 155
 young child 155
- physical disability 115–123
 access to aids 116
 case report 115
 charitable foundations 116
 helping child 116
 information about 115–116
- physical illness
 case report 112
 chronic 112–135
 and feeding problems 35, 36
 hospital admission 113, 114
 and mental health 2, 9, 112–114
 principles of mental healthcare 113–114
 self-esteem of child 113
 treatment adherence 114
- physical illness without physical explanation 136–147
 assessment of symptoms 136–138
 case report 136
 headaches 142–145
 stomach aches 140–142
 tiredness/fatigue 145–147
 weakness 138–140
- physical symptoms
 assessment 4, 136–138
 and distress 5–6
- play 173
- post-traumatic stress 168–170
 case report 168
 finding out more about child 168–169

- helping child 169–170
 information about 168
 poverty 3, 74
 primary healthcare clinics, problems often not recognised in 2
 proprioception 23
 psychotherapy *see* listening and talking treatments
 psychotic disorders **107–111**
 bipolar disorder **107–109**
 and fire-setting 78, 80
 intellectual disability in adolescence 33
 medication 192–193 (Appendix 2)
 schizophrenia **109–111**
 pyloric stenosis 35
- reading age, assessment of 4
 reading difficulties **20–22**, 32
 case report 21
 and clumsiness 23
 finding out more about child 22
 helping child of normal ability 22
 information about 20–21
 and language delay 16
 risperidone 51, 192 (Appendix 2)
- schizoaffective disorder 110
 schizophrenia **109–111**
 in adolescence 88
 behaviour problems 110
 case report 109
 course 110
 delusions 107, 110, 111
 finding out more about child 110–111
 hallucinations 107, 110
 helping child 11
 and illegal drugs 105, 109
 information about 110
 medication 111, 192 (Appendix 2)
 mood problems 110
 thinking problems 107, 110
 school refusal **57–60**, 180
 case report 57
 dislike of school 57
 fear of something happening in school 57
 finding out more about child 58
 helping child 59–60
 information about 57
 separation anxiety 57, 58
 severe cases 59
 talking to child 59
 talking to parents 59
 talking to school 59
 schools and mental health promotion **177–183**
 anti-bullying programmes 181–183
 case report 179
 communication between health professionals and teachers 180
 information about 179–180
 working with teachers 177–180
 seizures *see* epilepsy
 selective mutism 11, 17, 56
 selective serotonin reuptake inhibitors (SSRIs) 53, 69, 190 (Appendix 2), 191 (Appendix 2)
