

PREHOSPITAL and DISASTER MEDICINE

The Official Journal of
The World Association for Disaster and Emergency Medicine (WADEM)
and the
Nordic Society of Disaster Medicine

Prehospital and Disaster Medicine is a peer-reviewed international medical journal devoted to the publication of Disaster and Humanitarian Medicine research and education. The principal mission of *Prehospital and Disaster Medicine* (PDM) is the distribution of information relevant to the practice of out-of-hospital and in-hospital emergency medical care, disaster medicine, and public health and safety. PDM provides an international forum for the reporting and discussion of scientific studies, both quantitative and qualitative, that have relevance to the above practices. Its major objectives are: (1) the improvement of the types and quality of the care delivered to patients with perceived medical emergencies and to victims of multicasualty accidents or disasters, including the public health and safety aspects of such events; and (2) the prevention and/or mitigation of the occurrence of such events and of the effects of these events upon the human population and environment.

Subscription rates [US\$]:	One Year (4 Issues)
Individual (non-WADEM member)	\$65*‡
Institutional	\$90*

*Outside the USA add \$6 [US] for international shipping charges

‡WADEM Affiliated Organization members receive 25% off individual subscription prices.

Affiliated Organizations include:

- Association de Medicine Liberaux Sapeur (AMELISAP)
- Japanese Medical Team for Disaster Relief
- Mediterranean Club for Burns and Fire Disasters
- Nordic Society for Disaster Medicine
- Pan American Association for Disaster and Emergency Medicine
- Save Accident Victims Association of Nigeria (SAVAN)
- Society of Emergency Medicine-Singapore
- Swedish Society of Disaster Medicine

Nominations for Deputy Editor-in-Chief

Prehospital and Disaster Medicine is accepting nominations for the new position of Deputy Editor-in-Chief. The successful nominee, along with the Editor-in-Chief, will guide the journal in the:

- Recruitment of manuscripts
- Development of theme issues
- Production of supplements
- Selection of reviewers
- Organization of issues
- Interaction with authors
- Oversight of the Web version of PDM

Geographic location is not limiting due to the availability of electronic communications.

Please nominate individuals with the following qualifications:

- A degree as a Doctor of Medicine
- Expertise in Disaster, Emergency and/or Prehospital Medicine
- Excellent English language skills
- Background in research techniques and statistics
- Interest in publishing on the Internet

Please forward the name of your nominee, with a copy of his/her current curriculum vitae, by mail, fax, or e-mail, to:

Marvin L. Birnbaum, MD, PhD
Editor-in-Chief
Prehospital and Disaster Medicine
E5/613 Clinical Sciences Center
600 Highland Avenue
Madison, WI 53792 USA

E-mail: mlb@medicine.wisc.edu

Fax: (01) 608-263-9641

Self nomination is acceptable and encouraged. Deadline for all nominations is 01 July 2001.

AEDM 2001

International Exhibition and Conference on Asian Emergency Care and Defence Medicine

27-29 September 2001, Singapore EXPO

AEDM 2001 presents an excellent opportunity for exhibitors of products in emergency care and disaster relief to showcase their latest products and services. Forge new partnerships, develop new businesses, establish representation for the Asian market. Meet with both uniform and non-uniform groups from government agencies, medical/health specialists, armed forces to distributors and NGO's.

Conference As part of the event a high level international conference will also be organised centering on the theme "Emergency Care & Defence Medicine: Challenges in the New Millennium".

Supporting Organisations

- Singapore Armed Forces, Medical Corps
- Singapore Civil Defence Force
- Singapore Red Cross Society
- Society of Emergency Medicine, Singapore
- National Disaster Coordinating Council, Philippines

PREHOSPITAL AND
DISASTER MEDICINE (PDM)

The Official Journal of the World Association
for Disaster and Emergency Medicine
and the Nordic Society of Disaster Medicine

PDM is the only internationally-
focused, peer-reviewed journal that
provides information about meeting
the unforeseen challenges
encountered in Prehospital Care and
Disaster management. Each issue
contains scientific papers written by
leading professionals and educators
from around the world.
WADEM membership includes a
subscription to PDM.

- Original Research
- Special reports
- Comprehensive reviews
- Case reports
- Calendar of International Congresses

The World Association for Disaster and Emergency Medicine (WADEM) shares the common goal of improving and standardizing the quality of prehospital and emergency care that is available to citizens of all nations. WADEM is dedicated to the ideals of Learning and Practice through a commitment to publishing the journal, Prehospital and Disaster Medicine. WADEM also recognizes the organizations that have shown commitment and dedication in the fields of public education, continuing medical education, scientific research, and analyses of medical field practices.

EQUIPMENT FOR FIELD HOSPITALS

Anaesthesia Machine MP-1

This model is designed for use with a "Draw-over" patient system. By using a resuscitator, ambient air is drawn through the vaporizer and to the patient. It also is possible to use oxygen from an oxygen concentrator.

Anaesthesia Machine MP-2

This is a MP-1 with flowmeters for O₂ and N₂O, as well as an O₂ flush value added. The MP-2 works on the same principles as anaesthesia machines found in most hospitals. It can be used as a "Draw-over" machine if the oxygen supply fails.

Anaesthesia Machine MP-3

This is a MP-2 with a ventilator, suction, and bag-in-a-bottle system added – a very sophisticated machine. The MP-3 also can be used as a "Draw-over" machine similar to the MP-1 and MP-2.

NorHosp Stretcher Racks

For use in aircraft, trains, buses, vans, and on-board ships. The rack system is manufactured from special aluminum profiles designed to provide maximum strength and a minimum weight. The rack system makes it possible to place up to 3 stretchers above each other.

NorHosp Stretcher System

The NorHosp stretchers are stable and easy to carry. The stretcher is made of aluminum sections and a tough tarpaulin material that allows passage of x-rays. The stretcher can be supplied with short or long legs, with or without wheels. The flexibility and high quality make the NorHosp stretcher unique.

Heatpac Heating System

Heatpac is a charcoal-based, hot-air generator that serves as a personal heater. The system has been purchased by military forces around the world. It also is well-suited for civil defence and rescue organizations. A rescue-bag, infusion sleeve, medical storage container, and thermal boots can be added to the system.

NORWEGIAN MOBILE HOSPITALS AND DISASTER UNITS

For use in tents, containers,
or already existing buildings.
More information available
on request.
