His Majesty's Opposition 1714-1830

ARCHIBALD S. FOORD

'Mr Foord's book, in fact, is about Hanoverian oppositions, and about them (especially perhaps those of the middle years of the eighteenth century) he provides new and valuable information. One reason why his book is so interesting is the great diversity of these oppositions and the individualism, or independence, of their members.' *NEW STATESMAN* * 50s net

Ruanda-Urundi 1884-1919

WM ROGER LOUIS

The diplomatic history of Ruanda-Urundi throws light on the way much of Africa was partitioned; by diplomats drawing lines on maps in total geographical ignorance. This book attempts to show how an African territory was created and ruled by European powers, and describes the German system of administration of a region of vital strategic importance. * 38s net

SYED RAZI WASTI

'...a first-rate piece of historical research, well-balanced, objective, and lucid, which corrects a number of current misconceptions and points out some quite serious errors committed by earlier writers on the same period.' *THE TIMES LITERARY SUPPLEMENT* * 30s net
