40 years progress ...

On February 19th, 1910, The Bristol Aeroplane Company Limited was founded. The "Box-Kite"—first production aircraft—began a record of nearly 200 "Bristol" types. Fighter, Bulldog, Blenheim, Beaufort, Beaufighter and Brigand are a few aircraft names which, with Jupiter, Pegasus, Hercules and Centaurus engines, have made "Bristol" a name world-renowned in aviation. The Bristol Aeroplane Company Limited points with pride to a forty-year record of steady progress achieved largely by the encouragement of individual thought and enterprise among its workers.

OBJECTS OF THE ASSOCIATION

The objects of the Association*are to collect, compile, and disseminate information of a technical and semi-technical nature pertaining to Helicopters, and all other types of Rotating Wing Aircraft. The Association aims to work in close co-operation with existing Aeronautical Bodies on matters affecting its objects, and it may act as an Advisory Body in the promotion of legislation calculated to be of benefit to the development of Rotating Wing Aircraft.
