

Medicine

Books and Journals from
Cambridge University Press

The Cambridge Medicine programme focuses its book publishing in a defined set of core clinical areas with our great strength in the clinical brain sciences. Other specialties of significant focus include reproductive medicine/obstetrics and gynaecology, anaesthesia and critical care, emergency medicine and pathology.

Our journals programme covers a broad spectrum of medical disciplines including emergency and disaster medicine, epidemiology and infectious diseases, biomedical science, genetics, nutrition, mental health and psychiatry, and neuroscience.

We partner with many learned societies including The Society for Healthcare Epidemiology of America, the Neuroscience Education Institute, and the Royal College of Obstetricians and Gynaecologists.

ASHE

Antimicrobial Stewardship & Healthcare Epidemiology

The Society for Healthcare Epidemiology (SHEA) and Cambridge University Press are pleased to announce the launch of a new, open access journal, *Antimicrobial Stewardship and Healthcare Epidemiology (ASHE)*.

ASHE will publish submissions of original research that will contribute to the fields of antimicrobial stewardship, healthcare epidemiology and infection prevention with the goal of improving healthcare safety globally.
