Halogen Mineralogy and Geochemistry

- A. D. EDGAR, L. A. PIZZOLATO and J. SHEEN: Fluorine in igneous rocks and minerals with emphasis on ultrapotassic mafic and ultramafic magmas and their mantle source regions 243
- R. H. WORDEN: Controls on halogen concentrations in sedimentary formation waters 259
- W. EDMUNDS: Bromine geochemistry of British groundwaters 275
- P. J. TRELOAR and H. COLLEY: Variations in F and Cl contents in apatites from magnetite-apatite ores in northern Chile, and their ore-genetic implications 285

Petrology

- GU LIANXING and F. M. VOKES: Intergrowths of hexagonal and monoclinic pyrrhotites in some sulphide ores from Norway 303
- R. A. IXER, B. YOUNG, and C. J. STANLEY: Bismuth-bearing assemblages from the Northern Pennine Orefield 317

Geochemistry

- S. BOULT: Fluvial metal transport near sources of acid mine-drainage: relationships of soluble, suspended and deposited metal 325

Experimental

- J. A. DALTON and F. G. F. GIBB: Temperature gradients in large cold-seal pressure vessels 337

Mineralogy

- A. YA. MEDVEDEV: Synthetic armalcolite and pseudobrookite 347
- S. CARBONIN, U. RUSSO and A. DELLA GIUSTA: Cation distribution in some natural spinels from X-ray diffraction and Mössbauer spectroscopy 355
- Y. KAWACHI, D. S. COOMBS and H. MIURA: Noélbensonite, a new BaMn silicate of the lawsonite structure type, from Woods mine, New South Wales, Australia 369

Short Communications

- P. NIMIS, G. MOLIN and D. VISONÀ: Crystal chemistry of danalite from Daba Shabeli Complex (N Somalia) 375
- K. LINTHOUT and W. J. LUSTENHOUWER: Subsiliic sodium gedrite in leptite of quartz keratophyric origin: Nordmark (Sweden) 379
- E. E. FOORD: Clinobisvanite, eulytite, and namibite from the Pala pegmatite district, San Diego Co., California, USA 387
