

Law & Society Review Condensed Style Sheet

Type manuscripts **double-spaced** on one side of the paper only. While manuscripts need not conform to this style sheet at the time of submission, all manuscripts must include an abstract, footnotes, and a list of references, and all accepted manuscripts must be revised by the authors to conform to the *Review's* style. **The rules listed below supplement the manuscript information on the inside front cover of the *Review*.** Authors are urged to consult *Review* issues in volume 26 or later for further illustrations. A detailed style sheet is available from the Editorial Office.

1. **Abstracts.** All manuscripts should include an abstract of not more than 100 words. No abstracts are required for review essays or comments.
2. **Footnotes.** Footnotes should be numbered sequentially (except for the author's footnote) and printed on pages immediately following the text (not at the foot of the page). They should contain only substantive comments and additional references not immediately relevant to the text.
3. **Tables and Figures.** Tables should approximate the appearance of printed tables. Figures should be camera ready; provide originals, not xerographic copies. Tables and/or figures should be placed at the end of the text, after footnotes, appendixes, and references. Their location within the text should be indicated as follows:

Table 1 about here

4. **Citations.** All notes that consist merely of supporting citations should be placed in parentheses in the text. For example:

In a thoughtful essay, Hayden (1991) . . .

OR

Media stories often portray the civil jury as generous (Daniels & Martin 1986:236; Hans 1989; Huber 1988).

The same general rules apply to footnote text.

5. **References.** References are placed at the end of the manuscript following the footnotes. The list should contain only those sources actually cited in text or notes. Give authors' names as they appear in the original source. For more than one publication by the same author, list them in chronological order, with the older item first. For more than one publication in one year by the same author, use small (lower-case) letters to distinguish them (e.g., 1970a, 1970b).

WHERE IS YOUR BODY?

And Other Essays on Race, Gender, and the Law

JUST STORIES

How the Law Embodies Racism and Bias

Thomas Ross

In this stinging critique of our legal system, Thomas Ross reveals how in making and justifying their opinions, judges rely to a startling degree on personal constructs that often perpetuate the deep biases in society.

SCAPEGOATS FOR A PROFESSION

UNCOVERING PROCEDURAL INJUSTICE

Ann Daniel

University of New South Wales, Australia

Often thought to be a primitive or ancient practice, scapegoating is shown here occurring in the justice systems of modern democracies. Ann Daniel, as a first-hand witness, documents several widely publicised disciplinary cases brought against prominent professionals in both law and medicine. These are the stories of professionals whose fame ended in ignominy, whose persecution was to restore a profession's good name. These were the people who became scapegoats as professions tried to rid themselves of the troubles and confusions threatening reputation at the time.

A Matter of Interpretation

Federal Courts and the Law

Antonin Scalia

Edited by Amy Gutmann

In this incisive new book, Supreme Court Justice Antonin Scalia shares his opinions about the law in general and the role of judges in particular. In his unique style, both erudite and witty, he exhorts judges to resist the temptation to rely on the intent and history of legislation in making decisions. Instead, he argues, they should give up trying to understand what lawmakers meant and focus on what they actually wrote into law.

A Matter of Interpretation includes responses from four writers with differing points of view: Gordon Wood, Laurence Tribe, Mary Ann Glendon, and Ronald Dworkin. In the spirit of debate, Justice Scalia responds to these critics.

This is an unusual and compelling book. It offers the rare opportunity of witnessing a sitting

Supreme Court Justice in dialogue with some of the best legal minds of our time.

"[Scalia] is formidably persuasive, by turns seductive, fierce, funny, charming—and always brilliant."

—Paul Reidinger, *American Bar Association Journal*

"Justice Scalia merits praise for the clarity with which he writes and for the careful thought that underlies his writing."

The Problem of Trust

Adam B. Seligman

In this sequel to his widely admired book, *The Idea of Civil Society*, Adam Seligman analyzes trust as a fundamental issue of our present social relationships. Setting his discussion in historical and intellectual context, Seligman asks whether trust—which many contemporary critics, from Robert Putnam through Francis Fukuyama, identify as essential in creating a cohesive society—can continue to serve this vital role.

"A valuable work, written by one of the more exciting and thoughtful social theorists to have emerged on the American scene in recent years."—Robert Wuthnow

Bodies of Law

Alan Hyde

The most basic assertions about our bodies—that they are ours and distinguish us from each other, that they are private and have boundaries, races, and genders—are all political theories, constructed in legal texts for political purposes. So argues Alan Hyde in this first account of the body in legal thought.

Hyde demonstrates that none of the constructions of the body in legal texts are universal truths that rest solely on body experience. Drawing on an array of fascinating case material, he shows that legal texts can construct all kinds of bodies, including those that are not owned at all, that are just like other bodies, that are public, open, and accessible to others. Further, the language, images, and metaphors of the body in legal texts can often convince us of positions to which we would not assent as a matter of political theory.

"Anyone who wants to understand the myriad mechanisms by which law constructs and regulates corporeality would do well to start with this book. *Bodies of Law* will stand as a decisive intervention in the study of law and contemporary 'body politics.'"

Settling Accounts

Violence, Justice, and Accountability in
Postsocialist Europe

John Borneman

As new states in the former East bloc begin to reckon with their criminal pasts in the years following a revolutionary change of regimes, a basic pattern emerges: In those states where some form of retributive justice has been publicly enacted, there has generally been much less of a recourse to collective retributive violence.

In *Settling Accounts*, John Borneman explores the attempts by these aspiring democratic states to invoke the principles of the "rule of law" as a means of achieving retributive justice, that is, convicting wrongdoers and restoring dignity to victims of moral injuries. Democratic regimes, Borneman maintains, require a strict form of accountability that holds leaders responsible for acts of criminality.

"*Settling Accounts* is a provocative and important book that will make a significant impact on our understanding of postsocialist societies, the nature of retributive justice, and the value of the rule of law."—Sally Merry
