COVER: ITALIAN FISHING BOATS AT SAN FRANCISCO (c. 1880). Although these vessels were built locally, their design was imported unaltered from Europe. Vessels like these, gradually adapted to fossil-fuel engines and open-sea fishing, were a mainstay of the California fishing industry during the early decades of the twentieth century. (Photograph courtesy of Bancroft Library.) For an article on the California fisheries between 1900 and 1925, see pp. 494-521.
