The Great Tradition of the American Churches

by WINTHROP S. HUDSON

*Professor of Church History,
Colgate-Rochester Divinity School*

Dr. Hudson throws a searching light on what has heretofore been considered the settled Protestant position on church-state relations, presents an incisive study of the forces within Protestantism which threaten to upset the time-proven equilibrium.

There is grave danger, Dr. Hudson charges, that the traditional separation is being undermined by the churches themselves as they renounce their distinctive role in the partnership and succumb to the pressure of secular life.

Dr. Hudson reviews the course of the voluntary principle of religion in America through a series of fascinating pen portraits of outstanding American religious leaders of "The Great Century"—Phillips Brooks, Walter Rauschenbusch, Horace Bushnell, Lyman Beecher and many others. He makes a noteworthy case for the complete separation of church and state as the best condition for the religious life of any people.
