

Proceedings of the
CAMBRIDGE PHILOSOPHICAL
SOCIETY

(MATHEMATICAL AND PHYSICAL SCIENCES)

VOLUME 61

PART 2

CAMBRIDGE UNIVERSITY PRESS

BENTLEY HOUSE, 200 EUSTON ROAD, LONDON, N.W.1

AMERICAN BRANCH: 32 EAST 57TH STREET, NEW YORK, N.Y. 10022

Price Forty-five Shillings Net (U.S.A. \$8.00)

Subscription price per volume £8 net post free (\$28.50 in U.S.A.)

April 1965

CAMBRIDGE PHILOSOPHICAL SOCIETY

FOUNDED 1819; ROYAL CHARTER 1832

Session 1964–1965

President: E. N. WILLMER

Vice-Presidents: F. P. WHITE, M. RYLE, SIR RUDOLPH PETERS

Treasurer: R. C. EVANS

Secretaries: (Mathematical) G. R. ALLAN

(Physical) A. D. YOFFE

(Biological) S. SMITH

The publications of the Society consist of the *Proceedings* and of the *Biological Reviews*. The publication of *Transactions* was suspended at the end of Volume XXII.

Orders should be sent to: THE MANAGER, CAMBRIDGE UNIVERSITY PRESS, BENTLEY HOUSE, 200 EUSTON ROAD, LONDON, N.W. 1. Enquiries from the U.S.A. should be addressed to the Cambridge University Press, American Branch, 32 East 57th Street, New York, N.Y. 10022.

For the purchase of early parts of the *Transactions*, *Proceedings* and *Biological Reviews* application should be made to the Secretaries. All parts of the *Proceedings* (including the cumulative index to Vols. 1 to 50) and *Biological Reviews* are available, and prices of sets or single parts will be quoted on application.

Fellows and Associates of the Society are particularly requested to inform the Secretaries of any change of postal address, and to send their subscriptions to the Treasurer, CAMBRIDGE PHILOSOPHICAL SOCIETY, FREE SCHOOL LANE, CAMBRIDGE.

All correspondence regarding library exchanges and Fellows' copies should be addressed to the Secretaries at the Society's office.

PROCEEDINGS of the CAMBRIDGE PHILOSOPHICAL SOCIETY

edited by

G. R. ALLAN

in consultation with

J. W. S. CASSELS

W. B. R. LICKORISH

F. SMITHIES

P. C. CLEMMOW

D. W. S. SCIAMA

A. M. WALKER

E. R. LAPWOOD

1. Four parts of the *Proceedings* are issued each year.
2. Communications for the *Proceedings* should be sent to *The Librarian, Cambridge Philosophical Society, Free School Lane, Cambridge*. Papers should be communicated directly by the author.
3. Papers occupying more than twenty pages of print can only rarely be accepted.
4. It is recommended that each paper be prefaced by a short abstract. Copies of a *Guide for the Preparation of Synopses*, prepared by the Abstracting Services Consultative Committee and issued by the Royal Society, may be obtained from the Librarian.
5. Drawings for illustration and diagrams should be on a large scale and on smooth white Bristol board in Indian ink. Lettering should be written clear of the diagram, and the desired position of the lettering indicated by pencilled lines.
6. References should be listed at the end of each paper. Titles of journals listed in *Mathematical Reviews* should be abbreviated as in *Mathematical Reviews*, except that proper names should be given in full. First and last page numbers should be given where relevant.
7. Authors are particularly requested to prepare their manuscripts in a form suitable for printing, with adequate margins. A pamphlet on the preparation of papers may be obtained from the Librarian. If a large number of corrections are required in the proofs, the Council reserves the right to make a charge towards the cost.
8. Authors may receive, on request, free offprints of *Proceedings* papers (one hundred without covers or fifty with covers for a sole author, and a smaller number for each joint author).

ELECTRONICS LETTERS

AN INTERNATIONAL PUBLICATION

ELECTRONICS LETTERS is a monthly fast-communication periodical published by the Institution of Electrical Engineers. Its contents are letters (about 1000 words in length) on the latest advances in electronic science and engineering, radio and automatic control. Letters, which are accepted in French, German, Russian and Italian in addition to English, are published within 2 to 6 weeks of receipt

The annual subscription is £2. 10s. (\$7.00). Individual copies cost 5s. (\$0.70).

Copies and further details may be obtained from the Secretary (Publications Department).

THE INSTITUTION OF ELECTRICAL ENGINEERS
SAVOY PLACE, LONDON W.C. 2

THE JOURNAL OF THE SOCIETY FOR INDUSTRIAL AND APPLIED MATHEMATICS

VOLUME 12, NUMBER 4, DECEMBER 1964

- A Solution of the Shannon Switching Game.* ALFRED LEHMAN.
The Computation of Eigenvalues, I. Real Symmetric Matrices. MATHURA D. SAWHNEY.
On Stochastic Counting Processes Associated with a Semi-Markov Process. MELVIN TAINITER.
On the Two Point Boundary Value Problem, with Application to Celestial Mechanics. MURRAY WACHMAN.
Some Nonlinear Elliptic Partial Differential Equations and Difference Equations. GREGORY T. MCALLISTER.
Equilibrium Points of Bimatrix Games. O. L. MANGASARIAN.
Lagrange Multipliers and the Geometry of Hilbert Space. TERENCE BUTLER.
On Cyclic Codes for Multi-phase Data Transmission Systems. M. HANAN and E. P. PALERMO.
A Note on Functionals Continuous with Respect to an Operator. MORTON E. GURTIN.
The Block Symmetric Successive Overrelaxation Method. LOUIS W. EHRLICH.
Redundancy and Trichotomous Systems. JOHN G. RAU.
Note on a Problem by S. L. Hakimi Concerning Planar Graphs Without Parallel Elements. G. BÖTTGER and H. HARDERS.
Approximating Symmetric Relations by Equivalence Relations. CHARLES T. ZAHN, Jr.
An Alternating Direction Method for Operator Equations. R. B. KELLOGG.
Random Root Location. R. S. PINKHAM.
A Riemann-Like Method for Solving Hyperbolic Difference Equations. CHARLES S. DURIS.
The Schwinger Variation Method. EDMUND PINNEY.
On Lagrange-Hermite Interpolation. J. F. TRAUB.
Tensor Products and Commutative Matrices. CARL DE BOOR and JOHN R. RICE.
Successive Recurrent Functions and the Partition of Finite Measure Spaces. B. W. ROOS.
Extinction Probabilities for Age- and Position-Dependent Branching Processes. H. E. CONNER.

The Journal is published quarterly. Subscriptions are \$14.00 per volume

Orders should be placed with the

SOCIETY FOR INDUSTRIAL AND APPLIED MATHEMATICS

Box 7541, Philadelphia 1, Pennsylvania, U.S.A.

ROYAL STATISTICAL SOCIETY

THE JOURNAL OF THE ROYAL STATISTICAL SOCIETY is published in three series: SERIES A (GENERAL), four issues a year, annual subscription post free £5. 4s. (U.S. \$15), price each part 30s.; SERIES B (METHODOLOGICAL), three issues a year, annual subscription post free £4. 2s. (U.S. \$12), price each part 35s.; SERIES C (APPLIED STATISTICS), three issues a year, annual subscription post free 30s. (U.S. \$5).

Contents of Series B (Methodological), Vol. 27, Part 1, 1965

- On comparisons between confidence point procedures in the case of a single parameter. By B. L. WELCH.
- On confidence points and Bayesian probability points in the case of several parameters. By H. W. PEERS.
- Using the observations to estimate the prior distribution. By M. CLUTTON-BROCK.
- The Robbins Monro method for estimating the median lethal dose. By W. G. COCHRAN and M. DAVIS.
- On circular functional relationships. By NAI NG CHAN.
- Probability bounds for a union of hyperspherical cones. By KEEWHAN CHOI.
- Formulae to improve Wald's approximation for some properties of sequential tests. By G. M. TALLIS and M. K. VAGHOLKAR.
- Note on a χ^2 approximation for the multivariate sign test. By B. M. BENNETT.
- The determination of sampling distributions and moment generating functions by solving differential equations. By A. REITSMA.
- Moment crossings as related to density crossings. By G. MARSAGLIA, A. W. MARSHALL and F. PROSCHAN.
- On certain properties of the exponential-type families. By G. P. PATIL and R. SHORROCK.
- Association between random variables and the dispersion of a Radon-Nikodym derivative. By S. M. ALI and S. D. SILVEY.
- A further result on the relevance of the dispersion of a Radon-Nikodym derivative to the problem of measuring association. By S. M. ALI and S. D. SILVEY.
- The detection of partial association, II. By M. W. BIRCH.
- On a property of the random walks describing simple queues and dams. By R. M. LOYNES.
- Applications of a ballot theorem in physics and in order statistics. By L. TAKÁCS.
- A branching process allowing immigration. By C. R. HEATHCOTE.
- Polynomial projecting properties of multi-term predictors/controllers in non-stationary time series. By W. D. RAY and C. WYLD.
- The statistical Fourier analysis of variances. By L. J. HERBST.
- Supplement to 'A deformation method for quadratic programming'. By S. ZAHL.
