EUROPEAN IDEOLOGIES

A Survey of 20th Century Political Ideas

Edited by FELIKS GROSS, New York University

Introduction by ROBERT M. MACIVER, Columbia University

"NO area of knowledge has greater significance today than that which explores the idea-systems of our age. This book is a contribution to that knowledge. No one can read it without a widened understanding of the forces that are stirring and changing this distracted age. Not only will he gain a new perspective of the movements that impinge on us from without, he will also be in a better position to face the issues that confront us at home."—*Robert M. MacIver*

Among the Subjects covered are:

Peasant Ideologies	Political Catholicism	Russian Libertarianism	Trade-Unionism
Agrarianism	Zionism	Regionalism	Nationalism
Pacifism	Hispanism	Separatism	Nazism
Pangermanism	Falangism	Cooperativism	Fascism
Panslavism	Liberalism	Anarchism	Socialism
Pan-Europeanism	Humanism	Syndicalism	Communism

A sociological analysis of European mass movements is followed in the first chapter by a discussion of the significance of European political myths and utopias, political ritualism and symbolism, mechanism of urban and rural mass movements, theory of political strategy and tactics, and structure of European idea-systems
