THE PHYSIOLOGY AND PATHOLOGY OF THE
MIND. By HENRY MAUDSLEY, M.D. Lond., Physician to the West
London Hospital, &c.

"It is long since we read a scientific work of any kind of which the *raison d'être*
was so thoroughly good and important, or which accomplished so much towards the
fulfilment of a most arduous and laborious task."—*Lancet*.

"The cause is an excellent one, and it is excellently advocated."—*Examiner*.

"Looking at the work in its *tout ensemble*, we must confess that it is one of which
modern philosophy may well feel proud."—*London Review*.
