# WEED SCIENCE

*Published six times a year by the Weed Science Society of America*

William K. Vencill, *Editor*

The Weed Science Society of America publishes original research and scholarship in the form of peer-reviewed articles in three international journals. *Weed Science* is focused on understanding “why” phenomena occur in agricultural crops. As such, it focuses on fundamental research directly related to all aspects of weed science in agricultural systems. *Weed Technology* focuses on understanding “how” weeds are managed. As such, it is focused on more applied aspects concerning the management of weeds in agricultural systems. *Invasive Plant Science and Management* is a broad-based journal that focuses not only on fundamental and applied research on invasive plant biology, ecology, management, and restoration of invaded non-crop areas, but also on the many other aspects relevant to invasive species, including educational activities, policy issues, and case study reports. Topics for *Weed Science* include the biology and ecology of weeds in agricultural, forestry, aquatic, turf, recreational, rights-of-ways, and other settings; genetics of weeds and herbicide resistance; chemistry, biochemistry, physiology and molecular action of herbicides and plant growth regulators used to manage undesirable vegetation, and herbicide resistance; ecology of cropping and non-cropping systems as it relates to weed management; biological and ecological aspects of weed control tools including biological agents, herbicide resistant crops, etc.; effects of weed management on soil, air, and water. Symposia papers and reviews are accepted. Consult the editor for additional information.

## Associate Editors (Assignment Year)

**Muthukumar V Bagavathiannan**, Texas A&M, College Station, TX 77843 (2015)

**Ian Burke**, Washington State University, Pullman, WA 99164 (2019)

**Carlene Chase**, Horticultural Sciences Department, University of Florida, Gainesville, FL 32611 (2016)

**Bhagirath Singh Chauhan**, Queensland Alliance for Agriculture and Food Innovation (QAAFI), The University of Queensland, Queensland, Australia (2014)

**Sharon Clay**, South Dakota State University Plant Science Department, Brookings, SD 57007 (2002)

**Timothy Grey**, Department of Crop and Soil Science, University of Georgia, Tifton, GA 31793 (2009)

**Erin Haramoto**, University of Kentucky, Lexington, KY 40506 (2020)

**Prashant Jha**, Iowa State University, Ames, IA 50011 (2017)

**Mithila Jugulam**, Kansas State University, Manhattan, KS 66506 (2019)

**Vipin Kumar**, Kansas State University, Hays, KS 67601 (2020)

**Ramon Leon**, Department of Crop and Soil Sciences, North Carolina State University, Raleigh, NC 27695 (2016)

**Sara Martin**, Ag Canada, Ottawa, Canada (2018)

**Chris Preston**, Australian Weed Management, University of Adelaide, PMB1, Glen Osmond, SA 5064, Australia (2003)

**Dean Riechers**, Department of Crop Sciences, University of Illinois, Urbana, IL 61801 (2011)

**Hilary Sandler**, University of Massachusetts–Amherst Cranberry Station, East Wareham, MA 02538 (2008)

**Debalin Sarangi**, University of Wyoming, Powell, WY 82435 (2020)

**Steven Seefeldt**, USDA-ARS, University of Alaska, Fairbanks, AK 99775 (2011)

**Patrick J. Tranel**, Department of Crop Sciences, University of Illinois, 360 ERML, Urbana, IL 61801 (2002)

**Te-Ming Paul Tseng**, Mississippi State University, Mississippi State, MS 39762 (2019)

**Martin M. Williams II**, USDA-ARS Global Change and Photosynthesis Research, Urbana, IL 61801 (2008)

**Chenxi Wu**, Crop Science Division, Plant Biotechnology – Research & Development, Bayer U.S., Chesterfield, MO 63017 (2019)

Tracy Candelaria, *Managing Editor*

## Officers of the Weed Science Society of America

<http://wssa.net/society/bod/>

*Weed Science* (ISSN 0043-1745) is an official publication of the Weed Science Society of America, 12011 Tejon Street, Suite 700, Westminster, CO 80234 (720-977-7940). It contains refereed papers describing the results of research that elucidates the nature of phenomena relating to all aspects of weeds and their control. It is published bimonthly, one volume per year, six issues per year beginning in January.

Membership includes online access to *Weed Science*, *Weed Technology*, *Invasive Plant Science and Management*, and the online *WSSA Newsletter*. Dues should be sent to WSSA, 12011 Tejon Street, Suite 700, Westminster, CO 80234 no later than December 1 of each year. Membership in the society is on a calendar-year basis only.

New subscriptions and renewals begin with the first issue of the current volume. Please visit the *Weed Science* subscription page at <https://www.cambridge.org/core/journals/weed-science/subscribe>; Email: [subscriptions\\_newyork@cambridge.org](mailto:subscriptions_newyork@cambridge.org) in USA, [journals@cambridge.org](mailto:journals@cambridge.org) outside USA.

*Weed Science* publishes six times a year in January, March, May, July, September, and November. Annual institutional electronic subscription rates: US \$443.00; UK £308.00.

Please use Editorial Manager to access manuscript submissions (<http://www.editorialmanager.com/ws>). Authors are asked to pay \$65 per page as a portion of the cost of publication, plus an additional processing charge of \$55 per manuscript if none of the authors are WSSA members. The Editor can make exceptions in advance when justified.

The Weed Science Society of America fully subscribes to the belief that progress in science depends upon the sharing of ideas, information, and materials among qualified investigators. Authors of papers published in *Weed Science* are therefore encouraged, whenever practicable and when state and federal laws permit, to share genotypically unique, propagative materials they might possess with other workers in the area who request such materials for the purpose of scientific research.

### On the Cover:

Collection of feral rye (*Secale cereale*), rattail fescue (*Vulpia myuros*), and downy brome (*Bromus tectorum*) in a winter wheat field near Pilot Rock, Oregon before the feral rye and rattail fescue started to shatter seeds. Photo taken by Judit Barroso on May 24, 2016.

# WEED SCIENCE

Journal of the Weed Science Society of America

Volume 69 Number 2 March 2021

## MY VIEW

A progressive approach for integrated pest management. *Steven C. Haring* ..... 129

## REVIEW

Effects of fertility amendments on weed growth and weed–crop competition: a review. *Neith G. Little, Antonio DiTommaso, Anna S. Westbrook, Quirine M. Ketterings and Charles L. Mohler* ..... 132

## RESEARCH ARTICLES

Novel sensor-based method (quick test) for the in-season rapid evaluation of herbicide efficacy under real field conditions in durum wheat. *Ilias Travlos, Anastasia Tsekoura, Nikolaos Antonopoulos, Panagiotis Kanatas and Ioannis Gazoulis* ..... 147

Target-site mutation and enhanced metabolism confer resistance to thifensulfuron-methyl in a multiple-resistant redroot pigweed (*Amaranthus retroflexus*) population. *Yi Cao, Shouhui Wei, Hongjuan Huang, Wenyu Li, Chaoxian Zhang and Zhaofeng Huang* ..... 161

Ammonium sulfate improves the efficacy of glyphosate on South African lovegrass (*Eragrostis plana*) under water stress. *Marlon O. Bastiani, Nilda Roma-Burgos, Ana C. Langaro, Reiofeli A. Salas-Perez, Christopher E. Rouse, Marcus V. Fipke and Fabiane P. Lamago* ..... 167

Frequency, distribution, and ploidy diversity of herbicide-resistant Italian ryegrass (*Lolium perenne* spp. *multiflorum*) populations of western Oregon. *Lucas K. Bobadilla, Andrew G. Hulting, Pete A Berry, Marcelo L. Moretti and Carol Mallory-Smith* ..... 177

Seasonal nonstructural carbohydrate patterns in dewberry (*Rubus* spp.) roots. *Katherine M. Ghantous and Hilary A. Sandler* ..... 186

Effect of fulvic acid on barnyardgrass (*Echinochloa crus-galli*) seedling growth under flooding conditions. *Shangfeng Zhou, Yi Tang, Lang Pan, Cong Wang, Yanan Guo, Haona Yang, Zuren Li, Lianyang Bai and Lifeng Wang* ..... 192

The adaptive value of flowering time in wild radish (*Raphanus raphanistrum*). *Ci Sun, Michael B. Ashworth, Ken Flower, Martin M. Vila-Aiub, Roberto Lujan Rocha and Hugh J. Beckie* ..... 203

Germination biology of four climatically varied populations of the invasive species African lovegrass (*Eragrostis curvula*). *Jason Roberts, Singarayer Florentine, Eddie van Etten and Christopher Turville* ..... 210

Changes in dominant weeds of wheat in a rice–wheat rotation system as affected by composted manure and straw amendments. *Yunhui Duan, Haiyan Zhang, Min Han, Aimei Hong, Yong Li, Guojun Sun, Pinglei Gao, Yicheng Sun, Wei Ran, Jiahe Shen, Xin Shen, Chenyu Wu and Min Ji* ..... 219

Suppression of weed occurrence in a five-year corn–earthworm coculture system. *Tao Li, Jiequn Fan, Zhenguan Qian, Guohui Yuan, Dandan Meng, Shuiliang Guo and Weiguang Lv* ..... 230

Seed retention of grass weeds at wheat harvest in the Pacific Northwest. *Carolina San Martín, Mark E. Thorne, Jennifer A. Gourlie, Drew J. Lyon and Judit Barroso* ..... 238

Weeding performance of a spring-tine harrow as affected by timing and operational parameters. *Zhiwei Zeng, Amy Martin, Ying Chen and Xu Ma* ..... 247
