The BULLETIN, the JOURNAL and the REVIEW OF SYMBOLIC LOGIC are the official organs of the Association for Symbolic Logic, an international organization for furthering research in logic and the exchange of ideas among mathematicians, computer scientists, linguists, and others interested in this field.

The JOURNAL invites submission of original scholarly work in mathematical logic and its applications.

Manuscripts should be submitted using the ASL's online system at http://asljournals.org where instructions directed specifically at using the system can also be found.
Authors should keep a complete copy of their submission and all electronic files from which it was created. They should also consult the more general guidelines for the submission of manuscripts at http://www.aslonline.org/journals-journal-guide.html. These instructions include the Association's standards about previous publication and plagiarism as well as information about copyrights and electronic copies of published papers.
No print offprints will be supplied but authors will receive a link to a freely accessible electronic pdf of their published article. Print offprints may be purchased if required.
