

CAMBRIDGE MEDICAL SERIES
WAR NEUROSES

BY
JOHN T. MACCURDY, M.D.

PSYCHIATRIC INSTITUTE, WARD'S ISLAND, NEW YORK; LECTURER ON MEDICAL PSYCHOLOGY,
CORNELL UNIVERSITY MEDICAL SCHOOL, NEW YORK

WITH A PREFACE BY

W. H. R. RIVERS, M.D. (LOND.)

FELLOW OF ST JOHN'S COLLEGE, CAMBRIDGE

Demy 8vo. pp. xii + 132. Price 7s 6d net

"The book describes the experience of one with a long record of skilful investigation of the psycho-neuroses of civil life when brought into contact in British hospitals with the special forms of neurosis which are produced by the shocks and strains of warfare. The cases on which the book is based are not startling rarities especially selected to show features of scientific interest, but are characteristic straightforward cases such as may be met with by the score in any hospital especially devoted to functional nervous disorders. The merit of the book lies, not in the nature of its material, but in the skill with which this material has been treated and the clearness with which the essential facts have been set down and utilized to illustrate the special problems presented by the neuroses of war. Dr MacCurdy's book is so written that any intelligent layman will be able to follow its essential lessons."

Extract from Dr Rivers' Preface
