Call for Papers. A special topics issue of *Gender & Society* will focus on physical and psychological violence against women and children. We are particularly interested in papers showing the systemic interrelationship of the various forms of violence, the impact of institutional violence, and the threat of violence as a means of social control over women and children. The submissions should have some relationship to the real world in which real women and real children live. Reports of research grounded in a structural analysis of violence against women and children are welcome, but this issue will not be limited to articles written in standard academic style. Experiential data, poetry, drawings and photographs, used as illustrative material in analytic pieces or as separate submissions are also welcome, but we cannot accept fiction.
