

Fritz London

A Scientific Biography
KOSTAS GAVROGLU

Fritz London was one of the founders of quantum chemistry, and the first to give a phenomenological explanation of superconductivity. This is a thoroughly researched biography of Fritz London.
£50.00 net HB 0 521 43273 1 320 pp.

Optics in the Age of Euler

Conceptions of the Nature of Light, 1700–1795
Revised Edition
CASPER HAKFOORT

What is light? Is it a particle or a wave? Hakfoort studies the eighteenth-century origins and early phases of this key debate in optics. This is a revised translation enriched with new research.
£35.00 net HB 0 521 40471 1 253 pp.

Eddington's Search for a Fundamental Theory

A Key to the Universe
C. W. KILMISTER

A lucid description of the development of theoretical physics from a unique point of view: how it affected the thought of the celebrated astrophysicist Arthur Eddington.
£35.00 net HB 0 521 37165 1 268 pp.

Science and Civilisation in China, Vol. V Part 6

Volume V: Chemistry and Chemical Technology
Part 6: Military Technology: Missiles and Sieges
Edited by The late J. NEEDHAM and R. D. S. YATES

'For this immense and astonishing work of erudition no praise can be too high; ... we have a volume authoritative, fascinating and illuminating, ... of contemporary Eastern and Western progress in the sciences.'
W. M. Smart, *Nature*
£80.00 net HB 0 521 32727 X 620 pp.

The Logical Status of Diagrams

SUN-JOO SHIN

Challenges the prejudice against visualisation in the history of logic and mathematics and provides a formal foundation for work on natural reasoning in a visual mode.
£24.95 net HB 0 521 46157 X 192 pp.

Colour

Art and Science
Edited by T. LAMB and J. BOURRIAU

This book, of interdisciplinary essays, provides an exciting exploration of colour, from diverse perspectives ranging from physics, through biology, to art history.

PAUL FEYERABEND

KILLING TIME

The Autobiography of Paul Feyerabend

Killing Time is the self-portrait of one of this century's most original and influential intellectuals. Writing with characteristic wit, candor, and vision, Feyerabend recalls a remarkable career that stretched from Vienna and London to the University of California at Berkeley. Rarely has an intellectual of this stature told his story with such fierce honesty and joy.

Paul Feyerabend at Spokane, July 1992. Photograph by Serafino Amadei.

“The caustic verve, the studied nonchalance of one of the very few true anarchists and free spirits in modern academic-philosophic life come through beautifully in this memoir. But so does Paul Feyerabend's passion for music and, poignantly, his love of love. A memorable epilogue.”—George Steiner

“This arresting autobiography is unfailingly provocative and fascinating. Like the man, the book is remarkably frank, sardonic, and contentious about philosophy, science, universities, opera, love, and, unflinchingly, himself. It is an absorbing odyssey in egotism that in the end becomes strangely and movingly redeeming.”
—Daniel J. Kevles, California Institute of Technology

Cloth £18.25 \$22.95 208 pages 40 halftones

Misunderstanding Science?

The Public Reconstruction of Science and Technology

Edited by A. IRWIN and B. WYNNE

Misunderstanding Science? offers a challenging new perspective on the nature of modern science and its relationship with the public. As such, it contributes to the currently-heated discussion over the public understanding of science.

£35.00 HB 0 521 43268 5 240 pp. 1996

The Measurement of Starlight

Two Centuries of Astronomical Photometry

J. B. HEARNSHAW

This authoritative volume traces the fascinating historical development of astronomical photometry, from the 1780s to the 1970s. It provides professional astronomers with a valuable background to this fundamental technique, and will be of great interest to amateur astronomers and historians of science.

£65.00 HB 0 521 40393 6 525 pp. 1996

Records of the Dawn of Photography

Talbot's Notebooks P & Q

LARRY J. SCHAAF

William Henry Fox Talbot (1800–1877) was the inventor of photography. This book reproduces for the first time in full facsimile his two most important research notebooks, covering the period from the first public announcement of photography in 1839 to the height of his researches in 1843.

ALEXIUS MEINONG UND GUIDO ADLER

Eine Freundschaft in Briefen

Hrsg, kommentiert und mit einer Einführung versehen von
Gabriele Johanna Eder

Amsterdam/Atlanta, GA 1995. 423 pp.

(Studien zur österreichischen Philosophie 24)

ISBN: 90-5183-867-0

Hfl. 90,-/US-\$ 60.-

Geschichts- und Lebensbilder werden im allgemeinen von Historikern aufgrund verschiedenartiger Quellen entworfen. In seltenen Fällen übernehmen es jene, die Geschichte machen, selbst, über Jahrzehnte ihr Leben und ihre Zeit zu dokumentieren. Die weitgehend erhaltene Korrespondenz zwischen dem Philosophen Alexius Meinong (1853-1920) und dem Musikwissenschaftler Guido Adler (1855-1941) ist ein solcher Glücksfall. Sie spiegelt die Lebensgeschichte der beiden Freunde im Kontext der Gesamtgeschichte. Der umfangreiche Briefwechsel ist aber weit mehr als eine eindrucksvolle Schilderung des bloß persönlichen Werdeganges von Meinong und Adler. Denn hier wird ein faszinierendes Kapitel Universitäts- und Wissenschaftsgeschichte aufgeschlagen. Private und politische Intrigen, philosophische Schulkämpfe, Berufungsdebatten, wie sie aus Akten- und Archivmaterial unvergleichlich weniger lebendig hervorgehen, erscheinen ebenso thematisiert wie wissenschaftliche Fragen. Denn eine Stütze der Freundschaft war das große Interesse, welches die beiden dem Fach des anderen entgegenbrachten - Vorbedingung für ein erfolgreiches Streben nach Interdisziplinarität.

THE BRITISH SOCIETY FOR THE HISTORY OF SCIENCE

Membership of the Society, which normally includes a subscription to *The British Journal for the History of Science*, is open to all persons approved by the Council of the Society and elected at an ordinary meeting. The annual subscription for the membership year 1995 is £22.00 (\$45.00) or £11.00 (\$25.00) for associate membership, which includes students at centres of higher education. There is an Introductory Offer for ordinary members who pay £17.00 (\$35.00) for the first year. Applications for membership should be made on a form which is available from the Society's Executive Secretary at the address below. Other sterling rates may apply to overseas members.

Meetings: The Society mounts an ambitious programme of meetings. The pattern is flexible, but includes a three-day summer meeting, usually held at a different British University or Polytechnic each year. About four other meetings, lasting for between one and three days, are held during the year, sometimes devoted to a clearly defined theme or an important anniversary, and often arranged in conjunction with other scholarly societies.

The British Journal for the History of Science is the official organ of the Society. All correspondence on the contents of the *Journal* should be addressed to the Editor, Dr Janet Browne, The Wellcome Institute for the History of Medicine, 183 Euston Road, London, NW1 2BE, England. Books for review should be sent to the Reviews Editor, Dr John Henry, Science Studies Unit, University of Edinburgh, 21 Buccleuch Place, Edinburgh EH8 9LN.

Advertising: Contact the Journals Advertising Manager, Cambridge University Press, The Edinburgh Building, Shaftesbury Road, Cambridge CB2 2RU.

Other publications: BSHS Monograph Series is designed to allow the publication of monographic studies in the history of science quickly and cheaply. All correspondence on the subject of monographs, and any new suggestions for titles, should be sent to the Series Editor, Dr P. Weindling, Wellcome Unit for the History of Medicine, 45-47 Banbury Road, Oxford OX2 6PE, England. Monographs are available from the Society's Executive Secretary. New titles are as follows:

4. *The Royal Society and Its Fellows 1660-1700: The Morphology of an Early Scientific Institution.* By Michael Hunter. Second edition 1994. £10.00/\$19.00 (£8.00/\$15.00 to members).
5. *Francis Bacon's Natural Philosophy: A New Source. A Transcription of Manuscript Hardwick 72A with Translation and Commentary.* By Graham Rees, assisted by Christopher Upton. 1984. £7.90/\$17.00 (£5.60/\$12.00 to members).
6. *Archives of the British Chemical Industry, 1750-1914: A Handlist.* By Peter J. T. Morris and Colin A. Russell. Contributing editor John Graham Smith. 1988. £14.50/\$31.00 (£9.00/\$19.00 to members).
7. *Index to the Scientific Correspondence of John William Dawson.* By Susan Sheets-Pyenson. 1992. £20.00/\$44.00 (£12.00/\$26.00 to members).
8. *Science and Nature: Essays in the History of the Environmental Sciences.* Ed. by Michael Shortland. 1993. £10.00/\$19.00 (£8.00/\$15.00 to members).
9. *In the Shadow of Lavoisier: The 'Annals de Chimie' and the Establishment of a New Science.* By Maurice Crosland. 1994. £9.00/\$17.00 (£7.50/\$13.00 to members).
10. *E. Ray Lankester and the Making of Modern British Biology.* By Joe Lester and Peter Bowler. 1995. £9.00/\$17.00 (£7.50/\$13.00 to members).

Each year, the Society publishes a *List of Theses in History of Science* in British universities. This is available free to members, and at £3.00 (\$6.00) to non-members on request to the Executive Secretary. Standing orders are accepted from members or non-members who wish to receive the list regularly.

The Society's *Newsletter*, an informal publication edited by Dr Frank A. J. L. James, RICHST, The Royal Institution, 21 Albemarle Street, London W1X 4BS, appears in January, May and September each year. It is free to members, £6.00 (\$12.00) for institutions and non-members. The Society's Education Section also has a regular *Newsletter, Education Forum*, edited by Dr Isobel Falconer, Lumbo Farmhouse, St Andrews, Fife KY16 8NS.

Administrative business of the Society is handled by The Executive Secretary, Wing-Commander G. Bennett, 31 High Street, Stanford in the Vale, Faringdon, Oxfordshire SN7 8LH. The Society is registered in England as a Limited Company (No. 562208) and is a Registered Charity (No. 258854).

Copying: This journal is registered with the Copyright Clearance Center, 222 Rosewood Drive, Danvers, MA 01923. Organizations in the USA who are also registered with the CCC may therefore copy material (beyond the limits permitted by sections 107 and 108 of US copyright law) subject to payment to CCC of the per-copy fee of \$5.00. This consent does not extend to multiple copying for promotional or commercial purposes. Code 0007-0874/95 \$5.00+.00.

ISI Tear Sheet Service, 3501 Market Street, Philadelphia, Pennsylvania 19104, USA, is authorized to supply single copies of separate articles for private use only.

Organizations authorized by the Copyright Licensing Agency may also copy material subject to the usual conditions.

For all other use, permission should be sought from Cambridge or the American branch of Cambridge University Press.

Back volumes are obtainable as follows: Volumes 1-23: Wing-Commander G. Bennett, 31 High Street, Stanford in the Vale, Faringdon, Oxon SN7 8LH. For volume 24 onwards, apply to Cambridge University Press.
