

# THE APOCALYPSE TO-DAY

*Sermons on Revelation*

by **THOMAS F. TORRANCE**

To many Christians—and one suspects to not a few ministers!—the Book of Revelation is virtually a closed book. The reason is not far to seek. The average layman is undoubtedly both mystified and a trifle repelled by the incomprehensible imagery of the Book, while the minister is perhaps intimidated by the prospect of a venture upon so enigmatic a theme.

Professor Torrance in this remarkable series of sermons not only opens up a much neglected book, but succeeds in giving it a startlingly contemporaneous significance; the cobwebs of prejudice are blown away and the ancient pages speak to the here and now with the surprising freshness of discovery.

This is expository preaching at its best; at once faithful to Holy Scripture and at the same time relevant for our day and generation.
