

PREHOSPITAL and DISASTER MEDICINE

The Official Journal of
The World Association for Disaster and Emergency Medicine (WADEM)
and the
Nordic Society of Disaster Medicine

Prehospital and Disaster Medicine is a peer-reviewed international medical journal devoted to the publication of Disaster and Humanitarian Medicine research and education. The principal mission of *Prehospital and Disaster Medicine* (PDM) is the distribution of information relevant to the practice of out-of-hospital and in-hospital emergency medical care, disaster medicine, and public health and safety. PDM provides an international forum for the reporting and discussion of scientific studies, both quantitative and qualitative, that have relevance to the above practices. Its major objectives are: (1) the improvement of the types and quality of the care delivered to patients with perceived medical emergencies and to victims of multicasualty accidents or disasters, including the public health and safety aspects of such events; and (2) the prevention and/or mitigation of the occurrence of such events and of the effects of these events upon the human population and environment.

Subscription rates [US\$]:	One Year (4 Issues)
Individual (non-WADEM member)	\$95*‡
Institutional	\$250*

*Outside the USA add \$6 [US] for international shipping charges

‡WADEM Affiliated Organization members receive 25% off individual subscription prices.

Affiliated Organizations include:

- Association de Medicine Liberaux Sapeur (AMELISAP)
- Japanese Medical Team for Disaster Relief
- Mediterranean Club for Burns and Fire Disasters
- Nordic Society for Disaster Medicine
- Pan American Society for Disaster and Emergency Medicine
- Save Accident Victims Association of Nigeria (SAVAN)
- Society of Emergency Medicine-Singapore
- Swedish Society of Disaster Medicine

The World Association for Disaster and Emergency Medicine (WADEM) shares the common goal of improving and standardizing the quality of prehospital and emergency care that is available to citizens of all nations. WADEM is dedicated to the ideals of Learning and Practice through a commitment to publishing the journal, Prehospital and Disaster Medicine. WADEM also recognizes the organizations that have shown commitment and dedication in the fields of public education, continuing medical education, scientific research, and analyses of medical field practices.

Special Offer to Medical Libraries

Now is the Time to Get a Complete Set of
Prehospital and Disaster Medicine.

We have a limited supply of back issues of *Prehospital and Disaster Medicine* in storage and recognize that this stash does no one much good. Therefore, we are offering you a nearly complete set of Journals for the cost of shipping the set to you. We will do this if you agree to subscribe to PDM for a minimum period of three years at the price of \$120/year (plus shipping: institutional rate). (Reminder that the Institutional rates increase on January 1, 2003 to [US] \$250.) Sets will be distributed on a first come, first serve basis. If you are interested, please indicate by sending us an e-mail containing your address and billing information, and we will send your intuition all of the issues we have left in stock. Thus you help us and we help you.

Thank you in advance for your interest.

Bringing Simulation to Life

SimMan®

There is a growing awareness that health care is behind other high risk operations in its attention to ensuring basic safety and that there is a need to grasp the scale of the problem ^(1,2).

Use of patient simulation is considered an important part of the solution as many scenarios can be presented including uncommon but critical situations where a rapid response is needed. Errors can be allowed to occur and reach their conclusion without any risk to a patient. Team member interactions and leadership can also be explored and developed.

Two manikin-based simulators from Laerdal, SimMan® and AirMan®, represent a new generation of affordable and portable solutions to meet these needs.
