

The Cierva Memorial Prize Essay Competition—1957

IN commemoration of the work of SENOR JUAN DE LA CIERVA in the early pioneering of rotary wing flight the Helicopter Association of Great Britain offers annually a prize for an original essay of a technical nature on any subject connected with that field of aeronautics

THE COMPETITION IS OPEN TO ENTRANTS OF ANY AGE OR NATIONALITY and is not restricted to members of the Association (Council Members of the Association are, however, debarred from entry)

A PRIZE OF £50

will be awarded to the competitor submitting the best paper on any subject connected with rotating wing aircraft Papers of a purely historical or journalistic content will not be eligible, but the subject may be construed to include studies in any related field such as operation, administration, navigation, maintenance, economics and safety, as well as the fields of aeronautical science and engineering design and manufacture

Closing Date 31ST DECEMBER, 1957

For Rules and Entry Form, please apply to

Airborne for over an hour and flown through every type of manoeuvre of which helicopters are capable and at speeds over 120 knots—the prototype for the Westland Wessex has made a completely successful first flight

The Napier Gazelle free-turbine engine, airborne for the first time functioned smoothly and contributed a noticeable reduction in helicopter noise levels

The Wessex, built to lift 2½ tons and designed primarily for anti-submarine operations, is on order for the Royal Navy. It is the first free turbine helicopter in the world
