

## CORRIGENDUM

### Effects of hydroxytyrosol-enriched sunflower oil consumption on CVD risk factors – CORRIGENDUM

Miguel Vázquez-Velasco, Ligia Esperanza Díaz, Rocío Lucas, Sonia Gómez-Martínez, Sara Bastida, Ascensión Marcos and Francisco J. Sánchez-Muniz

doi:10.1017/S0007114510005015, Published by Cambridge University Press, 8 December 2010.

The authors regret to announce that incorrect amounts were given for hydroxytyrosol in their article<sup>(1)</sup>. In the fourth line of the abstract and the third line of the Subjects and Methods section, the correct amounts should read: (800–1275 µg/d of hydroxytyrosol).

Also, the units given for vitamin A in the article are wrong, and should read µg/d.
