

JOURNAL of the AUSTRALIAN MATHEMATICAL SOCIETY

Series A — Pure Mathematics and Statistics
Volume 49 Part 2
OCTOBER 1990

E. R. LAMKEN and S. A. VANSTONE	<i>Balanced tournament designs with almost orthogonal resolutions</i>	175
HANS HEINRICH BRUNGS and GÜNTER TÖRNER	<i>Maximal immediate extensions are not necessarily maximally complete</i>	196
DIETER HELD and JÖRG HRABĚ DE ANGELIS	<i>A character-theory-free characterization of the Mathieu group M_{12}</i>	212
SERGIO SALBANY and SALVADOR ROMAGUERA	<i>On countably compact quasi-pseudometrizable spaces</i>	231
JOACHIM PENSE	<i>Allgemeines über äussere Fittingpaare</i>	241
RICHARD BOULDIN	<i>Operator approximations with stable eigenvalues</i>	250
ARNOLD KNOPFMACHER and JOHN KNOPFMACHER	<i>Normality of some p-adic product expansions</i>	258
G. MYERSON and A. D. POLLINGTON	<i>Notes on uniform distribution modulo one</i>	264
GARY BIRKENMEIER and HENRY HEATHERLY	<i>Left self distributive near-rings</i>	273
R. VÝBORNÝ	<i>The Hadamard three-circles theorems for nonlinear equations</i>	297
PATRICK N. DOWLING	<i>Riesz sets and the Radon-Nikodym property</i>	303
S. D. COHEN	<i>The factorable core of polynomials over finite fields</i>	309
LUCIANA NANIA	<i>On some reverse integral inequalities</i>	319
MILAN HLADNIK	<i>Spectrality of elementary operators</i>	327

Set by the American Mathematical Society

Printed by Cushing-Malloy, Inc., Ann Arbor, Michigan, U.S.A.

The Journal of the Australian Mathematical Society began publication in 1959, and from 1975 has appeared in two series, Series A (Pure Mathematics and Statistics) and Series B (Applied Mathematics). Information about Series B may be found on the inside back cover.

Series A, Pure Mathematics and Statistics

Submission of research papers in pure mathematics and mathematical statistics is invited. Authors intending to submit papers for publication should prepare the typescript following the instructions below, and should send two complete copies to the Editor, or to an appropriate Associate Editor (see back cover of this issue).

Two volumes of three parts each are planned for 1990. These are Volume 48 and Volume 49. The annual subscription price to non-members is A\$192.00 (US\$150.00) for 1990.

PREPARATION OF TYPESCRIPTS

1. The author should keep a complete copy of the submitted article; the Society will not accept responsibility for any loss.

2. Each typescript should include (i) an abstract of not more than 150 words, preferably containing no formulae, and certainly containing no complicated formulae and no references, (ii) a 1980 Mathematics subject classification (Amer. Math. Soc.) (1985 Revision), (iii) if the title is long, a shortened form of it, no more than forty characters in length, including spaces.

3. The article should be typed or photocopied on high quality A4 or quarto bond paper, on one side only, with at least double spacing, and with a generous margin (at least 3 cm) all around.

4. The conventions of *A manual for authors of mathematical papers* published by the American Mathematical Society should be observed. Two alternative styles for references and quotations are described below. Authors are requested to use one and only one style consistently throughout their typescript.

STYLE 1. A typical reference in the list of references would be

T. M. Cherry (1965), "Infinite linear systems with homogeneous kernel of degree -1 ", *J. Austral. Math. Soc.* **5**, 129–168.

A corresponding reference in the text would be: Cherry (1965), p. 155.

STYLE 2. A typical reference in the list of references would be

[3] L. Gröschen, "Pseudo-quasi-ergodic theorems", *J. Austral. Math. Soc.* **4** (1960), 2–3.

A corresponding reference in the text would be: Gröschen [3]; or ([3], [4], [9]); or Gröschen [2, 3]; or Gröschen [3, Theorem 1].

In either style, the list of references should be in alphabetical order of surnames of first authors.

5. Explain clearly what symbols are to be set in special typefaces (such as cursive, fraktur, script, bold) and what is required with any unusual symbols (which should wherever possible be chosen from symbols available to the printer).

6. Avoid abbreviations, such as Thm., Prop., Ex., iff, i.e., e.g., \forall , \exists , \Rightarrow , and \Leftrightarrow .

7. Authors should provide diagrams (except for category theory type diagrams), drawn to professional standards.

8. Authors are encouraged to submit their papers in $\mathcal{A}\mathcal{M}\mathcal{S}$ - $\mathcal{T}\mathcal{E}\mathcal{X}$.

Journal of the Australian Mathematical Society, Series A — Pure Mathematics and Statistics, is published bimonthly by the Australian Mathematical Society, c/-Department of Mathematics, University of Queensland, Qld. 4072, Australia. Second class postage is paid at Ann Arbor, Michigan 48106. Postmaster: Send address change notices to Dr B. D. Jones, Australian Mathematical Society, c/-Department of Mathematics, University of Queensland, Qld. 4072, Australia.
