*Psychological Medicine* publishes original research in clinical psychiatry and the basic sciences related to it. These comprise not only the several fields of biological inquiry traditionally associated with medicine, but also the various psychological and social sciences whose relevance to medicine has become increasingly apparent. Editorials and commissioned review articles are published regularly. The journal also carries an extensive book review section. Periodic supplements to the journal will be published and sent free to subscribers. They may also be purchased separately. The current titles are:

1. Sex differences in psychological well-being by **Monica Briscoe** (1982)
2. Long-term community care: experience in a London borough edited by **J. K. Wing** (1982)
3. The alcoholic brain: CT scan and psychological findings by **Maria A. Ron** (1983)
4. Psychiatric and social aspects of premenstrual complaint by **Anthony W. Clare** (1983)
