
BEHAVIORAL and BRAIN SCIENCES

Cambridge
Journals

*An International Journal of Current Research
and Theory with Open Peer Commentary*

EDITOR:

Stevan Harnad, *Princeton, NJ*

Behavioral and Brain Sciences publishes particularly significant and controversial pieces which have been successful in drawing out leading investigators in a wide range of fields who discuss, debate and critically analyze topics of current interest to the entire biobehavioral science community. Fascinating and often surprising results come from the 20–30 open peer commentaries on each article from psychologists, linguists, philosophers, neuroscientists, anthropologists, developmentalists and other specialists within and across these disciplines.

**Behavioral and
Brain
Sciences**

Selected papers

Evolving concepts of sleep cycle generation: From brain centers to neuronal populations, *J.A. Hobson, R. Lydic, H.A. Baghdoyan*

Hypnotic behavior: A social-psychological interpretation of amnesia, analgesia, and “trance logic,” *N.P. Spanos*

Adaptability of innate motor patterns and motor control mechanisms, *M.B. Berkinblit, A.G. Feldman, O.I. Fukson*

Transcending inductive category formation in learning, *R.C. Schank, G.C. Collins, L.E. Hunter*

Why are children in the same family so different from one another? *R. Plomin, D. Daniels*

Behavioral and Brain Sciences (ISSN 0140–525X) is published quarterly. Subscription to Vol. 11, 1988 (US and Canada only): \$147.00 for institutions; \$63.00 for individuals; single parts \$41.00.

Back Volumes: 1–10 (1978–1987) \$150.00 each.

BIOESSAYS

Published for the ICSU Press by Cambridge University Press

Cambridge
Journals

EDITOR:

W.J. Whelan, *University of Miami*

STAFF EDITOR:

Adam Wilkins, *Cambridge University Press*

BioEssays is the international current awareness monthly in contemporary biology. Each issue consists of a set of review articles and discussion pieces on the latest advances in cellular, developmental and molecular biology, and their implications. The coverage ranges from viruses and the simplest cells to aspects of human biology, with primary emphasis on findings from basic research. Reports on actual or potential applications in medicine, industry and agriculture are given significant attention. *BioEssays* answers the need for a publication devoted to reviews, comment, and the rapid interchange of biological ideas.

Recent articles have included:

Bone Development and Repair, *A.I. Caplan*

Structure and Function of Chimaeric Antibodies,
N. Ahmed

Processing and Termination of RNA Polymerase I
Transcripts, *R.H. Reeder, P. Labhart, and B. McStay*

Immune Recognition of Proteins: Conclusions,
Dilemmas and Enigmas, *J.A. Smith and G.D. Rose*

Nonneural Microtubule Proteins: Structure and
Function, *T.H. MacRae*

BioEssays (ISSN 0265-9247) is published monthly. Subscription to Volumes 8 and 9, 1988 (US and Canada only): \$175.00 for institutions; \$60.00 for individuals; single volumes \$87.50; single parts \$13.00.

Back Volumes: 1-7 (1984-1987) \$90.00 each.

THE JOURNAL OF PHYSIOLOGY

Published for the Physiological Society

Chairman of the Editorial Board:

A. V. Edwards, University of Cambridge

This internationally respected journal publishes high quality papers representing original experimental work in three areas: general physiology, mammalian physiology, and human physiology. Each hardbound monthly volume of *The Journal of Physiology* is concerned with respiration, circulation, excretion, reproduction, digestion, homeostasis, and particularly neurophysiology and muscular contraction. Abstracts of scientific meetings of the Physiological Society, which are accepted by the members present at those meetings, are also published. A Cumulative Subject and Author Index is produced triennially and an Annual Index is produced in the intervening years.

**Cambridge
Journals**

Selected papers:

Inhibitory interactions in the human vision system revealed in pattern-evoked potentials, *David C. Burr & M. Concetta Morrone*

Maturation of the respiratory response to acute hypoxia in the newborn rat, *G. J. Eden & M. A. Hanson*

Effects of cell volume changes on membrane ionic permeabilities and sodium transport in frog skin, *P. M. F. Costa, P. L. Fernandes, H. G. Ferreira, Karin T. G. Ferreira & F. Giraldez*

The nutritional regulation of plasma prostaglandin E concentrations in the fetus and pregnant ewe during late gestation, *A. L. Fowden, R. Harding, M. M. Ralph & G. D. Thorburn*

The Journal of Physiology (ISSN 0022-3751) is published 13 times in 1988. Subscription (US and Canada only) to Volumes 395-407: \$1200.00 per year; \$106.00 per volume.

Back Volumes: 254-394 (1976-1987) \$115.00 each.
