ANNOUNCEMENT

The International Bioethics Institute
presents the
Third Annual Congress of Healthcare Ethics Committees

Beyond Autonomy: New International Perspectives for Bioethics

April 16–18, 1993
Sheraton Palace Hotel, San Francisco

Is there a logical move beyond an autonomy-based clinical ethics? The Congress will explore current critiques of autonomy-based ethics from an international perspective, notions of personhood from embryos to the demented elderly, the place of persons in the community of values, and how far the envelope of concern should be extended.

The keynote speaker will be Edmund D. Pellegrino, M.D., Director of The Georgetown Center for Advanced Study of Ethics, who will also receive the International Bioethics Institute's Annual Award for Distinction in Bioethics.

For further information contact William A. Atchley, M.D., International Bioethics Institute, 1721 Mar West, Tiburon, CA 94920. Phone: (415) 435-4900; FAX: (415) 435-2635.
