

BULLETIN

ISSN 0004-9727

of the

AUSTRALIAN MATHEMATICAL SOCIETY

Volume 27 Number 2

April 1983

A note on a theorem on a nonlinear complementarity problem by Sudarsan Nanda	161
Analytic contractive vector fields in Fréchet spaces by Duong Minh Duc	165
Generalized convexity in mathematical programming by B. Mond	185
A generalisation to several dimensions of the Neuberg-Pedoe inequality, with applications by Yang Lu and Zhang Jing-zhong	203
Complete hypersurface of non-positive Ricci curvature by Pui-Fai Leung	215
A commutativity theorem for semiprime rings by Hazar Abu-Khuzam	221
A generalisation of a recent characterisation of planar graphs by C. H. C. Little	225
A semigroup with an epimorphically embedded subband by Peter M. Higgins	231
Transformation groups of strong characteristic 0 by Saber Elaydi	243
The K-functional of certain pairs of rearrangement invariant spaces by Jonathan Arazy	249
Atomic measure spaces and essentially normal composition operators by R. K. Singh and T. Veluchamy	259
On a functional differential equation in locally convex spaces by Sadayuki Yamamuro	269
On linear operators on ordered Banach spaces by Sadayuki Yamamuro	285
Oscillation of second order linear ordinary differential equations in alternating coefficients by Ch. G. Philos.	307
ABSTRACTS OF AUSTRALASIAN PhD THESES	
Polynomial interpolation on universal algebras by Peter Alexander Grossman	315
Raikov systems and abstract harmonic analysis by Jane Marie Lake	319

The University of Queensland Press, St Lucia, Queensland, 4067, Australia

BULLETIN OF THE AUSTRALIAN MATHEMATICAL SOCIETY

Editor: Sidney A. Morris

Deputy Editor: K. R. Pearson
Honorary Editor: B. H. Neumann

Associate Editors

Robert S. Anderssen
Alan L. Andrew
B. D. Craven
Brian A. Davey
P. Donovan
J. A. Eccleston
B. J. Gardner
J. R. J. Groves

James M. Hill
D. A. Holton
D. C. Hunt
P. E. Kloeden
Rodney Nillsen
Sheila Oates-Williams
A. J. van der Poorten
J. H. Rubinstein

Leon Simon
Ross Street
G. Szekeres
D. G. Tacon
Colin J. Thompson
H. B. Thompson
Rudolf Vyborný

Assistant Editors

Robert S. Anderssen

M. S. Brooks

INFORMATION FOR AUTHORS

The BULLETIN of the Australian Mathematical Society aims at quick publication of original research in all branches of mathematics. Timely expository articles are also welcomed.

To ensure speedy publication, editorial decisions on acceptance or otherwise are taken quickly, normally within a month of receipt of the paper. Papers are accepted only after being evaluated by the Editor and an Associate Editor or another expert. Of course responsibility for the correctness of results published in the BULLETIN remains with the authors.

For a paper to be acceptable for publication, not only should it contain new and interesting results but also

- (i) the exposition should be clear and attractive, and
- (ii) the manuscript should be in publishable form, without revision.

Nevertheless some meritorious papers will have to be rejected because speed of publication involves space limitations.

Authors should submit THREE clean, high quality copies to
The Editor, Bulletin of the Australian Mathematical Society,
Department of Pure Mathematics, La Trobe University,
Bundoora, Victoria 3083, Australia

but should not send the original typescript of their papers, as material submitted to the BULLETIN will usually not be returned. Authors should note that each paper submitted must include an abstract and one or more classification numbers following the 1980 Mathematics Subject Classification.

As even minor revisions are generally not permitted, authors should read carefully all the details listed on the inside back cover.

Abstracts of PhD Theses

The BULLETIN endeavours to publish abstracts of all accepted Australasian PhD theses in mathematics. One restriction, however, is that the abstract must be received by the Editor within 3 months of the degree being approved.
