# The Journal of Laryngology and Otology

(Founded in 1887 by MORELL MACKENZIE and NORRIS WOLFENDEN)

EDITED BY

WALTER HOWARTH

ASSISTED BY

W. M. MOLLISON

1. Original Articles are accepted on the condition that they have not been published elsewhere.

2. Manuscripts should be typewritten, on one side only of the paper, and well spaced.

3. Galley proofs and engraver's proofs of illustrations are sent to the author. Corrections, which should be kept to a minimum, must be clearly marked and no additional matter added.

4. Orders for reprints should be sent when returning galley proofs, and for this purpose special forms are supplied, on which the price of the reprints is stated.

5. Authors of Original Communications on Oto-Laryngology in other Journals are invited to send a copy, or two reprints, to the *Journal of Laryngology*. If they are willing, at the same time, to submit their own abstract (in English, French, Italian, or German) it will be welcomed.

6. Editorial Communications may be addressed to THE EDITOR, *Journal of Laryngology*, c/o HEADLEY BROTHERS, 109 Kingsway, London, W.C.2.

7. The Annual Subscription commencing with the January issue is Two Pounds sterling, post free, and is payable in advance.

8. Single copies, both of the present and the previous series, are on sale at Four Shillings each.

9. All Subscriptions, advertising and business communications should be sent to the Publishers, HEADLEY BROTHERS, 109 Kingsway, London, W.C.2.

### *United States of America*

Orders for this Journal may be sent either through a local bookseller, or to Messrs. G. E. STECHERT & Co., 31-33 East 10th Street, New York, or may be sent direct to the Publishers, HEADLEY BROTHERS, 109 Kingsway, London, W.C.2, England.

**oneryl**  
 TRADE MARK  
**BUTOBARBITONE**

is firmly established as the most generally useful hypnotic. There are occasions when even butobarbitone proves to be inadequate and when recourse to a morphine preparation is deemed necessary but in the majority of cases this product can be fully relied upon as the treatment for those many types of insomnia encountered in general practice. It is because of its proved excellence that 'Soneryl' is frequently described as THE CLASSIC HYPNOTIC.

OUR MEDICAL INFORMATION DEPARTMENT  
 WILL BE GLAD TO SUPPLY YOU WITH  
 FURTHER DETAILS

'SONERYL' is available in —  
 Containers of  
 12 x gr. 1½ tablets ... 1s. 8d.

**PRESCRIBE THE EASY EFFECTIVE METHOD**

When spraying, the patient can hold his head in a natural position, yet the solution spreads throughout the nasal cavity, assuring thorough treatment. Effective dropper-application, on the other hand, requires a complicated posture technique which patients are apt to neglect in home treatment.

**DeVilbiss  
ATOMIZERS**

**DROPPER ?**

**ATOMIZER?**

These illustrations, which are based on X-ray research, clearly demonstrate the advantages of the atomizer as compared with the dropper

**A STABLE SOLUTION OF THESE THREE COMPONENTS HAS BEEN ACHIEVED IN ARGOTONE**

An effective treatment for  
**COLDS • ACUTE OR CHRONIC RHINITIS**  
**CATARRH • SINUSITIS • ASTHMA • HAY FEVER**

The therapeutic properties of Argyrol (Barnes) have been well known for the past twenty years. The combination **into a stable solution** of Argyrol and natural laevorotatory Ephedrine—a powerful and lasting congestion-relieving agent—in normal saline, gave Argotone immediate acceptance as the ideal treatment for nasal affections and their complications.

ARGOTONE, an ethical preparation **not advertised** to the Public, can be prescribed with every confidence. Immediate de-congestion and rapid disinfection are obtained without possibility of harm to the delicate mucous membranes.

*Free samples and literature available on request*
