ASIL STUDIES IN INTERNATIONAL LEGAL HISTORY

The purpose of the *ASIL Studies in International Legal Theory* is to clarify and improve the theoretical foundations of international law. Too often the progressive development and implementation of international law has foundered on confusion about first principles. This series raises the level of public and scholarly discussion about the structure and purposes of the world legal order and how best to achieve global justice through law. This series grows out of the International Legal Theory project of the American Society of International Law. The *ASIL Studies in International Legal Theory* deepen this conversation by publishing scholarly monographs and edited volumes of essays considering subjects in international legal theory.

Max Planck Encyclopedia of International Procedural Law

The home of international law in practice

Available as part of the *Max Planck Encyclopedias of International Law*

GENERAL EDITOR

Professor H el ene Ruiz Fabri, Director of the Max Planck Institute Luxembourg for International, European, and Regulatory Procedural Law

The *Max Planck Encyclopedia of International Procedural Law* maps and analyzes the systems and processes through which international law is made, interpreted, and adjudicated in practice. It takes a broad view of international procedure, examining it from three different angles: technical points of procedure within specific institutions or across similar organizations; comparative accounts of families of institutions within specific subject areas or with similar functions; and theoretical, interdisciplinary entries.
