The Best Antiseptic for both Internal and External Use.

LISTERINE.

**ANTISEPTIC, PROPHYLACTIC, DEODORANT,
NON-TOXIC, NON-IRRITANT, NON-ESCHAROTIC,
ABSOLUTELY SAFE, AGREEABLE, & CONVENIENT.**

FORMULA.—LISTERINE is the essential antiseptic constituent of Thyme, Eucalyptus, Baptisia, Gautheria, and Mentha Arvensis, in combination. Each Fluid Drachm also contains two grains of refined and purified Benzo-boracic Acid.

DOSE.—Internally: One Teaspoonful Three or more times a day (as indicated), either full strength or diluted, as necessary for varied conditions.

LISTERINE is a well-proven antiseptic agent—an anti-zymotic—especially adapted to internal use, and to make and maintain surgical cleanliness—asepsis—in the treatment of all the parts of the human body, whether by spray, irrigation, atomisation, or simple local application, and therefore characterised by its particular adaptability to the field of

PREVENTIVE MEDICINE—INDIVIDUAL PROPHYLAXIS.

We bring **Listerine** to the attention of the Physicians, Surgeons, and Dentists of Great Britain, not as a new and untried preparation, but as a definite and uniform pharmaceutical product, that has acquired an enviable reputation in the United States and Canada.

Medical Men interested in **Listerine** will please send their address to our Agents, and receive by return mail Specimen and a Pamphlet of 36 quarto pages, embodying:—

A Tabulated Exhibit of the action of **Listerine** upon inert laboratory compounds.

Full and Exhaustive Reports and Clinical Observations from all sources, confirming the utility of **Listerine** as a general antiseptic for both internal and external use; and particularly—

Microscopic Observations, showing the comparative value and availability of various antiseptics in the treatment of diseases of the oral cavity, by W. D. MILLER, A.B., Ph.D., D.D.S., Professor of Operative and Clinical Dentistry, University of Berlin, from whose deductions **Listerine** appears to be the most acceptable prophylactic for the care and preservation of the Teeth.

Further information regarding the products of the LAMBERT PHARMACAL CO. may be had by application to the Company at St. Louis, U.S.; or to our.

Wholesale Agents for Great Britain:—

Hicks's New Patent "Duplex Instanter" Clinical Thermometer.

Designed for the Rapid Registration of Temperature.

SECTION.

This Thermometer has a double bulb, united in the centre by a piece of solid glass, which makes it fully six times stronger. It is *extremely sensitive*, taking the temperature considerably under one minute, and is easily cleaned and kept clean, as no dirt can pass between the bulbs. The section drawing A B represents the bulb of the Thermometer as it would appear if cut clean across the centre; the darker portions being mercury, and the lighter solid glass. *Accuracy guaranteed.*
The following Extract from a Letter written by the Superintendent of the KEW OBSERVATORY, Richmond, Surrey, on the "DUPLEX INSTANTER" CLINICAL THERMOMETER, will be read with interest:—

"I should think that their increased strength over the link bulbs will cause them to be widely purchased, although they take a few seconds over the half-minute.—(Signed) G. M. WHIPPLE, July 7th, 1890."

Price, with Magnifying Tube, 10s. 6d. each; with Non-magnifying Tube, 7s. 6d. each.
(Kew Observatory Certificate extra.)

To be obtained of all the leading Surgical Instrument Makers and Opticians.

Sole Patentee and Manufacturer—

J. J. HICKS, 8, 9, and 10, Hatton Garden, London, E.C.

BULLOCK'S

PASTILS OF COCAINE ($\frac{1}{15}$, $\frac{1}{10}$, $\frac{1}{8}$, $\frac{1}{4}$, and $\frac{1}{2}$ grain). Belladonna, Iodoform, Bismuth, Bismuth and Morphia, Codeine, Iodol, &c.
NASAL BOUGIES. Iodoform, Bismuth, Belladonna, Cocaine, Iodol, &c.
MEDICATED WOOLS, for Nasal Use. Iodoform (50%), Iodol Perchloride of Iron, Cubeb, Boric Acid, Opium, Rhatany, Eucalyptus, Menthol, &c.
LOZENGES, with Black Currant Basis. Rhatany, Kino, Benzoic Acid, Cubeb, Guaiacum, Chlorate of Potash, Eucalyptus, &c.

5 Reasons why to Advertise in these Columns!

The JOURNAL of LARYNGOLOGY & RHINOLOGY:

1. Is the only Periodical published in English whose pages are exclusively devoted to the Specialities of Throat and Nose.
2. Has an extensive Circulation in Europe, The United States of North America, and Canada.
3. Is read by all the leading Specialists in Laryngology and Rhinology.
4. Reaches all the Hospitals where Diseases of the Throat and Nose are specially treated.
5. Offers, therefore, peculiar advantages for advertising Drugs, Instruments, Appliances, Apparatus of all kinds made with a special view for treatment of Throat and Nose Troubles.

ADVERTISING DEPARTMENT:

F. A. DAVIS, 40, Berners Street, London, W.

MB!

In the Recent epidemic of "INFLUENZA" in France, the Medical Profession there recognised "VIN MARIANI" as being the best Tonic and Restorative, and one which could be absolutely relied upon to hasten convalescence. When prescribing the Medical Profession are strongly advised to specify "VIN MARIANI," in order to avoid the substitution of imitations, often worthless, and consequently disappointing in effect.

VIN MARIANI

From the "LANCET," October 4th, 1890.

"'VIN MARIANI' is in all respects an excellent product. Its composition and character may be fairly judged from its taste. It is that of a generous Burgundy combined with the peculiar flavour characteristic of the leaf of erythroxyton coca. Our analytical notes are as follows: Alcohol, 13·23 per cent. by weight, 16·33 by volume, equal to 28·62 per cent. proof spirit; extract dried at 100°C. 9·25 per cent.; mineral matter (containing phosphate), 0·52 per cent. Boiling for some time, with the addition of a little carbonate of soda, resulted in the production of a green sediment, probably the coca extractives. (One bottle contains the equivalent of two ounces of leaves.) At the same time a characteristic odour not unlike that of choice tea evinced itself. When the alkaline fluid was allowed to cool it was shaken up with ether, and after a time the ether decanted. On evaporation this yielded a residue, which imparted to the tongue a distinctly numbing sensation. Another portion of the residue with a little hydrochloric acid, gave the characteristic crystals of cocaine hydrochlorate. The virtues of erythroxyton coca are now generally recognised. M. Mariani gives an account of the plant in an illustrated pamphlet. Therein he states that 'VIN MARIANI' has never produced cocainism. This is an important point, and is probably one of those examples in which the alkaloid in its state of natural combination differs in some respects in its physiological action from the free alkaloid chemically prepared."

On application, we will post free of expense, to the Medical Profession, a complete *Essay and Treatise (Illustrated) on Erythroxyton Coca*, by ANGELO MARIANI.

Price 4s. per Bottle; or 45s. per Dozen. The Medical Profession, Clergymen, and Vocalists, either for their own use or for experimenting, can, upon enclosing their Card and P.O.O. to either of the London Wholesale Depôts, have **delivered them Free to Address**, any quantity at the Professional Price of 42s. per dozen.

“KEPLER SOLUTION.”

(1) In giving the “Kepler Solution,” Cod Liver Oil is taken on the same plan as butter—with another food. For who would prescribe butter by itself for invalids, and that an hour after meals?

(2) It is incalculably preferable to all emulsions, which are impracticable and unscientific, disregarding as they do every principle of dietetics; no one ventures to prescribe butter for patients with alkalies, gums, essential oils, and the like, in preference to giving it with food.

(3) Though Cod Liver Oil is the most digestible of all oils, experiments are said to have proved that in nine cases out of ten Cod Liver Oil is *not* fully assimilated, and is frequently voided unchanged. It is needless to add that under such circumstances the digestive apparatus is unduly tried. All this misfortune is impossible with the “Kepler Solution,” in which the natural process of digestion is so closely imitated that the oil is readily taken up by the lacteals.

(4) The vehicle used in *the only solution of Cod Liver Oil made* is the Kepler Extract, which should not be confounded with a peculiar product of fancy name.

To compare a black preparation of jumbled malts with Kepler Extract, made from unadulterated barley, is like comparing a bread made from all manner of flours with that made from one. The Kepler Extract of Malt is not black, contains no glucose, and does not have a mawkish taste. It is as delicious as cream. The following verdict on the vehicle of the Kepler Solution tells whether or not it is the best malt preparation there is:—

The Lancet—“It is the best known and most largely used.”

The Medical Press and Circular—“The most palatable and easily digested.”

(5) As the Kepler Malt Extract is rich in diastase, and therefore a promoter of digestion, and is most abundant in carbo-hydrates and proteids, and as nutritious as cream, its nutritive value is unexcelled. It is—

(a) A most powerful, fattening, and strengthening agent.

(b) The best roborant in bronchial troubles, phthisis, &c.

(c) The choicest form of oil for children with anæmia, scrofula, rickets, &c.

(d) A most natural and effective agent for overcoming infantile constipation.

(e) The purest and best of all forms of Cod Liver Oil to prescribe for dyspeptic and fastidious patients.

“SUMMING UP.”

The **BRITISH MEDICAL JOURNAL** reports:—“The Kepler Solution is an ideal form for the administration of fat.”

PLEASE NOTE THE REDUCED PRICES.

The “KEPLER SOLUTION” and KEPLER EXTRACT OF MALT supplied to the Medical Profession in $\frac{3}{4}$ lb. and $1\frac{1}{2}$ lb. Bottles, at 1s. 8d. and 3s. each. Retail Prices, 2s. 6d. and 4s. each. Special terms to Hospitals. Supplied by all Chemists throughout the World.
