

Behavioral and Brain Sciences

Editors

Barbara L. Finlay, *Cornell University, USA*

Paul Bloom, *Yale University, USA*

Behavioral and Brain Sciences, with its imposing ISI Impact Factor of 12.818, is an internationally renowned journal with an innovative format. Significant and controversial pieces of work are published from researchers in psychology, neuroscience, behavioral biology or cognitive science, together with 20–30 commentaries on each article from specialists in these disciplines, plus the author's response to them. The result is a unique forum for communication, criticism, stimulation, and unification of research in behavioral and brain sciences – from molecular neurobiology to artificial intelligence and the philosophy of the mind.
