Another approach to extensions of continuous mappings Shu-Hao Sun	1
Rings whose additive endomorphisms are n-multiplicative Shalom Feigelstock	11
Minimising quadratic functionals over closed convex cones M. Seetharama Gowda	15
Hypertypes of torsion-free abelian groups of finite rank H.P. Goeters, C. Vinsonhaler and W. Wickless	21
James quasi reflexive space has the fixed point property M.A. Khamsi	25
Neighbourhood lattices – a poset approach to topological spaces Francis P. Prokop	31
A-bilinear forms and generalised A-quadratic forms on unitary left A-modules C.-S. Lin	49
A distance function property implying differentiability J.R. Giles	59
Oscillation of second order neutral differential equations L.H. Erbe and B.G. Zhang	71
Normalising elements and radicals, I E.A. Whelan	81
The invariants of projective linear group actions Huah Chu, Ming-Chang Kang and Eng-Tjioe Tan	107
On the twistor space of the six-sphere Emilio Musso	119
Higher order schemes and Richardson extrapolation for singular perturbation problems Dragoslav Herceg, Relja Vulanović and Nenad Petrović	129
The endomorphism ring of a finite-length module Rainer Schulz	141
Starlike functions with a fixed coefficient V.V. Anh	145

Information for Authors.

The *Bulletin* of the Australian Mathematical Society aims at quick publication of original research in all branches of mathematics. Timely expository articles are also welcomed.

To ensure speedy publication, editorial decisions on acceptance or otherwise are taken quickly, normally within a month of receipt of the paper. Papers are accepted only after a careful evaluation by the Editor and an Associate Editor or other expert in the field. As even minor revisions are generally not permitted, authors should read carefully all the details listed below and on the inside back cover. For a paper to be acceptable for publication, not only should it contain new and interesting results but also

- (i) the exposition should be clear and attractive, and
- (ii) the manuscript should be in publishable form, without revision.

Authors should submit *three* clean, high quality copies to

The Editor, Bulletin of the Australian Mathematical Society,
Department of Mathematics, University of Queensland,
St. Lucia, Queensland, 4067, Australia.

Unless requested at the time, material submitted to the *Bulletin* will usually not be returned. *Note that each paper submitted must include an abstract and one or more classification numbers following the 1980 Mathematics Subject Classification.* (1985 Revision)

Abstracts of Ph.D. Theses.

The *Bulletin* endeavours to publish abstracts of all accepted Australasian Ph.D. theses in mathematics. One restriction, however, is that the abstract must be received by the Editor within 6 months of the degree being approved.
