## CONTENTS

## Original Articles

- 829** The impact of patient-reported penicillin or cephalosporin allergy on surgical site infections  
*Jessica L. Seidelman, Rebekah W. Moehring, David J. Weber, Deverick J. Anderson and Sarah S. Lewis*
- 834** Validation and implementation of group electronic hand hygiene monitoring across twenty-four critical care units  
*Jerome A. Leis, Maryam Obaidallah, Victoria Williams, Matthew P Muller, Jeff E. Powis, Jennie Johnstone, Susy Hota, Kevin Katz, Michael Payne, Lucas Castellani, Mark Downing, Dominik Mertz, Daniel R. Ricciuto, Alex Kiss and Brian H. Cuthbertson*
- 840** In pursuit of the holy grail: Improving *C. difficile* testing appropriateness with iterative electronic health record clinical decision support and targeted test restriction  
*Norah S. Karlovich, Suchita Shah Sata, Brian Griffith, Ashley Coop, Ibukunoluwa C. Kalu, John J. Engemann, Jessica Seidelman, Nicholas A. Turner, Christopher R. Polage, Becky A. Smith and Sarah S. Lewis*
- 848** How fluoroquinolone preauthorization affects third- and fourth-generation cephalosporin use and resistance in a large academic hospital  
*Adeniyi J. Idigo, Matthew L. Brown, Howard W. Wiener, Russell L. Griffin, Yuanfan Ye, Amrita Mukherjee, Allen W. Bryan Jr, Rachael A. Lee and Sadeep Shrestha*
- 860** Comparison of criteria for determining appropriateness of antibiotic prescribing in nursing homes  
*Daniela Uribe-Cano, Mozhddeh Bahranian, Sally A. Jolles, Lindsay N. Taylor, Jill J. Miller, Sowmya N. Adibhatla and Christopher J. Crnich*
- 864** Rates of nosocomial infection associated with interhospital transfer of patients receiving extracorporeal membrane oxygenation  
*Joseph E. Marcus, Valerie G. Sams, James K. Aden, Andriy Batchinsky, Michal J. Sobieszczyk, Jason F. Okulicz and Alice E. Barsoumian*
- 870** Population-based surveillance of medical tourism among US residents from 11 states and territories: Findings from the Behavioral Risk Factor Surveillance System  
*Rhett J. Stoney, Phyllis E. Kozarsky, Allison T. Walker and Joanna L. Gaines*
- 876** Addressing personal protective equipment (PPE) decontamination: Methylene blue and light inactivates severe acute respiratory coronavirus virus 2 (SARS-CoV-2) on N95 respirators and medical masks with maintenance of integrity and fit  
*Thomas Sean Lendvay, James Chen, Brian H. Harcourt, Florine E. M. Scholte, Ying Ling Lin, F. Selcen Kilinc-Balci, Molly M. Lamb, Kamonthip Homdayjanakul, Yi Cui, Amy Price, Belinda Heyne, Jaya Sahni, Kareem B. Kabra, Yi-Chan Lin, David Evans, Christopher N. Mores, Ken Page, Larry F. Chu, Eric Haubruge, Etienne Thiry, Louisa F. Ludwig-Begall, Constance Wielick, Tanner Clark, Thor Wagner, Emily Timm, Thomas Gallagher, Peter Faris, Nicolas Macia, Cyrus J. Mackie, Sarah M. Simmons, Susan Reader, Rebecca Malott, Karen Hope, Jan M. Davies, Sarah R. Tritsch, Lorène Dams, Hans Nauwynck, Jean-Francois Willaert, Simon De Jaeger, Lei Liao, Mervin Zhao, Jan Laperre, Olivier Jolois, Sarah J. Smit, Alpa N. Patel, Mark Mayo, Rod Parker, Vanessa Molloy-Simard, Jean-Luc Lemyre, Steven Chu, John M. Conly and May C. Chu*

**886** Effectiveness of germicidal ultraviolet light to inactivate coronaviruses on personal protective equipment to reduce nosocomial transmission  
*Carolina Camargo, Andréanne Lupien, Fiona McIntosh, Dick Menzies, Marcel A. Behr and Selena M. Sagan*

**892** Evaluation of screening strategies for pulmonary tuberculosis among hospitalized patients in a low-burden setting: cost-effectiveness of GeneXpert MTB/RIF compared to smear microscopy  
*Andrew J. Hickey, Matthew J. Cummings, Zafar Zafari, Irene K. Louh, Jianhua Li and Max R. O'Donnell*

#### Review

**898** Evaluation of the costing methodology of published studies estimating costs of surgical site infections: A systematic review  
*Raghda Hassan Shaaban, Omaima Gaber Yassine, Ramez Naguib Bedwani and Ghada Ahmed Abu-Sheasha*

#### Commentary

**915** If you can't measure it, you can't improve it: Practical tools to assess ventilation and airflow patterns to reduce the risk for transmission of severe acute respiratory syndrome coronavirus 2 and other airborne pathogens  
*Jennifer L. Cadnum and Curtis J. Donskey*

**918** Finding the off-ramp: Rethinking severe acute respiratory coronavirus virus 2 (SARS-CoV-2) preoperative screening  
*Jessica A. Penney and Shira I. Doron*

#### Concise Communication

**920** Monkeypox transmission following exposure in healthcare facilities in nonendemic settings: Low risk but limited literature  
*Kimon C. Zachary and Erica S. Shenoy*

**925** Sustained reduction in catheter-associated urinary tract infections using multi-faceted strategies led by champions: A quality improvement initiative  
*Staci S. Reynolds, Chris D. Sova, Sarah S. Lewis, Becky A. Smith, Rebekah H. Wrenn, Nicholas A. Turner and Sonali D. Advani*

**930** Use of diagnostic and antimicrobial stewardship practices to improve *Clostridioides difficile* testing among SHEA Research Network hospitals  
*Kaede V. Sullivan, Jason C. Gallagher, Surbhi Leekha, Daniel J. Morgan, Kazumi Morita, Clare Rock and Kimberly C. Claeys*

**935** Reductions in positive *Clostridioides difficile* events reportable to National Healthcare Safety Network (NHSN) with adoption of reflex enzyme immunoassay (EIA) testing in 13 Atlanta hospitals  
*Dana Goodenough, Samantha Sefton, Elizabeth Overton, Elizabeth Smith, Colleen S. Kraft, Jay B. Varkey and Scott K. Fridkin*

**939** A survey of infection control strategies for carbapenem-resistant *Enterobacteriaceae* in Department of Veterans' Affairs facilities  
*Swetha Ramanathan, Katie J. Suda, Margaret A. Fitzpatrick, Marylou Guihan, Cassie Cunningham Goedken, Nasia Safdar, Martin Evans, Makoto Jones, Christopher D. Pfeiffer, Eli N. Perencevich, Michael Rubin, Charlesnika T. Evans and the QUERI CARRIAGE Program*

## Letters to the Editor

- 943** Analysis of hospital antimicrobial consumption to identify targets for antimicrobial stewardship  
*Dawood Yusef, Wail A. Hayajneh, Stuart E. Bond, Jade Lee-Milner, Sayer Al-Azzam, Ali Bani Issa, Sara K. Jaradat, Ian Gould, Barbara R. Conway, Syed Shahzad Hasan and Mamoon A. Aldeyab*
- 945** Infection prevention versus antimicrobial stewardship: Does nasal povidone-iodine interfere with methicillin-resistant *Staphylococcus aureus* (MRSA) screening?  
*Cecelia Harrison, Robie Zent, Elyse Schneck, Cynthia E. Flynn and Marci Drees*
- 947** Whole-genome sequence analyses by a new easy-to-use software solution support the suspicion of a neonatal ward outbreak of methicillin-resistant *Staphylococcus aureus* (MRSA) and transmission between hospitals  
*Marie Louise Slott Jensen, Ming Chen, Mette Detlefsen, Janne Kudsk Klitgaard, Thomas Emil Andersen and Michael Kemp*
- 949** *Neosartorya hiratsukae*: Environmental isolation from intensive care units in an Italian hospital  
*Anna Prigitano, Maria C. Esposto, Davide Carnevali, Emanuele Catena, Francesco Auxilia, Silvana Castaldi and Luisa Romanò*
- 950** Coronavirus disease 2019 (COVID-19) vaccination in healthcare workers: An early real-world experience  
*Andrew P. Jameson, Tara Sebastian and Liberty R. Jacques*
- 952** Coronavirus disease 2019 (COVID-19) treatment versus mycobacterial infections: Better safe than sorry?  
*Henry Marcel Zalona Fernandes, Gabriela Mastrobuono, Emilyn Costa Conceição, Rubens Clayton da Silva Dias, Daniela Sales Alviano and Rafael Silva Duarte*
- 953** Implications of social distancing in Brazil in the COVID-19 pandemic  
*Raquel Cristina Cavalcanti Dantas, Paola Amaral de Campos, Iara Rossi and Rosineide Marques Ribas*
- 954** Double masking: Does science coincide with common sense?  
*Jeffrey T. Mueller, Soroor Karimi, Karl A. Poterack, Maria Teresa A. Seville and Steven M. Tipton*
- 956** Prevalence of coronavirus disease 2019 (COVID-19) among healthcare professionals working in hospital emergencies during the first-wave peak in 2020 in Porto Alegre, Brazil  
*Ana Luisa F. Dubiela, Daiane F. Dalla Lana, Ana Paula K. Aerts, Cristiani G. de Marques, Renato Cassol, Micheline G. Dalarosa, Vanessa Schultz, Fabiano Ramos, Isabelli Guasso, Fabio F. Dantas Filho, Silvana T. Dal Ponte, João Carlos B. Santana, Michelle D. Santarem, Morgana P. de Camargo, Maria Luiza P. Machado, Teresa Cristina T. Sukiennik, Guilherme Watte, Antonio N. Kalil and Alessandro C. Pasqualotto*
- 957** Vaccines in the coronavirus disease 2019 (COVID-19) era: Game theory applications  
*Marios Papadakis and Nikolaos Spermovasilis*
- 958** Why comparing coronavirus disease 2019 (COVID-19) and seasonal influenza fatality rates is like comparing apples to pears  
*Marios Papadakis*
- 959** Uptake of treatment practice standards during a pandemic in an academic medical system  
*Maria Tate, Jeannie D. Chan, Christine Johnston, Shireesha Dhanireddy, Margaret L. Green and Rupali Jain*
- 961** The first use of face mask in the history of medicine  
*Ali Taghizadieh, Javad Ghazi-Sha'rbaf, Reza Mohammadinasab and Saeid Safiri*

*An Official Publication of the Society for Healthcare Epidemiology of America*

## Subscriptions

The individual subscription prices for 2022 are: Print & Online: \$305; Online Only: \$236. Individuals have the option to order directly from Cambridge University Press. Institutional print + electronic and e-only subscriptions are available from Cambridge University Press and include unlimited online access; rates are tiered according to an institution's type and research output and may be reviewed at the journal's homepage on Cambridge Core: [cambridge.org/ICHE](http://cambridge.org/ICHE).

Please direct subscription inquiries and requests for back issues to Customer Services at Cambridge University Press, e-mail: [subscriptions\\_newyork@cambridge.org](mailto:subscriptions_newyork@cambridge.org) (USA, Canada, and Mexico) or [journals@cambridge.org](mailto:journals@cambridge.org) (outside of USA, Canada, and Mexico).

**Postmaster:** Send address changes to *Infection Control & Hospital Epidemiology*, Cambridge University Press, One Liberty Plaza, New York, NY 10006 USA.

## About the cover:

**Title:** *Oversized, Overwhelming Impact of COVID-19, 2020*

Beginning with volume 43 (January 2022), the cover of *Infection Control & Hospital Epidemiology* (ICHE) will feature art inspired by or reflective of topics within the scope of the journal and their impact on patients, healthcare personnel and our society. These topics include healthcare-associated infections, antimicrobial resistance, and healthcare epidemiology. The intent is to feature original artwork that has been created by individuals who have a personal connection to one or more of these topics through their clinical work, research, or experience as a patient or an affected patient's family member, friend or advocate. The goal is to provide readers with a visual reminder of the human impact of the topics addressed in the journal and the importance of the work being done by those who read or contribute to ICHE and by all who are trying to make healthcare safer through the elimination of healthcare-associated infections.

For more information about the ICHE cover and how to submit artwork for consideration for a future cover, please visit the ICHE website: <https://www.cambridge.org/core/journals/infection-control-and-hospital-epidemiology>

**Artist:** Lona Mody, MD, MSc

**Medium:** Acrylic paints on canvas

### **Dr. Mody spoke to ICHE about her painting.**

**What was the inspiration for this artwork?** I am drawn towards color and paint art that conveys the happiness that is in my life. However, COVID changed everything. I had to create something that was wholly different to process this unprecedented historic event. Painting this particular piece was extremely cathartic. It allowed me to reflect on the loss experienced by many, its impact on my peers and come to terms with the fact that the worst was yet to come (I started this work in April of 2020 and completed it in May 2020).

This painting depicts an oversized and overwhelming impact of COVID-19 on our healthcare providers and on our healthcare eco-system in general. I was artistically inspired by the lifeless streets in big capital cities, empty tall haunted buildings and incredible havoc created by a virus that was often depicted paradoxically by vivid colors with precise structures and features. Missing in all these early images was the human factor. With this painting, I wanted to show the immediate and devastating consequences on people that work within healthcare and carry the burden of COVID-19. It is now displayed within our departmental offices as a reminder of our collective experiences.

**Why is this work appropriate for the cover of *Infection Control & Hospital Epidemiology*?** ICHE as a journal is about understanding, preventing and controlling infections. It is a journal that publishes high quality evidence written by experts who were overwhelmingly impacted and continue to be impacted by the COVID-19 pandemic. This painting also captures the frustration and sadness felt by many of us in this field.

**What is your personnel connection to the content of ICHE?** Epidemiology, patterns, association, causality always attracted me. Since my residency, I knew that I had to go beyond clinical medicine to understand these concepts. ICHE was the perfect journal that served as an outlet for my research pursuits. In fact, my first paper (borne out of my residency project) was published in ICHE. ICHE has been instrumental in my academic success. Its readership is a community I am most connected with.

*Dr. Mody is the Amanda Sanford Hickey Professor of Internal Medicine at the University of Michigan and VA Ann Arbor Healthcare System, Ann Arbor, MI, USA. She directs the Center for Research and Innovations in Special Populations (CRIISP) and is the Associate Division Chief of Geriatric & Palliative Care Medicine, Associate Director of Clinical and Translational Research (Geriatrics Center), and Co-Director of the Medical Arts Program. Her research investigates the clinical and molecular epidemiology of antimicrobial-resistant pathogens and develops novel interventions to prevent them. Dr. Mody is a member of SHEA and an ad hoc reviewer for and frequent contributor to ICHE. She has published 34 papers in ICHE.*
