INTRODUCING

The United Nations BLUE BOOKS SERIES

The United Nations and Cambodia 1991-1995

This essential reference work chronicles the central role played by the United Nations Transitional Authority in Cambodia (UNTAC) in supporting the peace process in Cambodia and organizing the landmark 1993 elections that led to the formation of a new, democratically elected Cambodian Government.

For the first time, the texts of more than 100 key United Nations documents relating to one of the largest and most complex peace-keeping operations have been gathered in a single volume. Complementing the documents, is an extensive introduction by UN Secretary-General Boutros Boutros-Ghali, which provides an overview of the Organization's contribution to the historic events in Cambodia.

The United Nations and Nuclear Non-Proliferation

The Nuclear Non-Proliferation Treaty represents the cornerstone of efforts by the international community to prevent the proliferation of nuclear weapons while ensuring that the benefits of nuclear technology are readily available for peaceful purposes. This publication details the Treaty and brings together, for the first time, key documents relating to the nuclear non-proliferation issue. Complementing the documents are a detailed chronology and an introduction by Secretary-General Boutros Boutros-Ghali, which provide an overview of the key role played by the Organization and its Member States in meeting the new and intrinsic challenges of the nuclear age.

MODERN JAPANESE DIARIES

THE JAPANESE AT HOME AND ABROAD
AS REVEALED THROUGH THEIR DIARIES

by Donald Keene,
Shincho Professor Emeritus, Columbia University
and author of *Dawn to the West: Fiction,*
Dawn to the West: Poetry, Drama and Criticism,
Travelers of a Hundred Ages, Seeds in the Heart
and *World Within Walls*

**“In these journal entries the distinctions between Japan and the West
become more vivid than in many formal accounts...”**

Using excerpts from the diaries of diplomats, artists, writers, women and students, Keene discusses Japanese history and culture through Japanese reactions to the West from the mid-19th century, when the country was first opened up to the outside world, to 1920. Each diarist’s account is accompanied by the author’s commentary as well as notes and bibliography that provide a context for the individual’s remarks.”—*Publishers Weekly**

**“These are the luminous details—not curiosities, thanks to Keene’s careful
analysis, but real finds—of which the best histories are made.”**

Principle, Praxis, and the Politics of
Educational Reform in Meiji Japan

Mark E. Lincicome

Scholars of modern Japan agree that education played a crucial role in the country's rapid modernization during the Meiji period (1868–1912). Lincicome shows that an attempt in 1872 by the newly established Ministry of Education to train a corps of professional teachers by using teaching methods and materials from the United States planted seeds of a broader reform that would later challenge the Ministry's authority over education. \$45.00, cloth

Sex, Culture, and Modernity in China

Medicine and science were introduced to Republican China after the fall of the imperial system, but their reception and adaptation were based on cultural reorientations that had taken place in the seventeenth and eighteenth centuries. The headline-making book: at last in bookstores!

“Deng’s daughter opens long-shut door.”

—front page, *New York Times*, Jan. 13, 1995

Deng Xiaoping, My Father is the first insider account of the enigmatic Chinese leader who reformed China’s economy and opened China to the West and the West to China. Written by his youngest daughter, who has been his personal assistant since 1989, the book tells the story of Deng Xiaoping’s rise to power and reveals an intimate side rarely glimpsed by outsiders.

Focusing on the first half of his remarkable sixty-year career, the book addresses important questions:

- What were Deng’s aims?
- What tactics did he use to achieve power?
- What were his early relationships with Mao Zedong, Chiang Kai-shek, and other important figures?
- How did his experiences shape his political style and the way he governed?

But the book is more than just a biography of Deng. This is a glimpse of the new China, a book that in the process of telling us about the Chinese also reveals what the Chinese think of us.

MEIJI REVISITED

The Sites of Victorian Japan

by Dallas Finn

"This careful study provides a wonderful visual inventory of the world that Western architects brought and Japanese architects transformed in the nineteenth century. For many Japanese, Western-style buildings constituted the first direct contact with the modern world—one that was Victorian in its tastes and trappings—and contributed a vigorous and exotic splendor to the Rising Sun of Imperial Japan."

Genealogy of the Way

The Construction and Uses
of the Confucian Tradition
in Late Imperial China

Thomas A. Wilson

Beginning in the late Southern Sung one sect of Confucianism gradually came to dominate literati culture and, by the Ming dynasty, was canonized as state orthodoxy.

This book is a historical and textual critique of the construction of an ideologically exclusionary conception of the Confucian tradition, and how claims to possession of the truth—the Tao—came to serve power.

Cultural Encounters on China's Ethnic Frontiers

Edited by Stevan Harrell

A succession of Chinese governments, as well as Western missionaries, have sought to define, objectify, and "civilize" ethnic minorities—to make them more like the civilizers. In this volume, ten scholars examine some of these attempts involving groups as culturally different and geographically distant as the Mongols in the North and the Yi in the Southwest.

Imperial Rulership and Cultural Change in Traditional China

Edited by Frederick P. Brandauer and Chün-chieh Huang

The essays presented here examine the relationship between emperors and culture in traditional China, and ask how effective emperors were in generating cultural change. Arranged chronologically by subject matter, the essays cover historical periods ranging from the third century B.C. to A.D. 1900, and reflect the disciplines of history, literature, religious studies, and philosophy.

Democracy and Authoritarianism in South Asia

A Comparative and Historical Perspective

Ayesha Jalal

Challenging the view that a shared colonial legacy led to contrasting patterns of political development in South Asia, this analysis argues that, despite differences in form, central political authority in each state has confronted similar threats from ethnic and regional movements.

HARVARD'S COUNCIL ON EAST ASIAN STUDIES

THE MEIJI UNIFICATION THROUGH THE LENS OF ISHIKAWA PREFECTURE

JAMES C. BAXTER

James C. Baxter challenges the notion that national leaders should be given full credit for the unification of Japan, arguing instead that the efforts of citizens were required to create a sense of national identity among local populations. Drawing on extensive archival resources, Baxter describes the transformation of the Tokugawa domain of Kaga into the Meiji prefecture of Ishikawa, creating a richly detailed study that helps explain how Japan achieved national unity without the bloody struggles that have often accompanied modernization and nation-building.

THE SECRET WINDOW Ideal Worlds in Tanizaki's Fiction

In this series of meditations on seven of the novels and novellas of Tanizaki Jun'ichirō, the renowned translator Anthony Chambers focuses on the thread of fantasy that Tanizaki weaves throughout his work. He examines the writer's subtle use of storytelling devices to evoke characters' alternate sense of reality and to encourage the reader's participation in their fantasies. Employing his intimate knowledge of Tanizaki's works, Chambers superbly evokes the beauty and truth Tanizaki's characters find in their ideal worlds.

THE MODERN EPIDEMIC: A HISTORY OF TUBERCULOSIS IN JAPAN

Through a historical and comparative analysis of modern Japan's epidemic of tuberculosis, William Johnston illuminates a major but relatively unexamined facet of Japanese social and cultural history. He utilizes a broad range of sources to reveal how this and similar epidemics have been the result of social changes that accompanied the process of modernization. Johnston also reexamines the concept of the epidemic itself, showing that epidemics must be thought of not only in medical and biological terms but in political, social and cultural terms as well.

ARCHITECTS OF AFFLUENCE

The Tsutsumi Family and the Seibu-Saison Enterprises in Twentieth-Century Japan

THOMAS R. H. HAVENS

The interrelated Seibu and Saison enterprise groups have shaped twentieth-century Japanese consumer culture. Beginning with the colorful founder, Yasujiro Tsutsumi, Thomas Havens traces the family's fortunes through the rise of its various companies, and examines their strategic thinking, management styles, and marketing techniques. Havens also demonstrates how the Seibu enterprises have influenced and exploited the shift in Japanese culture from a frugal, hardworking society to a New Breed that takes affluence for granted.

CHINA'S LOCAL COUNCILS IN THE AGE OF CONSTITUTIONAL REFORM, 1898-1911

ROGER R. THOMPSON

Planning to establish locally elected councils, Chinese officials collected data on self-government reforms from localities, then collated, summarized, and archived the data in Beijing. From this wealth of previously unexamined material, Roger R. Thompson draws a portrait-in-motion of the reforms, demonstrating the energy and significance of the late-Qing local-self-government movement, while making a compelling case that it was separate from the well-studied phenomenon of provincial assemblies and constitutionalism in general.

BREAKING BARRIERS Travel and the State in Early Modern Japan

Constantine Vaporis challenges the notion that an elaborate and restrictive system of travel regulations in Tokugawa Japan prevented widespread travel, maintaining instead that a "culture of movement" developed in that era. Vaporis examines the development of travel as recreation via pilgrimage and the institutionalization of alms-giving. He explores the reluctance of the bakufu to enforce its travel laws, and in doing so, beautifully evokes the character of the journey through Tokugawa Japan.

A Guide to °Ajā'ib al-Āthār fī 'l-Tarājim wa'l-Akhhbār

Edited by **Thomas Philipp** and **Guido Schwald**

1994. V, 390 pages. Bound DM 120,—. ISBN 3-515-06483-4

First English translation of the famous 4 vols. work by al-Jabartī, prepared with the help of a team of translators. The first two parts deal with the history of Egypt under the Ottomans, esp. during the 18th century. The third part is an eyewitness account of the French conquest of Egypt, 1798, and is worldwide the earliest comprehensive and reflected response by a non-European intellectual to the expansion of modern Europe into the world. The fourth part describes the profound changes taking place in Egypt during the early rule of Muhammad Ali, until 1821. Al-Jabartī's work is considered as outstanding in the rich literature of Muslim-Arab historiography. The accounts of intellectual life, economics, political events, etc., in addition to the 500 biographies of scholars, mamluks, etc. make it still the most important source for the study of Egypt during this period. This wealth of information is made accessible for the first time by the **Guide to al-Jabartī's History of Egypt**, containing comprehensive indices for over 5000 names, 500 biographies, *nisbas*, technical terms, concepts, etc.

The **Guide** is designed as a companion for the first English translation of **al-Jabartī's History of Egypt** as well as for the classical four parts Arabic edition from the Bulaq Press, 1879/80. In spite of the importance of the work as a source for Egyptian history of the late 18th and early 19th century no index existed until now. The main section of the **Guide** is the Index of Names, identifying over 5000 names of scholars, mamluks, historical figures, etc. and over 500 biographies authored by al-Jabartī. The Index of *nisbas* helps identifying people by place of origin, kin, mamluk household etc. The Index of Terms lists over 700 English, Arabic, and Turkish terms. For the latter two a glossary is provided. The Index of Works lists and identifies all literary and scholarly works al-Jabartī mentioned. An Index of Place Names, maps, and a bibliography conclude the **Guide**. With this guide the wealth of information in al-Jabartī's monumental work is made, for the first time, accessible to the systematic use by the scholar and provides guidance to the lay reader.

Many of ancient India's religious traditions are alive in modern India, and many of these religious traditions are in conflict with one another regarding the future of India. Even the so-called "secular state" is deeply pervaded by religious sentiments growing out of the Neo-Hindu nationalist movement of Gandhi and Nehru. A careful analysis of the current religious scene when placed in its proper long-term historical perspective raises interesting questions about the nature and future of religion not only in India but elsewhere as well.

*Indigenous
Peoples
of Asia*

Edited by R.H.Barnes,
Andrew Gray, and
Benedict Kingsbury

This long-awaited book includes an introduction and eighteen separate articles designed to promote a general understanding of the Asian indigenous peoples movement. The authors include sociologists, anthropologists, international legal scholars, and journalists, all addressing common themes.

"This book will constitute a major advance in our general understanding of the character of these Asian 'indigenous' movements and will be of value to scholars working in many cognate disciplines." Professor Peter Carey, Trinity College, Oxford University.

"This volume presents timely information on a pressing issue. . . . The bibliographies alone will be worth the book for many specialists and for students with a beginning interest in this very real human problem." Professor Robert McKinley, Anthropology Department, Michigan State University.

Tokyo

A Spatial Anthropology

JINNAI HIDENOBU

Translated by Kimiko Nishimura

Internationally known Japanese architectural historian Jinnai Hidenobu set out on foot to rediscover the city of Tokyo. He found that, despite an almost completely new cityscape, present-day inhabitants divide Tokyo's space in much the same way that their ancestors did 200 years before.

Discourses of the Vanishing

Modernity, Phantasm, Japan

Marilyn Ivy

Deep anxieties about the potential loss of national identity and continuity disturb many in Japan, despite widespread insistence that it has remained culturally intact. In this provocative conjoining of ethnography, history, and cultural criticism, Marilyn Ivy discloses these anxieties—and the attempts to contain them—as she tracks what she calls the vanishing: marginalized events, sites, and cultural practices suspended at moments of impending disappearance.

The History of Cartography, Volume 2, Book 2

Cartography in the Traditional East and Southeast Asian Societies

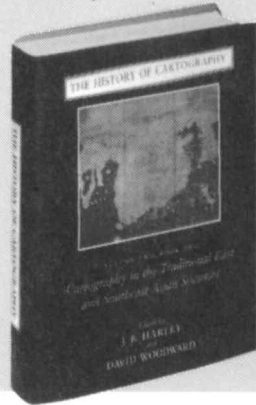

Edited by J. B. Harley and David Woodward

Volume 2, book 2, considers the cartographic traditions of China, Korea, Japan, Vietnam, Tibet, Burma, Thailand, Laos, Malaysia, Indonesia, Brunei, and the Philippines, presenting significant new research and interpretation of archaeological, literary, and graphic sources.

"The *History's* basic premise is that maps are different, as are cultures. Its purpose is to display the richness of artifacts, and it has done so magnificently and with exemplary thoroughness."
