

## GENERAL NOTES

ROYAL SOCIETY OF MEDICINE,

1 Wimpole Street, London, W.1.

*Section of Laryngology.* The next meeting of the Section will be held on Friday, February 5th, at 5 p.m. There will be a joint discussion with the Section of Anæsthetics on "The choice and technique of anæsthetics for nose and throat operations".

*President:* Lionel Colledge, F.R.C.S., 2 Upper Wimpole Street, London, W.1.

*Honorary Secretaries:* W. A. Mill, M.S., 89 Harley Street, London, W.1, and Terence Cawthorne, F.R.C.S., 149 Harley Street, London, W.1.

\* \* \*

*Section of Otology.* The next meeting of the Section will be held on Friday, February 5th, at 10.30 a.m. There will be a joint meeting with the United Services Section and a discussion on "The effect of aural conditions on fitness for active service".

*President:* Douglas Guthrie, F.R.C.S., 4 Rothesay Place, Edinburgh.

*Honorary Secretaries:* G. H. Howells, F.R.C.S., 79 Wimpole Street, London, W.1, and R. Scott Stevenson, F.R.C.S., 33 Harley Street, London, W.1.

---

## UNIVERSITY OF LONDON.

Applications are invited for the Geoffrey E. Duveen Travelling Studentship in Oto-Rhino-Laryngology, value £450 a year. Candidates must be registered as medical practitioners by the General Medical Council or have had previous education and experience which, in the opinion of the University, qualifies them to undertake research in the subject of Oto-Rhino-Laryngology or in any part thereof. Applications should reach the University on or before December 31st, 1936, and must be made on the prescribed form which may be obtained, together with further particulars, from the Academic Registrar, University of London, W.C.1.

# Peroral Endoscopy Table

Fitted with Head Rest for BRONCHOSCOPY, ŒSOPHAGOSCOPY,  
NASAL OPERATIONS Etc.

Designed by V. E. NEGUS, M.S., F.R.C.S.

The head rest enables the operator himself to place the patient in the desired position for a variety of operations. All parts touched by the operator are sterilisable.

The apparatus is an elaboration of Haslinger's Bronchoscopic head rest, but its range of utility is extended to enable the patient to be supported with the shoulders beyond the end of the table for œsophagoscopy, and to be kept in the correct attitude during operations performed in the sitting or semi-sitting position.
