Powder Diffraction is a quarterly journal published by the JCPDS-International Centre for Diffraction Data through Cambridge University Press.

Powder Diffraction is a journal of practical technique, publishing articles relating to the widest range of application—from materials analysis to epitaxial growth of thin films and to the latest advances in software. Although practice will be emphasized, theory will not be neglected, especially as its discussion will relate to better understanding of technique.

Submit manuscripts online at <http://mc.manuscriptcentral.com/pdj>. See the instructions on submitting your manuscript linked on that page. The editors will consider all manuscripts received, but assume no responsibility regarding them. There is no publication charge.

Most proofs are handled via email at kdaly@cambridge.org. Proofs and all correspondence concerning papers in the process of publication can also be addressed to: Production Editor, *Powder Diffraction*, Cambridge University Press, 32 Avenue of the Americas, New York, NY 10013-2473, U.S.A. Please include the job number in all correspondence.
