Testifying in Criminal Court: Emotional Effects on Child Sexual Assault Victims

Gail S. Goodman et al.

"Has immediate, far-reaching, and positive implications for child abuse litigation. . . . Forms the bench mark by which to evaluate future research." --*John E. B. Myers*

Increased reports of child sexual abuse are bringing unprecedented numbers of children into contact with the criminal justice system, raising fears that victims will be further harmed in the process. In this study, the adverse effects of testifying in court were examined among 218 children. The results show how testifying in the traditional manner interferes with children's ability to answer questions, thus undermining the very purpose of a trial: discovery of truth.
