

The Anschluss Question in the Weimar Era

A Study of Nationalism in Germany and Austria, 1918–1932

STANLEY SUVAL

In this first comprehensive look at the Anschluss question from both German and Austrian perspectives, Stanley Suval shows that Anschluss was an important component of both German revisionist foreign policy and domestic considerations. Suval's study offers new insights into the dilemmas involved in national unification, and depicts German nationalism at a time free from the hysteria associated with either the total collapse of 1918–19 or the active expansionism of Hitler. \$12.50

The Politics of Reparations

DAVID FELIX

"The figure of Walther Rathenau continues to fascinate students of German twentieth-century history. This latest study concentrates mainly on the last year of his life, when he was Minister of Reconstruction and later Foreign Minister in governments headed by Joseph Wirth. . . . Professor Felix pilots the reader skilfully through the tangle of statistics, assumptions and fantasies which made up the reparations problem, and shows how much deception and self-deception there was on both sides."—*History* \$9.00
