A DIVISION OF LONGMAN GROUP LIMITED

INFORMATION FOR CONTRIBUTORS TO  
*ANIMAL PRODUCTION*

*Animal Production* publishes papers on original research provided that they have not been and, with the exception of authors' summaries, will not be published elsewhere without the Editors' written permission. Authors' summaries can be reproduced if full acknowledgement of the source is made.

*Contributions* may be in the field of animal production, or in any related scientific field. Reports on techniques will be published only as appendices to scientific papers. Results of research which do not warrant a comprehensive presentation may be submitted for consideration as *Notes*. *Notes* are not intended for the publication of interim results. They should not exceed 2000 words or the equivalent inclusive of tables and illustrations.

*Manuscripts* should be typewritten in double spacing with wide margins. Each page and the lines on each page should be numbered. *Two* copies of the typescript (one of illustrations) should be sent to

Dr. Gerald Wiener,  
Animal Production,  
A.R.C. Animal Breeding Research Organisation,  
West Mains Road, Edinburgh EH9 3JQ, Scotland

Manuscripts are not returned with proofs; authors should therefore retain copies.

For guidance to the general style which should be adopted in the writing and presentation of papers authors are referred to *General Notes on the Presentation of Scientific Papers* (2nd revised ed., 1965) published by the Royal Society, London (price 5s.). Points of detail applying particularly to *Animal Production* are given below.

*Units of Measurement.* Metric units should be used whenever possible and exclusively for papers published from 1971 onward. (Exception may be made for papers in series started prior to 1970.)

*Illustrations.* The same material should not normally be presented in tables and figures. Legends should be typed on a separate sheet.

- (a) Diagrams should be drawn in Indian ink, about twice the size of the finished block, on Bristol board or stout tracing paper. Photographed diagrams are also accepted. Lettering inside the framework of the diagram should be inserted in Indian ink. Marginal lettering may, if preferred, be inserted lightly in pencil.
- (b) Photographs intended for half-tone reproduction should be on glossy paper. They will be accepted only if found necessary by the Editors.
- (c) Colour plates are unlikely to be accepted unless authors bear the cost.

# If you don't send this coupon, somebody will out-interdiscipline you.

How do you find those few vital articles in the hundreds of journals dealing with your own and related disciplines? Our new publication, **CURRENT CONTENTS<sup>®</sup>—AGRICULTURAL, FOOD & VETERINARY SCIENCES**, makes it easy. Weekly, in handy pocket form, it brings you the facsimiles of the table of contents of over 700 foreign and domestic journals relating directly or indirectly to your work. Titles and authors of more than 100,000 articles a year. Scan them in less than an hour a week. First issue, January 2, 1970. Check multidisciplinary scientists in other fields about acceptance of **CURRENT CONTENTS**. Then send coupon for details about this new one. And list of journals covered, plus special prepublication offer, group rates. Or phone Extension 300, 215-923-3300. No obligation.

A COMPLETE BIBLIOGRAPHY  
OF VETERINARY LITERATURE

This subject and author index of current literature on veterinary and related sciences is produced by the Commonwealth Bureau of Animal Health and was first published in 1933. It is issued quarterly and each year about 15,000 references are listed.

For compilation of the *Index* 700 periodicals in 22 languages are searched and coverage embraces the whole world.

Annual subscription is £22 10s. (\$58.50) (reduced rate to residents in British Commonwealth or Republic of Ireland—£11 5s.). Orders may be sent to the Central Sales Branch, Commonwealth Agricultural Bureaux, Farnham Royal, Slough, Bucks.

# ANIMAL BREEDING ABSTRACTS

will keep you aware of the latest literature on livestock breeding and production for the reasonable outlay of 160s. annually, or 315s. if you live outside the British Commonwealth or the Republic of Ireland. If you are investigating a specific subject, why not avail yourself of our **Annotated Bibliography Service**. Here are some recent titles:

<i>Number</i>	<i>Subject</i>	<i>Period covered</i>	<i>Number of References</i>	<i>Price</i>
112	Genotype-environment interaction in sheep and pigs	1955-67	33	9s.
114	Handling and transport of frozen semen	1955-68	75	21s.
117	German Yellow cattle	1954-68	26	6s.
118	Simmental cattle	1952-69	197	45s.
120	Effects of heat stress on reproduction in <i>Bos taurus</i> and <i>Bos indicus</i>	1951-68	51	15s.
122	Limousin cattle	1958-68	26	6s.
123	The performance of indigenous and crossbred dairy cattle in the tropics and sub-tropics	1964-69	113	40s.
125	South Devon cattle	1944-69	26	6s.
126	Crossbreeding in pigs	1960-69	115	35s.

These are duplicates of bibliographies prepared on request at the Commonwealth Bureau of Animal Breeding and Genetics, Edinburgh. In addition to the full title reference, the abstract published in *Animal Breeding Abstracts* is reproduced. They can be obtained on application to the Director of the Bureau, The King's Buildings, West Mains Road, Edinburgh, 9. The prices quoted include postage by ordinary mail, and the remittance should be sent with the order *unless you want it posted by air mail*. If the material is to be sent by air mail, do not send money with your request. You will receive an invoice which includes air mail postage.

## **Animal Behaviour Monographs**

There has for some time been a need for a vehicle whereby the longer article in the behavioural field could be published without upsetting the balance of existing journals, where, unless there was a considerable increase in the size of the journal concerned, its presence might displace otherwise acceptable papers. *Animal Behaviour Monographs* fulfils this requirement. The latest issue contains the paper, *Social Structure, Position, Choice and Micro-distribution of two Trout Species (Salmo Trutta, Salmo-Gairdneri) Resident in Mountain Streams*. By Thomas M. Jenkins, Jr. Full information about the journal from address below.
