

INFECTION CONTROL & HOSPITAL EPIDEMIOLOGY

VOLUME 29, NUMBER 5

MAY 2008

ORIGINAL ARTICLES

- 385 **Economic Evaluation of Standing Order Programs for Pneumococcal Vaccination of Hospitalized Elderly Patients** • Donald B. Middleton, MD; Chyongchiou J. Lin, PhD; Kenneth J. Smith, MD, MS; Richard K. Zimmerman, MD, MPH; Mary Patricia Nowalk, PhD, RD; Mark S. Roberts, MD, MPP; Dwight E. Fox, DMD
- 395 **Commentary: Challenges in Cost-Effectiveness Analyses of Hospital Interventions to Improve Quality** • Matthew M. Davis, MD, MAPP
- 398 **Factors Associated with Acquisition of Vancomycin-Resistant Enterococci (VRE) in Roommate Contacts of Patients Colonized or Infected with VRE in a Tertiary Care Hospital** • Qian Zhou, MD, MHSc; Christine Moore, ART; Sarah Eden, RN; Agnes Tong, MSc; Allison McGeer, MD, FRCPC; Mount Sinai Hospital Infection Control Team
- 404 **Risk of Vancomycin-Resistant *Enterococcus* (VRE) Bloodstream Infection Among Patients Colonized With VRE** • Chamion N. Olivier, MD, MSc; Ruth K. Blake, MT; Lisa L. Steed, PhD; Cassandra D. Salgado, MD, MS
- 410 **Cross-Transmission of Multidrug-Resistant *Acinetobacter baumannii* Clonal Strains Causing Episodes of Sepsis in a Trauma Intensive Care Unit** • Antonios Markogiannakis, MPH; George Fildisis, MD; Sofia Tsiplakou, MD; Alexandros Ikonomidis, PhD; Alexandra Koutsoukou, MD; Spyros Pournaras, MD; Evangelos N. Manolis, MD; George Baltopoulos, MD; Athanassios Tsakris, MD
- 418 **Outbreak of Multidrug-Resistant *Serratia marcescens* Infection in a Neonatal Intensive Care Unit** • Lisa L. Maragakis, MD, MPH; Amy Winkler, RN, MPH; Margaret G. Tucker, BS; Sara E. Cosgrove, MD, MS; Tracy Ross, BS; Edward Lawson, MD; Karen C. Carroll, MD; Trish M. Perl, MD, MSc
- 424 **Infection Control Experience in a Cooperative Care Center for Transplant Patients** • Ahmad Nusair, MD; Dawn Jourdan, RN; Sharon Medcalf, RN; Nedra Marion, RN; Peter C. Iwen, PhD; Paul D. Fey, PhD; Elizabeth Reed, MD; Alan Langnas, DO; Mark E. Rupp, MD
- 430 **Lethal Activity of Nonthermal Plasma Sterilization Against Microorganisms** • Richard A. Venezia, PhD; Michael Orrico, MS; Edward Houston, PhD; Shu-Min Yin, PhD; Yelena Y. Naumova, PhD

CONCISE COMMUNICATIONS

- 437 **Reprocessing and Reuse of Single-Use Medical Devices: A National Survey of Canadian Acute-Care Hospitals** • Julie Polisen, MSc; David Hailey, MSc, PhD; Kristen Moulton, BA; Hussein Z. Noorani, MSc; Philip Jacobs, DPhil; Nola Ries, MPA, LL.M.; Sarah Normandin, BSc, MLIS; Michael Gardam, MD, FRCPC
- 440 **University HealthSystem Consortium Quality Performance Benchmarking Study of the Insertion and Care of Central Venous Catheters** • Brian P. Harting, MD; Thomas R. Talbot, MD, MPH; Timothy H. Dellit, MD; Joan Hebden, RN, MS; Joanne Cuny, RN, MBA; William H. Greene, MD; John Segreti, MD
- 443 **Some Observations on the Migration of *Proteus mirabilis* and Other Urinary Tract Pathogens Over Foley Catheters** • Gareth J. Williams, PhD; David J. Stickler, DPhil

NOW you hold the power
to fight for your patients

INTRODUCING

The first antimicrobial
IV connector

Kills on average 99.9% or more of specific
common pathogens known to cause catheter-
related bloodstream infections (CR-BSIs)^{1*}

*These *in vitro* test results of typical devices have not been shown
to correlate with a reduction in infections.

To learn more about the new V-Link device or any of our other products,
contact your Baxter representative or the Baxter Product Information
Center at 1-800-933-0303, or visit www.baxter.com.

The antimicrobial agent is not intended to be used as a treatment for existing infections. Rx only.
For safe and proper use of this device, please refer to the complete instructions for use.

Options at work.

INFECTION CONTROL & HOSPITAL EPIDEMIOLOGY

VOLUME 29, NUMBER 5

MAY 2008

CONTENTS CONTINUED FROM COVER

- 446 **Interobserver Variability in the Assessment of Clinical Criteria for Suspected Urinary Tract Infection in Nursing Home Residents** • Manisha Juthani-Mehta, MD; Mary Tinetti, MD; Eleanor Perrelli, MSN; Virginia Towle, MPhil; Peter H. Van Ness, PhD, MPH; Vincent Quagliarello, MD
- 450 **Methicillin-Resistant *Staphylococcus aureus* Infection in a College Football Team: Risk Factors Outside the Locker Room and Playing Field** • Lennox K. Archibald, MD, FRCP; Jerne Shapiro, MPH; Anthony Pass, MEd; Kenneth Rand, MD; Frederick Southwick, MD
- 454 **Incidence of Methicillin-Resistant *Staphylococcus aureus* Nosocomial Infections in Intensive Care Units in Lyon University Hospitals, France, 2003-2006** • M. Moalla, PharmD; D. Baratin, MD; M. Giard, MD; P. Vanhems, MD, PhD
- 457 **Improvement in Prescribing Habits and Economic Outcomes Associated With the Introduction of a Standardized Approach for Surgical Antimicrobial Prophylaxis** • Elizabeth D. Hermsen, PharmD, MBA; Sara Smith Shull, PharmD, MBA; Susan E. Puumala, MS; Mark E. Rupp, MD
- 462 **Effect of Building Construction on *Aspergillus* Concentrations in a Hospital** • Marian D. Goebes, PhD; Ellen Jo Baron, PhD; Kathleen L. Mathews, RN, CIC; Lynn M. Hildemann, PhD
- 465 **Effect of Accessibility of Influenza Vaccination on the Rate of Childcare Staff Vaccination** • Ingi Lee, MD; Sarah Thompson, MD; Ebbing Lautenbach, MD, MPH, MSCE; Leanne B. Gasink, MD, MSCE; Barbara Watson, MBChB, FRCP, FAAP; Neil O. Fishman, MD; Zhen Chen, PhD; Darren R. Linkin, MD, MSCE

LETTERS TO THE EDITOR

- 468 **Should Infection Control Teams Enforce an Antimicrobial Stewardship Program for All Clinicians?** • Kenichi Nomura, MD, PhD
- 469 **Simple Quality Improvement Interventions Reduce Unnecessary Intravascular Device Dwell Time** • Stephen J. McBride, MB ChB; David W. Scott, PhD; David G. Partridge, MB BCh; Simon E. Briggs, MB ChB
- 470 ***Legionella* Colonization of the Respiratory Tract in Patients Without Nosocomial Exposure** • Savina Ditommaso, ScD, PhD; Monica Giacomuzzi, BSc; Marino Gentile, BSc; Angela Ruggenini Moiraghi, MD, PhD; Roberto Arione, MD, PhD; Sergio Baldi, MD, PhD; Paolo Solidoro, MD, PhD; Adriano Ceccarelli, MD, PhD; Carla M. Zotti, ScD, PhD
- 472 **Impact of Knowledge and Positive Attitudes About Avian Influenza (H5N1 Virus Infection) on Infection Control and Influenza Vaccination Practices of Thai Healthcare Workers** • Anucha Apisarnthanarak, MD; Piphob Phattanakeitchai, MD; David K. Warren, MD; Victoria J. Fraser, MD
- 474 **Disinfectants Containing Chlorine: An Occupational Hazard?** • Frank Andreas Van Laer, RN, CIC; Rudi Verdyck, EM; Hilde Jansens, MD; Elke Coenen, MD
- 475 **Prevalence of Nosocomial Infections in Adult Intensive Care Units at a Kosova Teaching Hospital** • Gazmend Spahija, MD; Lul Raka, MD; Gjyle Mulliqi, MD, PhD; Nexhmije Spahija, MD; Zana Bukoshi, MD; Faton Hoxha, MD, PhD; Avdyl Krasniqi, MD, PhD

Infection Control and Hospital Epidemiology (ISSN 0899-823X) is published monthly by the University of Chicago Press, 1427 E. 60th St., Chicago, IL 60637-2954 (<http://www.journals.uchicago.edu/ICHE/>). The editorial office is in Chicago, Illinois.

Editorial Office

Communications should be addressed to the Editor, *Infection Control and Hospital Epidemiology*, 1427 E. 60th St., Chicago, IL 60637-2954; (e-mail: iche@press.uchicago.edu; telephone: 773-702-2448, fax: 773-753-4247). Contributors should consult the Information for Authors, which is available at the journal's Web site.

Advertising

Please direct advertising inquiries to Journals Advertising, University of Chicago Press, 1427 E. 60th St., Chicago, IL 60637 (e-mail: thill@press.uchicago.edu; telephone: 773-702-8187; fax: 773-702-0172). Publication of an advertisement in *Infection Control and Hospital Epidemiology* does not imply endorsement of its claims by the Society for Healthcare Epidemiology of America, by the Editor, or by the University of Chicago. Correspondence regarding advertising should be addressed to the advertising office in Chicago.

Permissions

Articles may be copied or otherwise reused without permission only to the extent permitted by Sections 107 and 108 of the US Copyright Law. Permission to copy articles for personal, internal, classroom, or library use may be obtained from the Copyright Clearance Center (<http://www.copyright.com>). For all other uses, such as copying for general distribution, for advertising or promotional purposes, for creating new collective works, or for resale,

please contact the Permissions Coordinator, Journals Division, University of Chicago Press, 1427 E. 60th St., Chicago, IL 60637 (e-mail: journalpermissions@press.uchicago.edu; fax: 773-834-3489). Articles in the public domain may be used without permission, but it is customary to contact the author.

Subscriptions

Subscription rates for 2008 are \$164 for individuals and \$386 for institutions. Additional rates for non-US subscribers and reduced rates for fellows, residents, and students are available at <http://www.journals.uchicago.edu/ICHE>. Subscription agent for Japan: Kinokuniya Company, Ltd. Individuals have the option to order directly from the University of Chicago Press. Single copy rates: individuals \$17; institutions \$38.

Please direct subscription inquiries, requests for back issues, and address changes to Journals Division, University of Chicago Press, P.O. Box 37005, Chicago, IL 60637 (e-mail: subscriptions@press.uchicago.edu; telephone: 773-753-3347 or toll-free in the United States and Canada 877-705-1878; fax: 773-753-0811 or toll-free 877-705-1879).

Postmaster: Send address changes to *Infection Control and Hospital Epidemiology*, University of Chicago Press, P.O. Box 37005, Chicago, IL 60637-2954.

Periodicals postage paid at Chicago, Illinois, and at an additional mailing office.

Published by the University of Chicago Press, Chicago, Illinois. © 2008 by the Society for Healthcare Epidemiology of America. All rights reserved. This publication is printed on acid-free paper.

In preventing CRBSI,

ZERO 

infection rate should be the goal.

When it comes to hospital-acquired infections, zero should be the only acceptable infection rate. BIOPATCH® Protective Disk with CHG is the only one of its kind proven to reduce Catheter-Related Bloodstream Infections (CRBSI) by 60%¹. The proprietary technology in BIOPATCH® continually releases CHG for up to 7 days, for sustained antimicrobial action. CRBSI can be attributed to high mortality rates, so add BIOPATCH® to your catheter insertion and dressing change protocols and get closer to the goal of zero. For additional information or technical support, call 877-ETHICON. For Full Prescribing Information visit www.BIOPATCH.com and, to order, please call 800-255-2500.

©ETHICON, INC. 2008

Despite its diminutive size the MicroCLAVE Neutral Displacement Connector can be one of your most powerful allies in the fight against catheter-related bloodstream infections. Neutral displacement and the ability to eliminate heparin flushing promotes better patient outcomes.

MicroCLAVE®

NEUTRAL DISPLACEMENT CONNECTOR

Small is powerful.

The History of Medicine from Chicago

The Discovery of Insulin

Twenty-fifth Anniversary Edition

Michael Bliss

"Scrupulously researched and compellingly readable. . . I wholeheartedly recommend it to anyone with an interest in diabetes, medical history, or medical scandal and gossip."—*British Medical Journal*
"The story of insulin's discovery ought to be a novel . . . but Michael Bliss's splendid account is just as absorbing as any fiction."—*Isis*

Paper \$22.50

The Greatest Killer

Smallpox in History

Donald R. Hopkins

"Nowhere else that I know is there to be found such a compact account of smallpox in all five continents and of its impact on the history of each. . . I found it a sobering and broadening experience to be exposed to Hopkins's story—there will be few people who would not benefit from reading it."
—Keith Dumbell, *Nature*
"A superb book."—former President Jimmy Carter

Paper \$18.00

Healing the Land and the Nation

Malaria and the Zionist Project in Palestine, 1920-1947

Sandra M. Sufian

"*Healing the Land and the Nation* is a truly innovative and exciting history of the coproduction of a healthy environment, healthy bodies, and the modern settler nation-state. Sufian studies this exceptionally fraught and controversial colonial site with exemplary balance and sensitivity."—Warwick Anderson, University of Wisconsin-Madison

Cloth \$40.00

PROVEN

to reduce incidence of CRBSI by 60%.

When it comes to preventing Catheter-Related Bloodstream Infections (CRBSI), prepping the patient's skin is not enough. That's because resident bacteria begin to recolonize the skin surface within hours of thorough antiseptic application. BIOPATCH® Protective Disk with CHG is proven to reduce incidence of CRBSI by a significant 60%.¹ The proprietary technology in BIOPATCH® Disk continually releases CHG for up to 7 days, for sustained antimicrobial action. So add BIOPATCH® to your catheter insertion and dressing change protocols and get closer to the goal of zero CRBSI. For additional information or technical support, call 877-ETHICON. For Full Prescribing Information, and to order, visit www.BIOPATCH.com, or call 800-255-2500.
