UNESCO

The UNESCO Mobile Microfilm Unit has spent considerable amounts of time in a number of countries reproducing manuscripts and documents. Countries visited and numbers of pages photographed in each include Barbados (120,000), Chile (250,000), Dominican Republic (156,000), Paraguay (157,000) and Peru (135,000).

UNESCO has provided numerous experts to advise on the establishment of new services: J. K. Thompson undertook two missions to Argentina in connection with establishing an International Documentation Center, and Miss Edith Wise served as consultant on the Center's development. Two grants totaling \$24,000 were made for books, equipment and salaries in the Center.
