# THE THYROID TREATMENT

and the Preparations Manufactured by  
ALLEN & HANBURY'S LTD.

**Myxœdema.**—The relief afforded to cases of Myxœdema by the use of the Thyroid Gland during the last five years has marked a totally new departure in the history of medicine. We are beginning to understand the physiological importance of Internal Secretions to the animal economy.

Myxœdema has been recognised as long ago as 1874 by Sir Wm. Gull as a distinct disease, and before that time it had been found that animals invariably succumbed after total extirpation of the Thyroid.

Cretinism, too, had long been recognised to be connected with congenital absence or deficiency in the glandular structure of the Thyroid.

Time enough has now elapsed to prove that those cases of Myxœdema which have been restored to health maintain that condition as long as they continue to take the gland or efficient preparation of its extract.

**Sporadic Cretinism.**—As regards Sporadic Cretinism, we cannot do better than refer the reader to an original article which appeared in the *Lancet*, with Photographs, by W. W. O.—, M.D. Oxon., M.R.C.P. London, November 4th, 1893, p. 1113.

All these cases were treated by Allen and Hanbury's Thyroidin Tablets. The results are perhaps more remarkable than those obtained in the allied condition of Myxœdema. The writer observes that these Preparations have given entire satisfaction. The Photographs speak for themselves.

The success attending the use of Thyroid Extract in the Myxœdematous condition of the skin and its appendages has suggested its employment in various skin lesions.

**Psoriasis.**—Very good results have been attained in some cases of obstinate psoriasis by using Thyroidin Tablets.

In a recent number of the *Lancet* three of these cases are reported. After treatment with iodide of potassium and arsenic internally, and chrysophanic acid ointment locally, showed no improvement, but, on the other hand, the disorder was in some cases aggravated, developing a general dermatitis of the face with febrile disturbance.

But on the treatment being changed, and TABLETS OF THYROID GLAND (ALLEN AND HANBURY'S) being administered, the writer observes:

*Case 1.*—"The improvement was very striking, . . . the scales were completely gone, and all that was left was a slight discoloration of the skin where the disease had appeared."

*Case 2.*—"The scalp and limbs were nearly clear. . . . The patient, who has suffered from the disease for nineteen years past, has had no discomfort from the remedy, and says that nothing has ever acted so rapidly upon his disease."

*Case 3.*—"The result was astonishing, for in three days there was a marked improvement, and no further spread of the disease had taken place. No discomfort was experienced from the remedy."

For full details of the above quotations see the *Lancet*, January 6th, 1894, p. 19.

Whilst formerly liquid extracts and the raw gland were used, ALLEN AND HANBURY'S were the first to offer the active principles of the Thyroid Gland in the compressed form, which is now the favourite mode of administration. The glands are dissected and carefully examined and separated from all blood, fat, and inert tissue, which readily decompose and produce gastric disturbances, vomiting, &c., and which give to some preparations on the market a most repulsive smell, especially when they have been kept for a short time.

## THYROIDIN TABLETS

Readily disintegrate when swallowed, and from their shape and size are taken without difficulty. If preferred, they may be dissolved in a little water before being swallowed.  
One Tablet equals 5 grs. of Gland. Dose: 1 or 2.

## THYROIDIN CACHETS

Contain 5 grs. of Thyroidin in each. Dose: 1 or 2. A very suitable and convenient mode of taking Thyroidin.

## ELIXIR THYROIDIN

Is a very palatable, slightly sweet preparation, of which one fluid ounce represents one Gland (average). It will be found to keep well without change. Dose: 1 to 4 fluid drachms.

The above are put up in 1s., 2s. 6d., and 4s. 6d. packages (retail), or 8s., 21s., and 40s. per doz. to the Profession.
